Interior accessories systems for kitchens
of timeless elegance

INSIDE

SieMatic

SieMatic Interior Accessories Systems: harmonious combination of excellence inside and out

Since the founding of our company in 1929, we have been driven by the same goal:
to develop kitchens that will serve as models for the industry. We strive to continue setting
the standard for variety of individualized planning options, precision workmanship of high-quality
materials, and timeless elegance of design. And that goes not only for the language
of form of our kitchen furniture but also for all the details waiting behind doors and drawers.
Giving you the ability to design outside and inside as a harmonious whole.

DESIGN PRECISELY TO YOUR OWN TASTE.

With SieMatic style collections, you plan the kitchen that fits your life exactly. Inside and out.

MEET YOUR INDIVIDUAL NEEDS.

SieMatic Interior Accessories Systems offer you the most beautiful options for your specific lifestyle.

SIEMATIC INTERIOR ACCESSORIES SYSTEMS FOR

DRAWERS AND PULL-OUTS

SieMatic drawers and pull-outs are perfection in both appearance and performance. No technical detail disturbs the aesthetics. They are sturdy, easy to open, and available in any width from 25 to 120 cm, precisely to the millimeter. And best of all: They give you the greatest possible freedom of design.

SIEMATIC INTERIOR ACCESSORIES SYSTEMS FOR

TALL, WALL, AND BASE CABINETS

Nowhere is space as valuable as in the kitchen. With the *MultiMatic* Interior Accessories System you don't sacrifice a single centimeter. Because the system can be put together and adjusted individually for arranging your things practically. Giving you more space: up to 30% more.

SieMatic Interior Accessories Systems for Drawers and Pull-Outs

FOUR SYSTEMS, INFINITE POSSIBILITIES

TIMELESS ELEGANCE HAS MANY FACES AT SIEMATIC

Whether you prefer the puristic, urban, or classic style collection, with four different interior design systems, *SieMatic* offers you fascinating options for designing the interior of your kitchen exactly according to your personal taste and to harmonize it elegantly with the design and surfaces of the furniture elements.

ALUMINUM

Highly customizable accessories in aluminum and dark smoked chestnut or light oak in combination with dark grey flock mats define the character of this SieMatic Interior Design.

WOOD

Versatile combinations of SieMatic cutlery and accessory inserts in light oak, combined with numerous functional inserts in light oak, porcelain, and aluminum, give this option its cozy yet elegant appeal.

JAVA OAK

With its stylish mix of real wood and laminate, the interior design system in "java oak" exudes high quality and is easy to care for. Numerous combination options makes it an extremely attractive alternative.

LAMINATE

With its modern, graphical form, the easy-to-care-for SieMatic Interior Design of matte white laminate is a popular alternative or supplement to the SieMatic aluminum or wood Interior Accessories Systems.

THE ALUMINUM INTERIOR ACCESSORIES SYSTEM

An aesthetic treat that is unique in its functionality and unmistakable in its graphical look. This is ensured by the innovative new material combination of aluminum, light oak or dark smoked chestnut, flock, and porcelain, as well as precise workmanship down to the smallest detail. Intelligent, contemporary ideas, like the integrated USB connection, offer valuable functions for the "living space" of the kitchen. The highly flexible system makes it possible to rearrange and re-equip drawers and pull-outs at any time in a way that could not be more individual. The unique Aluminum Interior Accessories System is available only from *SieMatic*.

FUNCTION AND EMOTION

NEVER HAS CREATING ORDER BEEN SO MUCH FUN

The basis of the *SieMatic* Aluminum Interior Accessories System is provided by aluminum elements that can be combined depending on desired function and placed securely upon a flock mat. The resulting spaces are equipped with cutlery and additional inserts in dark smoked chestnut or light oak. Drawers and pull-outs can also be equipped with numerous functional elements, such as the appealing forms of porcelain jars in various sizes that can be labeled and re-labeled again and again in pencil. The flocked underside means that they will not slip out of place on a flock mat, though they can easily be removed and rearranged at any time. We call it the *SieMatic Flock2Block system*.

THE KINGSIZE COMPARTMENT

Thanks to its great depth, it offers ideal storage space for tall objects in cabinet drawers starting at a width of 60 cm. The KingSize Compartment is a clever solution, available in this form only from SieMatic.

THE BI-LEVEL DRAWER

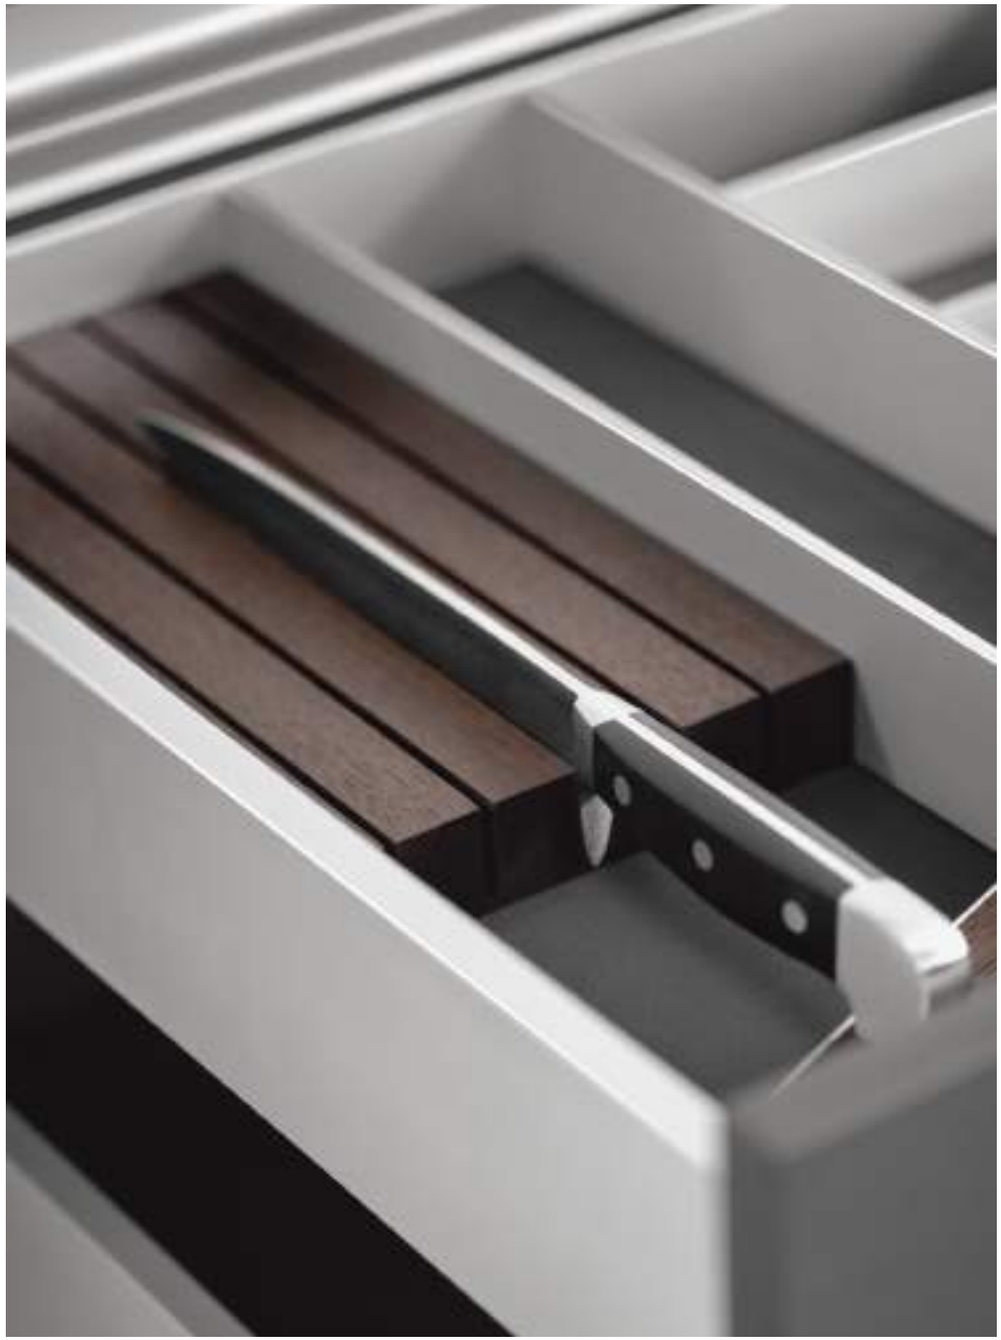
Under the upper level, which provides direct access to frequently needed items such as cutlery, a second level awaits, elegantly doubling your storage space.

THE GRIPDECK

The SieMatic GripDeck made of dark gray flock in "smoked chestnut", "light oak" or "java oak" has rubber strips to prevent even heavy objects from sliding.

THE INTERNAL DRAWER

As a second level in a drawer, it offers even more variability and also ensures a cleaner look to the front panel with fewer joints.



THE KNIFE HOLDER

It not only protects high-quality knives but also protects against injuries when removing them: available in smoked chestnut or light oak options.

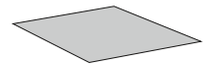
ELEMENTS IN THE SIEMATIC ALUMINUM INTERIOR ACCESSORIES SYSTEM

From silverware to cast iron pot; from spice collection to iPad. Here you will find space for everything, just like you've always dreamed. Choose from the wide variety of different functional elements and design the drawers and pull-outs of your *SieMatic* to meet your own individual needs. Depending on the type, width, and depth of *SieMatic* drawers and pull-outs, different solutions are available. That's why we recommend that you discuss your ideas with your *SieMatic* Specialist in detail and work together to plan the perfect solution for your personal needs.

These figures and item numbers show system elements for the standard cabinet body depth (56/61 cm).

1A/01 — **INSERT MATS FOR DRAWERS AND PULL-OUTS**

Item description: Flocked insert mat in dark grey, various sizes for various cabinet widths and cabinet body depths of 56/61 cm, 71 cm, and 46 cm
Based on the Flock2Block principle

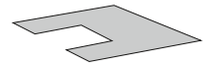


Item. no. / widths:

EM 30 A / 30 cm	EM 70 A / 70 cm
EM 40 A / 40 cm	EM 80 A / 80 cm
EM 45 A / 45 cm	EM 90 A / 90 cm
EM 50 A / 50 cm	EM 100 A / 100 cm
EM 60 A / 60 cm	EM 120 A / 120 cm

1A/02 — **INSERT MATS FOR PULL-OUTS WITH CUTOUT**

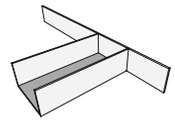
Item description: Flocked insert mat for pull-outs with cutout for downdraft exhaust units in dark grey, various sizes for different cabinet widths, basis for the Flock2Block principle



Item. no. / widths:
EMD 90 A / 90 cm
EMD 100 A / 100 cm
EMD 120 A / 120 cm

1A/03 — **CUTLERY BASE, NARROW**

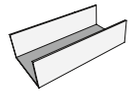
Item description: Aluminum with wood insert, matches the add-on tray below, flocked underside, 20 cm width, available for cabinet body depths 56/61 cm, 71 cm, and 46 cm



Item. no. smoked chestnut: BB 20 A RK
Item no. light oak: BB 20 A EH

1A/04 — **ADD-ON TRAY FOR CUTLERY BASE, NARROW**

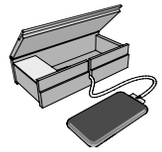
Item description: Aluminum with wood insert, matches the cutlery base above, flocked underside, width 19.6 cm, depth 9.8 cm



Item. no. smoked chestnut: EBB 20 A RK
Item no. light oak: EBB 20 A EH

1A/05 — **USB CHARGING STATION FOR SMARTPHONES**

Item description: Wood with aluminum accents, 2 USB ports, including energy supply strip for electrical connections, matches narrow cutlery base, flocked underside, width 19.6 cm, depth 9.5 cm



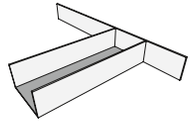
Item. no. smoked chestnut: EUSB 20 A RK
Item no. light oak: EUSB 20 A EH

1A/06 **CUTLERY BASE, WIDE**

Item description: Aluminum with wood insert, matches the wide add-on tray below, flocked underside, width 26.5 cm, available for cabinet body depths 56/61 cm, 71 cm, and 46 cm

Item. no. smoked chestnut: BB 26 A RK

Item no. light oak: BB 26 A EH

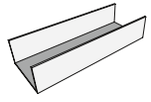


1A/07 **ADD-ON TRAY FOR CUTLERY BASE, WIDE**

Item description: Aluminum with wood insert, matches wide cutlery base, flocked underside, width 26.1 cm, depth 9.8 cm

Item. no. smoked chestnut: EBB 26 A RK

Item no. light oak: EBB 26 A EH

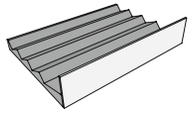


1A/08 **SMALL ITEM ORGANIZER**

Item description: Wood with aluminum divider, matches wide cutlery base, flocked underside, width 26.1 cm, depth 19.1 cm

Item. no. smoked chestnut: EKT 26 A RK

Item no. light oak: EKT 26 A EH

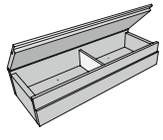


1A/09 **MULTI-SECTION BOX**

Item description: Wooden box with aluminum accents and triple-adjustment aluminum rail, matches wide cutlery base, flocked underside, width 26.1 cm, depth 9.5 cm

Item. no. smoked chestnut: EMSB 26 A RK

Item no. light oak: EMSB 26 A EH

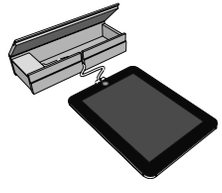


1A/10 **USB CHARGING STATION FOR TABLETS**

Item description: Wood box with aluminum accents, 2 USB ports, including energy supply strip for electrical connections, matches wide cutlery base, flocked underside, width 26.1 cm, depth 9.5 cm

Item. no. smoked chestnut: EUSB 26 A RK

Item no. light oak: EUSB 26 A EH

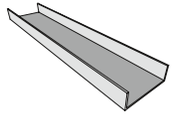


1A/11 **VERTICAL DIVIDER**

Item description: Aluminum with wood insert, for 30 cm wide drawers, flocked underside, width 9.9 cm

Item. no. smoked chestnut: BS 9 A RK

Item no. light oak: BS 9 A EH

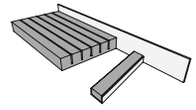


1A/12 **KNIFE INSERT WITH KNIFE BLOCK**

Item description: Wood with aluminum accents for 5 knives, knife block can be positioned freely, flocked underside, width 16.5 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EM 16 A RK

Item no. light oak: EM 16 A EH



1A/13 **SPICE JAR HOLDER WITH 12 SPICE JARS**

Item description: Wood with aluminum accents, 12 porcelain jars with glass lid and odor seal, flocked underside, width 16,5 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EG 16 A RK

Item no. light oak: EG 16 A EH

1A/14 **SPICE JAR**

Item description: Porcelain with glass lid and odor seal, flocked underside, height 5.3 cm, depth 6.2 cm

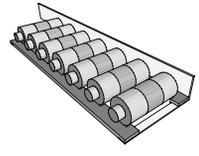
Item no.: GD 1 P

1A/15 **SPICE MILL INSERT WITH 7 SPICE MILLS**

Item description: Wood with aluminum accents, with transparent stainless steel spice mills, flocked underside, width 16.5 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EGM 16 A RK

Item no. light oak: EGM 16 A EH

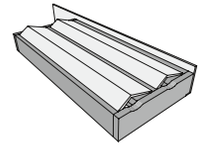


1A/16 **FOIL ROLL INSERT**

Item description: Wooden frame with aluminum divider and 2 aluminum covers with serrated edge, suitable for aluminum foil, clear plastic wrap, parchment paper, etc., flocked underside, width 16.5 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EF 16 A RK

Item no. light oak: EF 16 A EH



THE SMALL ITEM ORGANIZER

Small things you'd like to store individually find a great place in the small item organizer. It is available in smoked chestnut and light oak.

THE WOODEN BOXES WITH PORCELAIN LIDS

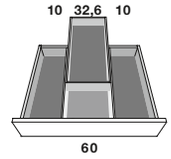
Available in various sizes, in smoked chestnut or light oak, they can be stacked as needed. The porcelain lids can be labeled in pencil.

1A/17 **2-LEVEL DRAWER INSERT**

Item description: Aluminum insert with 2 levels, including 3 flocked insert mats, for cabinet body width 60 cm and depth 56/61 cm

Item. no. smoked chestnut: EBX 33 A RK

Item no. light oak: EBX 33 A EH

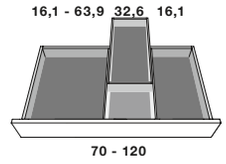


1A/18 **2-LEVEL DRAWER INSERT**

Item description: Aluminum insert with 2 levels, including 3 flocked insert mats, for cabinet body width 70–120 cm, and depth 56/61 cm

Item. no. smoked chestnut: EBX 33 A RK

Item no. light oak: EBX 33 A EH

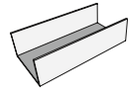


1A/19 **ADD-ON TRAY FOR 2-LEVEL DRAWER INSERT**

Item description: Aluminum with wooden insert, flocked underside, width 29.8 cm, depth 9.8 cm

Item. no. smoked chestnut: EBB 30 A RK

Item no. light oak: EBB 30 A EH

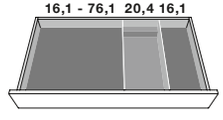


1A/20 **KINGSIZE COMPARTMENT FOR TALL ITEMS**

Item description: Aluminum insert with wooden shelf, including 3 flocked insert mats, for cabinet body widths 60–120 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EKS 20 A RK

Item no. light oak: EKS 20 A EH

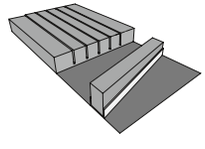


1A/21 **KNIFE INSERT WITH BLOCK FOR KINGSIZE COMPARTMENT, FOR 5 KNIVES**

Item description: Wood with aluminum accents, knife block can be positioned freely, flocked underside, width 19.6 cm, depth 24 cm, available for cabinet body depths 56/61 cm and 71 cm

Item. no. smoked chestnut: EKSM 19 A RK

Item no. light oak: EKSM 19 A EH

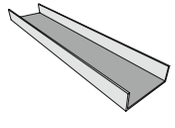


1A/22 **LENGTHWISE DIVIDER FOR SHALLOW DRAWERS**

Item description: Aluminum with wooden insert, for shallow drawers, flocked underside, width 9.9 cm, available for cabinet body depths 56/61 cm and 46 cm

Item. no. smoked chestnut: BSF 9 A RK

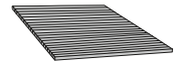
Item no. light oak: BSF 9 A EH



1A/23 **GRIPDECK INSERT PANELS, FLOCKED**

Item description: Flocked insert panel in dark grey with anti-slip strips, for regular and internal pull-outs, various sizes for various cabinet widths, available for cabinet body depths 56/61 cm, 71 cm, and 46 cm

Item. no. / widths:
EP 30 A / 30 cm
EP 40 A / 40 cm
EP 45 A / 45 cm
EP 50 A / 50 cm
EP 60 A / 60 cm
EP 70 A / 70 cm
EP 80 A / 80 cm
EP 90 A / 90 cm
EP 100 A / 100 cm
EP 120 A / 120 cm



1A/24 **GRIPDECK INSERT PANELS WITH CUTOUT, FLOCKED**

Item description: Flocked insert panel in dark grey with anti-slip strips, for pull-outs with cutouts for downdraft exhaust units, various sizes for various cabinet widths

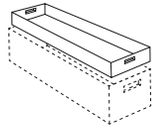
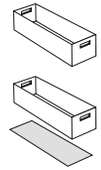
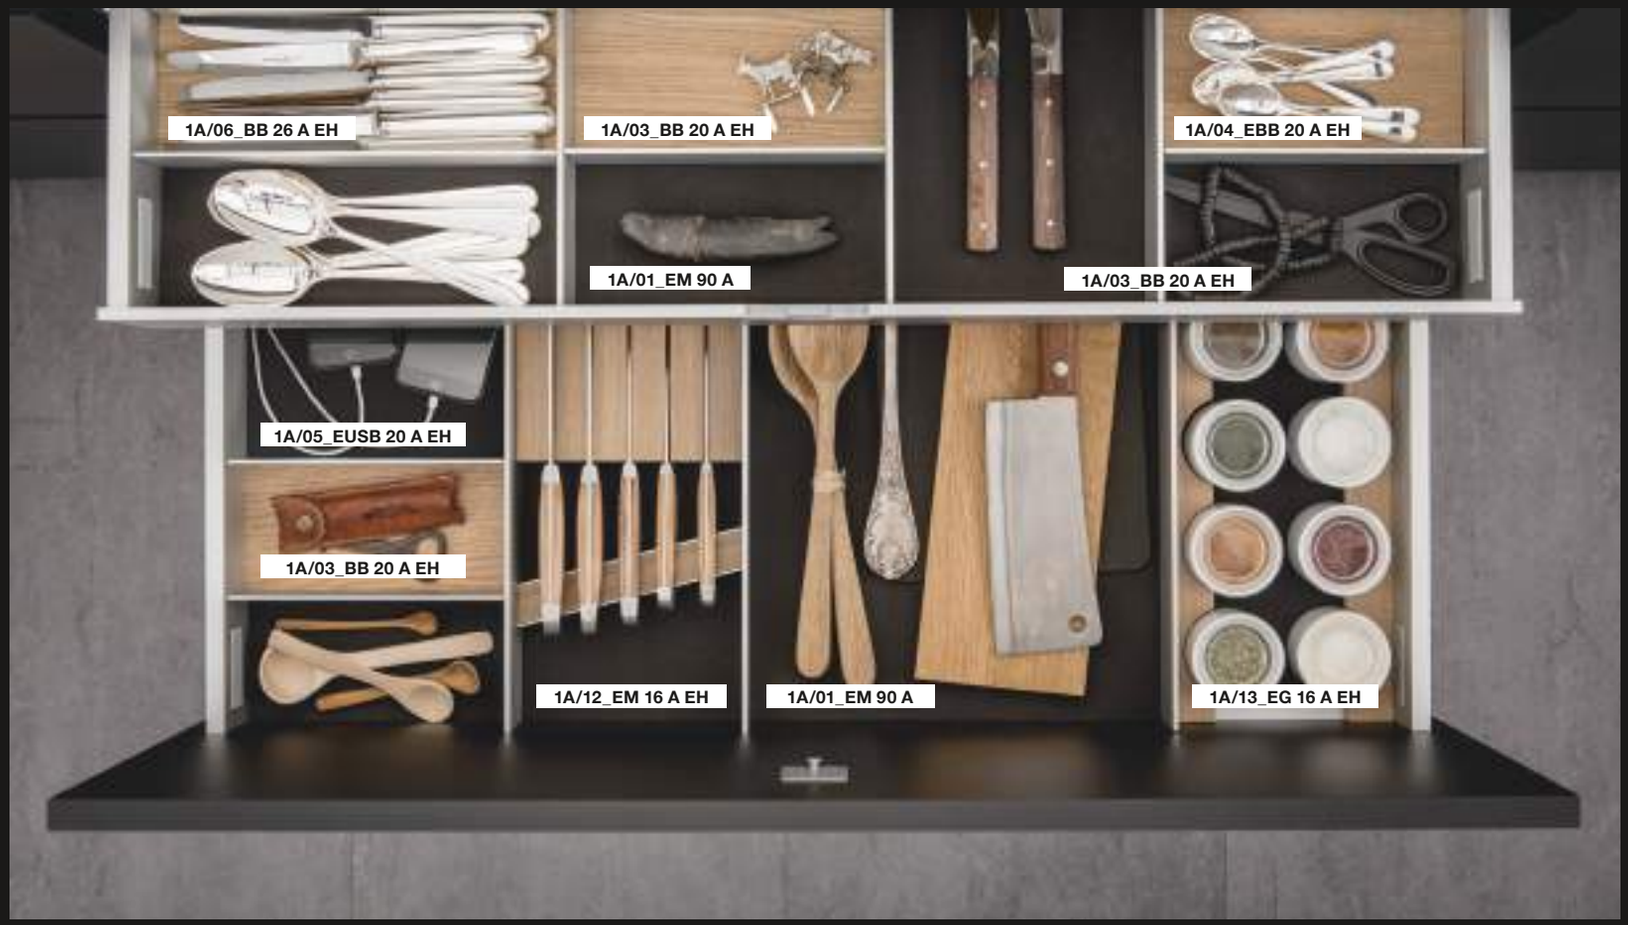
Item description: Wood, 2 inserts, 23.6 × 5.5 × 47.2 cm (W × H × D), can be stacked on BOX 1 H
Item no. dark oak: TB 1 H ED
Item no. light oak: TB 1 H EH



1A/35 **BOX FOR TALL CABINETS / SHELVES**

Item description: Wood, 2 inserts, 11.8 × 9 × 30 cm (W × H × D), for tall cabinet and shelf depth
Item no. dark oak: BOX 4 H ED
Item no. light oak: BOX 4 H EH
Item no. dark oak with metal base: BOX 4 HM ED
Item no. light oak with metal base: BOX 4 HM EH





SAMPLE ARRANGEMENT

Here you see a *SieMatic* pull-out with additional internal drawer. On both levels of the 90 cm wide pull-out, the dark grey flocked mats (1A/01), each covering the entire drawer, form the basis for the*SieMatic Flock2Block* system. Three of the numerous system inserts available in *"light oak"* and with flocked undersides are placed on the upper level: The wide cutlery base element (1A/06), the narrow cutlery base element (1A/03), and the narrow add-on tray for cutlery (1A/04). The lower level shows the USB charging station for smartphones (1A/05), the narrow cutlery base element (1A/03), the knife insert with freely movable knife block (1A/12), and the spice jar holder (1A/13).

WOODEN INTERIOR ACCESSORIES

The material combination of the *SieMatic* wood interior accessories, winner of design awards, looks like it was “cast from a single mold”: light oak, aluminum, and porcelain, elegantly connected by a light shade of grey. With its natural charm, it brings even more warmth and comfort to the kitchen. Those who appreciate this quality as much as the precise workmanship of the high-quality materials, the wide range of individual options, and the ease of planning will enjoy the sight that presents itself each day when drawers and pull-outs are opened.

NEW IDEAS STACKING UP

EASY ACCESS

The *SieMatic* Wood Interior Accessories System also encompasses many accessories that are as practical as they are decorative – including stackable porcelain jars and wooden boxes in various heights that can be labeled individually and provide optimal use of storage space. The matching *GripDeck* keeps pots, pans, and heavy supplies from slipping and sliding.

Candle
Flour

THE INTERNAL DRAWER

It offers storage on two levels, connected by a "carry-out catch." The touch of a single finger reveals the lower level, which can accommodate taller objects.

THE WORKMANSHIP

First-class workmanship of high-quality materials such as light oak, characteristic of the SieMatic philosophy, is revealed in every detail – even where it may not be seen every day.

THE PORCELAIN JARS

Many SieMatic functional elements are in fine form on the table – such as white porcelain jars in various shapes and sizes.

THE GRIPDECK

With their rubber strips, the SieMatic GripDeck inserts protect pots and pans against sliding and the bottom of the pull-out against scratching.

THE SPICE INSERTS

Spice mills and jars in porcelain with glass lids are among the many SieMatic interior accessories that are as practical as they are beautiful.

INSERTS IN THE SIEMATIC WOOD INTERIOR ACCESSORIES SYSTEM

Good organization is the best helper in the household. The *SieMatic* Wood Interior Accessories System offers numerous cutlery and accessory inserts, as well as add-on elements, which can be combined individually as needed. And it makes it easy for you to plan your interior organization according to your own needs and ideas. Depending on the type, width, and depth of your *SieMatic* drawers and pull-outs, different solutions are available. That's why we recommend that you discuss your selections with your *SieMatic* Specialist. They have the necessary detailed expertise to help you find the perfect solution for your personal needs.

These figures and item numbers show system elements for the standard cabinet body depth (56/61 cm).

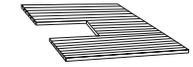
1H/25 **GRIPDECK INSERT PANELS WITH CUTOUT, VENEER**

Item description: Veneer insert mat in light oak with anti-slip strips, for pull-outs with cutouts for downdraft exhaust units, various sizes for various cabinet widths

Item. no. / widths: EPD 90 H4 / 90 cm

EPD 100 H4 / 100 cm

EPD 120 H4 / 120 cm



SAMPLE ARRANGEMENT

The upper level of this 90 cm wide pull-out has a cutlery insert for drawers and pull-outs (1H/01) combined with an insert for 2 rolls of foil (1H/07). The lower level is lined completely with the veneer *GripDeck* insert (1H/24), whose rubber strips protect items freely placed on the *GripDeck* from sliding. Placed on top are 2 stackable wooden boxes with porcelain lids that can be labeled (1H/15) as well as the insert for 3 porcelain provision jars (1H/10), also with lids that can be labeled.

THE “JAVA OAK” INTERIOR DESIGN

With the combination of real-wood elements and an elegant laminate with natural-looking surface texture, the *SieMatic* cutlery inserts in *“java oak”* unite the harmonious overall effect of wood and the easy-care properties of laminate.

PERFECT HOLD

The dark non-slip strips not only create a captivating contrast to the "java oak" surface, but also ensure a sturdy hold.

THE WOODEN BOXES

With their attractive shape, the boxes offer ample space for small accessories. Equipped with a paper roll holder, they are practical assistants for every day.

THE KNIFE INSERT

The knife insert not only makes sure your knives are stored safely and stylishly, but also protects the blades, keeping them sharper for longer.

THE SPICE INSERTS

The elegantly arranged stainless-steel spice mills ensure that spices are kept tidy and easy to find.

THE WORKMANSHIP

The high-quality workmanship and use of durable and easy-care materials prove themselves under the high demands of everyday life.

THE SYSTEM INSERTS OF THE SIEMATIC “JAVA OAK” INTERIOR DESIGN

Whether for items you use every day or utensils that are only required for certain recipes, the inserts in various formats and combinations guarantee that everything is stored safely and close to hand. The interior design in “java oak” is attractive in both price and looks. This is enabled through the stylish combination of real-wood elements and a natural-looking base of high-quality laminate. The elegant imitation wood places utmost importance on creating a harmonious surface with pores and grain structures. It can also be combined with the equally easy-care interior design variant in laminate in order to ensure that the interior of your drawers and pull-outs is just as you imagined.

EQUIPMENT EXAMPLE

The combination of cutlery and spice mill insert as shown here on the upper level of the 60 cm-wide internal drawer, is an ideal equipment variant for beside the stovetop. The lower internal drawer and pull-out feature the *SieMatic GripDeck* to prevent heavy objects from slipping. On the lower level, a box in *"java oak"* has a similarly sturdy hold and is perfect for storing foods.

LAMINATE INTERIOR ACCESSORIES

They are not only a lower-price alternative to the *SieMatic* aluminum, wood or *"java oak"* interior accessories, but can also be combined with them very well.

Pepper

WELL PROTECTED

The insert mat in GripDeck style,
whose rubber strips offer a secure hold for pots and pans,
harmonizes with the color of the cutlery inserts.

CUTLERY INSERTS IN THE SIEMATIC LAMINATE INTERIOR ACCESSORIES SYSTEM

Particularly when it comes to storing cutlery and cooking utensils, low-maintenance, hygienic laminate remains a popular choice. That's why the *SieMatic* Laminate Interior Accessories System offers a series of inserts in the widest variety of forms and combinations. Thanks to the high-quality material, the sophisticated matte white shade, and its graphical form, this variation is also a *SieMatic* product of timelessly elegant design. Depending on the type, width, and depth of your *SieMatic* drawers and pull-outs, different solutions and combinations with the aluminum or wood interior accessories are available. Therefore, you should discuss your selection with your *SieMatic* Specialist, in order to find the perfect solution for your personal requirements.

The SieMatic Interior Accessories System for tall, wall, and base cabinets

SIEMATIC MULTIMATIC

With *MultiMatic,* the design philosophy of the *SieMatic* interior accessories for drawers and pull-outs has been applied consistently for tall, wall, and base cabinets. This highly flexible interior accessories system exclusive to *SieMatic* offers the same aesthetic pleasure created by elegant combination of materials such as high-quality aluminum, precious woods, and fine porcelain – while also offering many new functions perfected down to the last detail.

DESIGN AWARD 2015

interior innovation award 2015 Winner

reddot design award winner 2015

SYSTEMATIC SORTING

GET MORE STORAGE SPACE: UP TO 30% MORE

Nowhere is space as valuable as in the kitchen. With the *MultiMatic* Interior Accessories System, you don't give away a single centimeter while creating a practical sorting system for your things. This is possible thanks to the *SieMatic* multifunction track, divided using a fine 16-mm grid. It is present in every interior of a *SieMatic* cabinet, and is also available inside doors. *SieMatic* accessory clips, which can be equipped as desired with numerous *SieMatic* accessory elements, are attached simply and securely with a 90° turn. The tracks are sealed to protect them from dust and moisture.

OPEN TO MANY THINGS

An open shelf ensures optimal use of storage space and provides even greater flexibility for storing objects of different heights.

ALWAYS THE RIGHT HEIGHT

With holders and stabilizers in different widths and depths, bottles or jars can also be stored securely in cabinet doors.

VERY ACCOMMODATING

Ideal for heavy objects: High-capacity drawers and "roll-outs" for tall and base cabinets help make the most of storage space.

A PLACE FOR EVERYTHING

Your delicate trinkets can rest in individually subdividable trays, on dark smoked chestnut or light oak.

SYSTEM ELEMENTS OF THE MULITMATIC INTERIOR ACCESSORIES SYSTEM

The basis for this highly flexible and easy-to-use system is provided by beautiful shapes of aluminum trays and frames in various widths and depths, which are hung in the patented *SieMatic* multifunction track without any visible attachments. They can be equipped so individually and functionally with numerous *MultiMatic* accessories that everything really does find its perfect place. Wooden inserts for trays are available in dark smoked chestnut and light oak. The *MultiMatic* Interior Accessories System can be assembled individually, and you can easily add to or change it at any time without any problem. But in order to find the best combination for your needs from the wide variety of options, you should consult your *SieMatic* Specialist.

NOTE *The following MultiMatic elements are designed for* **45-60 cm wide doors**

2MM/01 **TRAY**

Item description: Aluminum tray with grey laminate bottom or with wood insert in smoked chestnut or light oak, 37 × 4.5 × 7.5 cm (W × H × D)
