FOR A PROJECT ”AD PERSONAM”

DRESSING YOUR HOME AS EXCLUSIVE TAILORS

There are so many details that blend and coalesce to shape extraordinary interpretations of life, different from each other, unique, custom-made. Each individual is unique, and on this assumption I have based my style, my way of creating and working. My research is my strong point, and I always manage to confer a character of originality to my projects in the world. There is a single perfect solution for everyone, and this must be sought and built carefully, leaving nothing to chance.

A flower can tell us a lot about who has chosen it, even if it's just a small detail in a room full of a thousand other objects. But the choice of that particular flower is as important as all the other elements that I have selected to decorate and give personality to that environment, such as tables, chairs, sofas and carpets. In the same way a wallpaper can evoke delicate floral shades or bright colours that speak of summer, the meeting between glass and lead creates harmonious notes under the skilful supervision of craftsmen.

The words of my guests flow freely, as well as descriptions of their dreams and desires; every one of my projects was conceived while carefully listening to these expressions.

Every home is a shelter, a place to relax, share, receive, love, dream, create ideas and new lives, but it is also our skin, just a little bigger, but again so perfect that it may contain no other soul than that.

THE PALACE

A glance at the past
WELCOME TO THE PALACE

I had the great opportunity to design rooms in this unique space, a real historical building, an important architectural presence.

The project involved the furnishing of a large magnificent foyer with an imposing marble staircase through that I recalled the concept of the "Entrance to the Palace" and anticipated the majesty of the following rooms.

The real wonder appears once going up the stairs where a high vaulted lounge welcomes the most exclusive guests.

AN UNVEILED RICHNESS

From the opulence of the rooms and the memory of the glories of the past, a collection perfect for these environments was born. Smooth flowing lines, fine carvings and stained glass and backlighting hint at an ostentatious richness.

Beyond the concept of adornment

A resplendent foyer

AN ELEGANT WELCOMING

This palace welcomes the guest in a sophisticated bright hall where the delicate finish of the wood paneling and its gold leaf details lovingly play with the colouring of the armchair fabrics and curtains.

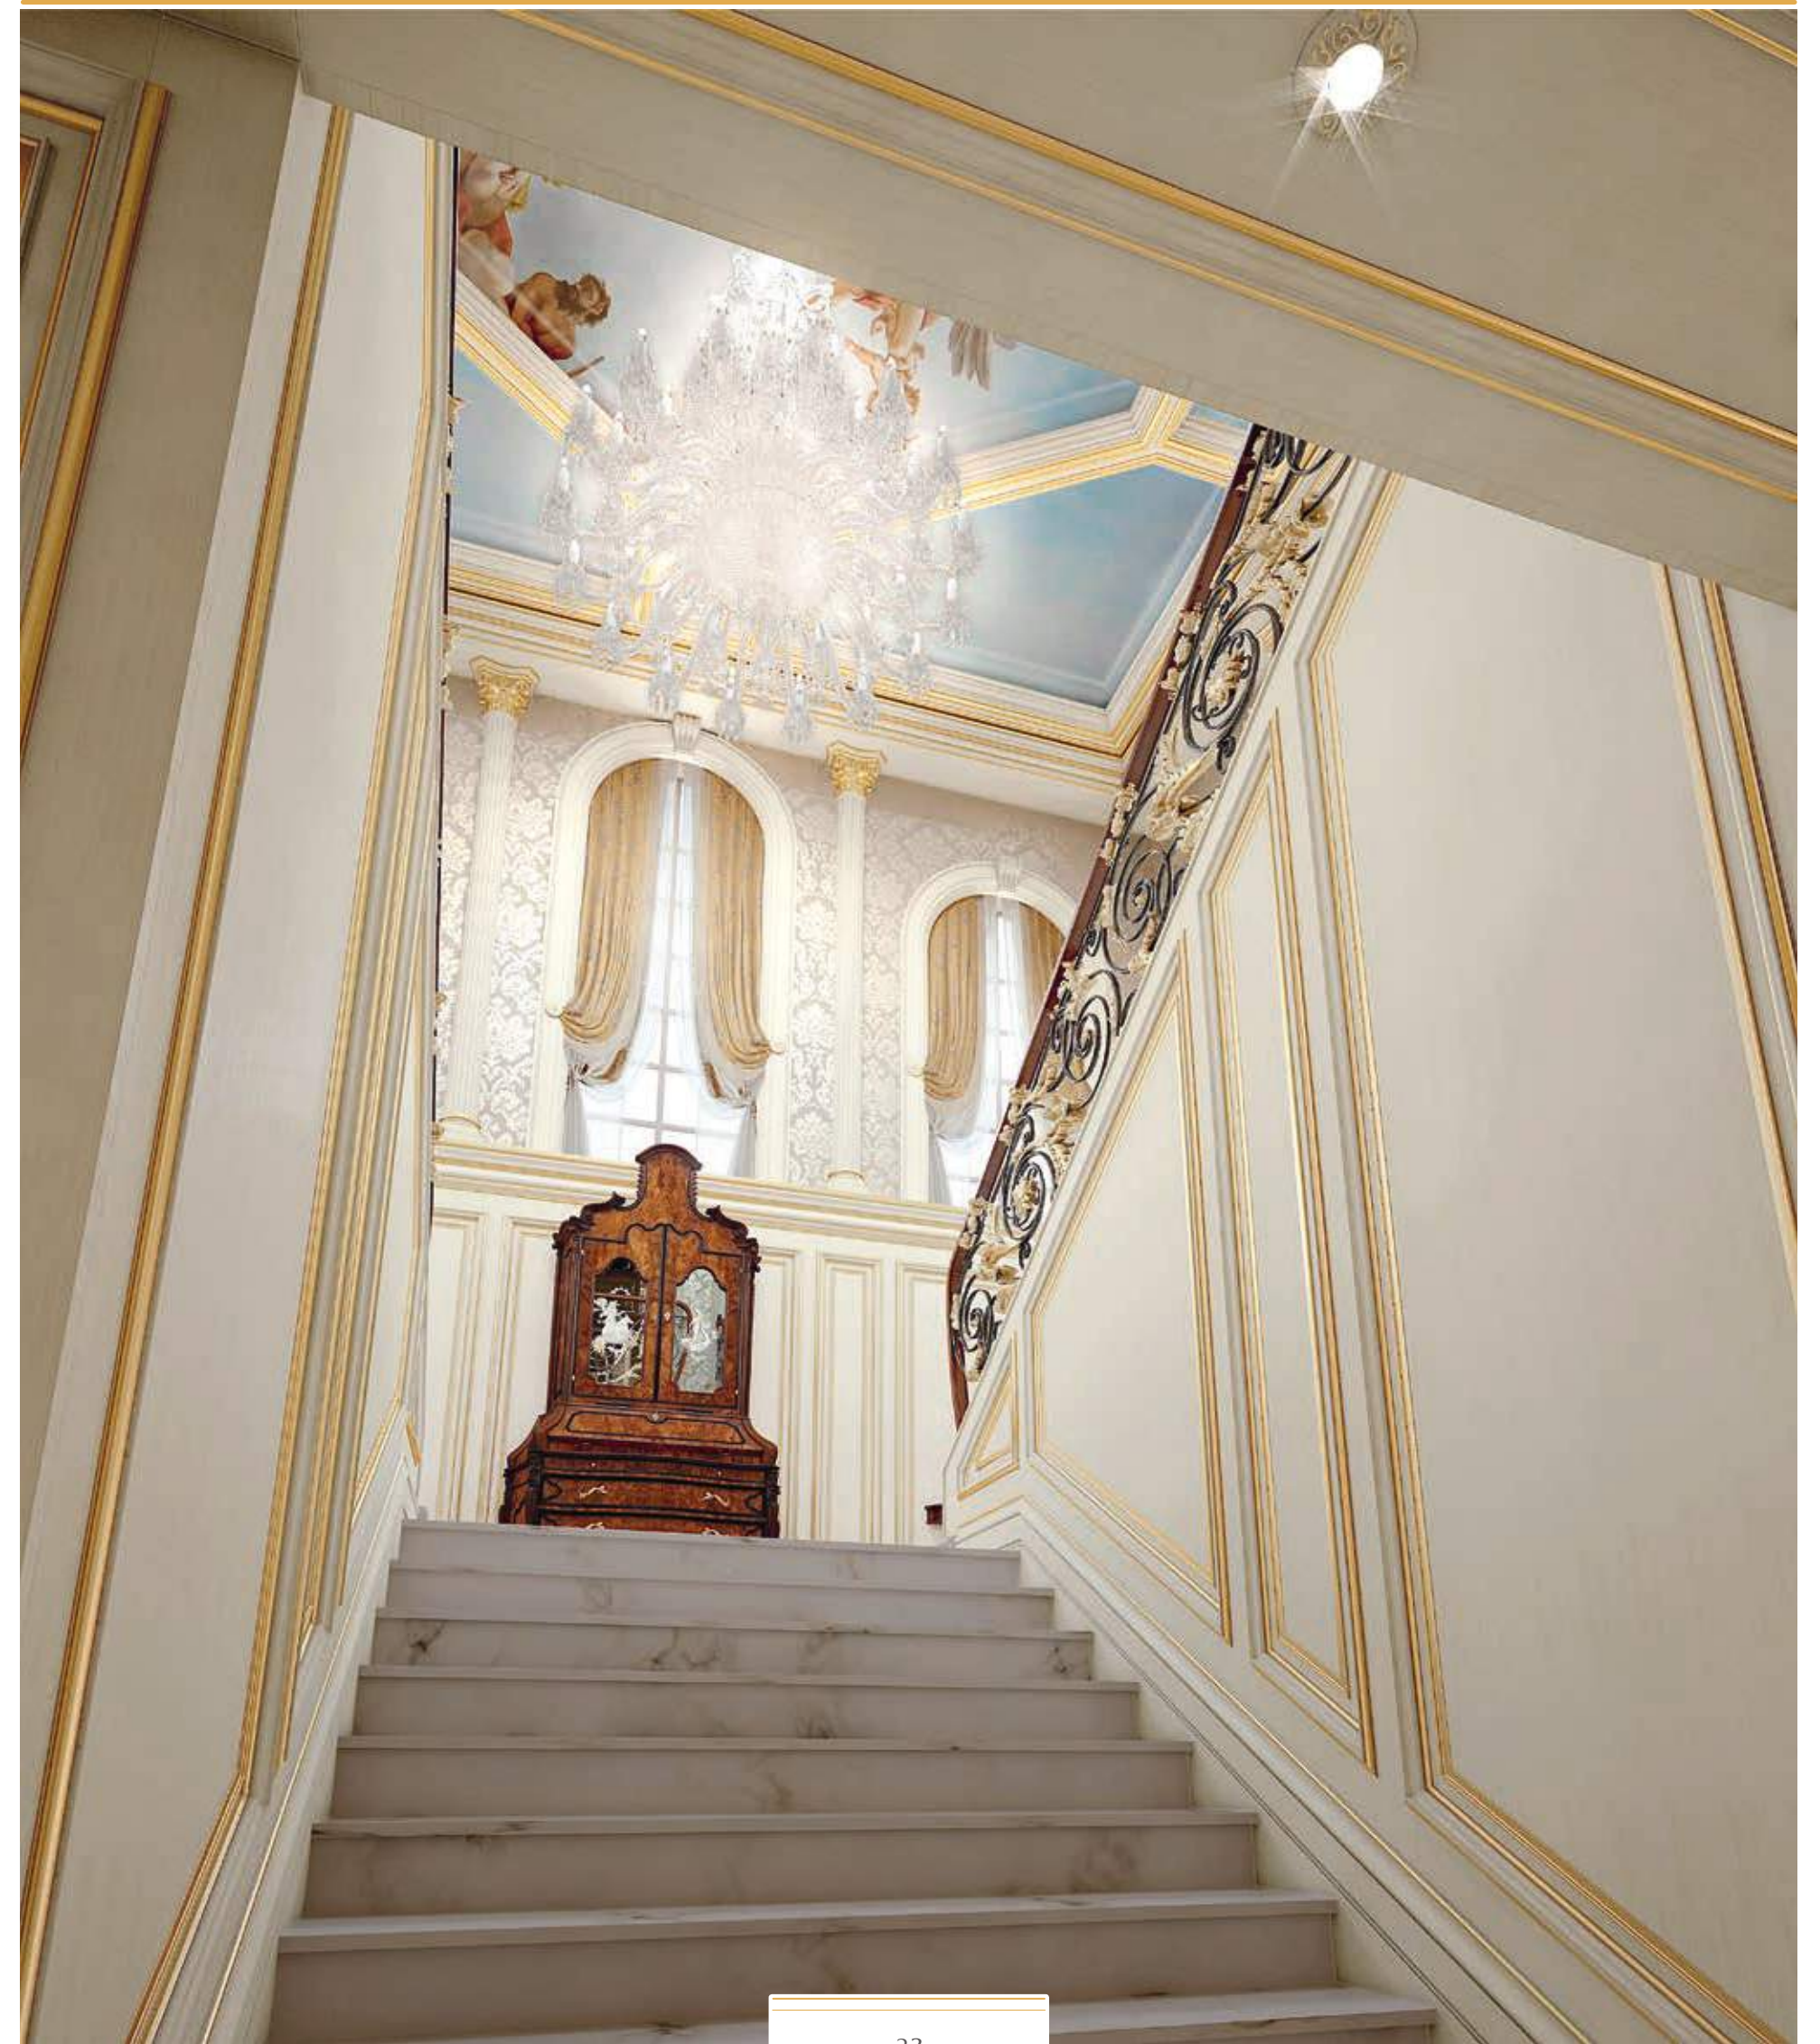

Stylish attraction

A game of cross-references among the carved decorations and those sandblasted and etched on the glass, stylistically unite the whole environment.

The banquet room

HEART OF FIRE

The large fireplace is the beating heart of the environment and divides the sitting area from the dining area.

The walls are entirely covered with damask and bookshelves are integrated into the walls.

The ambience as a whole is deliberately rich and sumptuous.

The best fabrics were selected, for both upholstered furniture and for the curtains, the rooms have been dressed along with the customer, as if we had sewn on the best dress.

The choice of colours was crucial, the association between more vibrant cold and neutral shades enriched with gold details has increased the spread of light in the room giving it a dreamy character.

SET OF JEWELS

Entering the hall it is nice to turn and discover little gems like the console from the refined arched form with central carving dominated by an imposing ornamental mirror completely finished in gold leaf. The fine damask wallpaper flowing through the rooms is echoed in the decorations of sandblasted glass, or in the vases inside the glass cabinets.

Be amazed

Transparent embroideries

A glass top dining table featuring a refined sandblasted decoration, is illuminated with led lights, thus acquiring volume and shape.

PRECIOUS GLASS WEAVINGS

Sophisticated and unusual decorations on glass recur in the various pieces of the collection, making it unique and unrepeatable.

Crystal lace

A ROYAL CHAIR

I consider the chair that was chosen for this room as a work of art.

One can not fail to notice the carvings that characterize its arms and legs, as well as the carved crest.

No less important is the personalized embroidery of the back or the drape in fine satin.

A real queen

"Nature is nothing but an enigmatic poem".
Montaigne

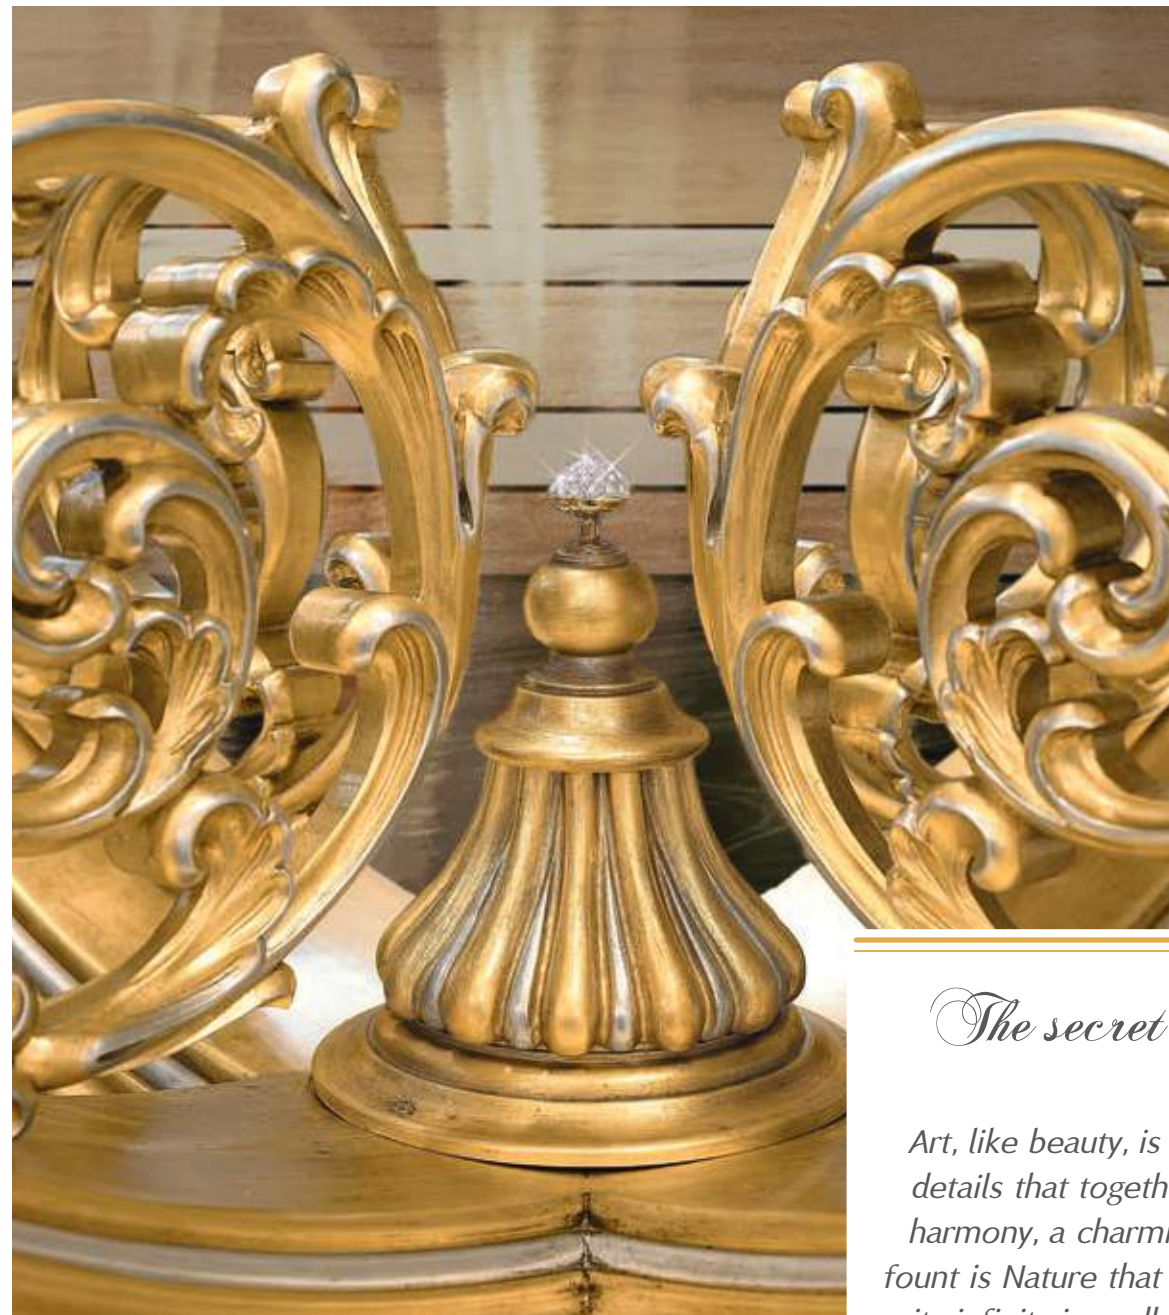

NATURE IS PURE BEAUTY

Harmonious living room
THE PERFECT PLACES

I desire to catch the Nature's order inspired by its brilliant balance of uniformity and individuality. There are so many different forms of life coexisting in breathtaking harmony that I always wonder. The same harmonious coexistence I recreated in my living room where the different spaces stay together in one bright and welcoming ambience, as do the various creatures of mother nature.

The secret of details

Art, like beauty, is the union of many details that together create a natural harmony, a charming perfection. The fount is Nature that attempts to embody its infinity in endless superb array of magnificently connected details.

THE POWER OF A REFLECTION

There is enchantment in the mirror that in its depth frames the image of a charming ambience. In this important decorative element, profoundly impressive as splendid dawn, I enclosed personality and gleam, features that I would like to give to all these homes

The charm of the depth

THE BIG TREE

The tree - with the big shadow of its lush foliage and labyrinth of twisted branches - often gives protection to nature's vulnerable creations. This beautiful image of light and shadows, constant movement and sophisticated twists, inspired me to create the decorative ornaments of this collection.

A strong personality

Meeting point

THE UNION

A single living creation in nature is vulnerable, but the union with others protects it and makes it stronger. In meeting each other we have the chance to change and improve. These moments are intense and precious so the places where they occur have to be comfortable and welcoming. I intentionally filled it with elegance and harmony.

CRYSTAL ESSENCE

The mirror, like a crystalline lake surface, reflects the majesty of the surrounding beauties, the charm and elegance of the interior. All details and facets of our lives are reflected faithfully, allowing us to savor the multiplied perfection of the world around us.

Light reflections

The refinement in small gestures

THE ENTRANCE TO BEAUTY

I wish that every moment lived inside your home become a never-ending pleasure of living well. I believe that beauty and good taste concur with wellness. These convictions led me to create unique elements that express my personal idea of care and refinement everywhere. A classy door, product of sophisticated design and meticulous workmanship, will separate your rooms with elegance. So the art became your entry into full of magic atmosphere interior.

Euphony of light

LIKE A FOUNT

In the center of every single nature's creation there is a crystalline source that illuminated by sunlight gives life. Inspired by this magnificent image I intentionally designed these central elements that inebriate of light and clearness entire ambience. Gold and crystal, rounded shapes and central positioning for an elegant dance of forms and volumes.

THE STRENGTH OF THE ELEMENTS

The natural preciousness of the wood allows only the most able and experienced craftsmen to discover and shape its hidden voice. The skills transform this raw material into thousand objects, which decorated with the most precious metals, reveal an extraordinary perfection typical of a diamond.

The naturalness of perfection

THE SUN INSIDE

Entrance in daylight
DROWNED IN A RAY
OF LIGHT

The solemn skylight of the small hall breaks the strength of dazzling sunlight and makes it as docile as the light of the moon that can be admired in its sweetness.

So, filtering out the glare by harnessing its power and spreading it down from the ceiling, it creates a pleasant natural, almost silvery effect.

The light is more liquid, there are no corners to hit, the brightness slides from the sky and immerses the windowless hall in a sweet, long twilight.

"Architecture is the learned game, correct and magnificent, of forms assembled in the light".

Le Corbusier

A long twilight

A CRYSTALLINE ATMOSPHERE

Yet again the themes of sun and light return in the gold leaf finishes of the consoles, the mirrors and chairs.

The fabrics, the crystals of the decorative ornaments and the chandelier turn sky blue and from the large porthole, the eye rests on the lush garden through the bouquet of flowers in the middle, created by skilful glassmakers.

A GOLDEN LIGHT

A living room at dusk THE MYSTICAL ATMOSPHERE OF LIGHT

I created this project, which consists of a living area and an adjacent entrance, focusing on an absolut protagonist: the large window leading into the garden; from here plenty of light enters, filtered by the artistic decorations, it warms up and takes on golden hues. The same fabrics and the fine wallpaper themselves have been chosen to create an atmosphere, pervaded by shades of gold.

I characterized the wood panelling with white and gold leaf finish, the furnishings are mainly adorned with gold leaf finish as well.

The result is an extremely harmonious picture, dominated by a warm and enveloping palette, that welcomes the owner and his guests in a relaxed, but refined atmosphere.

"A dreamer is one who can only find his way by moonlight, and his punishment is that he sees the dawn before the rest of the world".

Oscar Wilde

A gorgeous living

CRAFTSMANSHIP OF YESTERYEAR

Thanks to the white and gold leaf finish that I used for the panelling and carved frames, I conveyed a feeling of purity and richness at the same time.

A unique sofa

SINKING INTO GOLD

I chose this impressive sofa because I adore its carved legs, which I decided to finish entirely in gold leaf. It blends perfectly with the warm golden hues released from the velvet upholstery, creating unique harmony.

TIMELESS CLASSIC

The colours of the walls blend perfectly with the finishes of the furniture, creating a warm and harmonious environment. Gold accents create flashes of light, the fine carvings play with shadows.

Style details

A small elegant entrance

PEARLS OF ELEGANCE

The big stained glass door offers a foretaste of the majestic window in the living area, while the canopy gives an unexpected brightness to a small but refined room.

I chose to upholster the chairs with bright colours to create an interesting contrast with the rest of the environment, bringing a wave of freshness and alluding to the beautiful garden that can be seen from the large window of the adjoining hall.

THE CHINESE COLLECTION

A fine dining room
TENDER LEAVES, FLORAL SCENT

The art of ceramics runs through the entire history of the Chinese civilization, with artefacts of rare beauty that the lady of the house likes to collect. They are displayed in this fine dining room, where I chose to highlight Chinese symbolic meanings via subtle fragments. Red – like the sunset glow, symbol of happiness, luck, joy and prosperity – is the colour of the walls. The contrasting ornate white panelling has fabric upholstered inserts whose plum blossom pattern stands for renewal, perseverance and purity. The stylised lotus flowers of the inlaid flooring are emblematic of the beauty of the heart and mind, grace and perfection. Tiny references to an exotic and faraway culture.

A majestic sideboard

A BOUQUET OF WOODEN FLOWERS

For the most important part of the room, where the porcelain collection is displayed, I arranged a big glass door sideboard enriched with open carved ornaments. I have it light up from the inside, which illuminates the precious content and allows us to admire it.

Receiving with simple elegance

REFINED CONVIVIALITY

The desire of the lady of the house was to receive guests in an intimate and welcoming setting without turning down either richness or prominence. A challenge that I embraced with enthusiasm, focusing on the contrast between the dark red shades of the walls and the bright white hues of the ornate wood panelling, softened by the pleasant warm tones of wood furnishings and inlaid flooring.

Delicate flowers

I always pay great attention to the choice of details, the tones of wood are warm, both in the furnishings and in the finely inlaid floor.

The snow white chandeliers are a tribute to the porcelain of a collector who lives in the charm of a fine and feminine art, sober yet romantic.

"Music expresses that which cannot be
put into words and that which cannot
remain silent".

Victor Hugo

THE MUSIC ROOM

Listen to it, admire it A NIGHT AT THE THEATRE

*I found it exciting to design a sort of private theatre,
a music room with two faces; on the one hand the
private and intimate side as are piano exercises,
meditation and the quest for improvement, on the
other hand the public side that welcomes the
guests listening to the musical interludes
of the lady of the house.*

*The colour red is dominant here, and acts
as a tribute to the red of the theatre curtains
and the typical colours of the most beautiful
theatres in the world.*

Little jewels

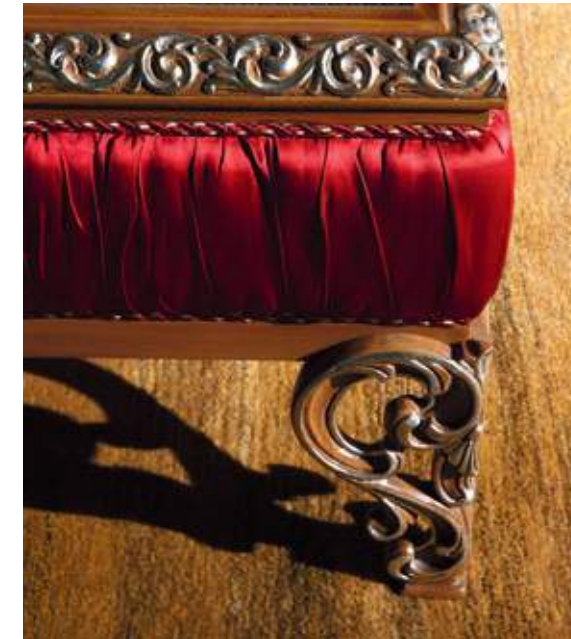

A FAIRY TALE REALITY

*Two little consoles accompany the bar stand, exhibiting magnificent baroque style carved ornamentation.
On the wall I hung two convex mirrors and gave everything brilliant gold leaf finish.*

GLIMPSES OF A GARDEN

The room, which is definitely more used in the evening, is nonetheless bright and pleasant also during the day mainly thanks to the large windows that open onto a large park outside.

In the evening the contact with the garden is recalled by the use of floral themed stained glass window and the large bright "velarium" positioned on the ceiling and adorned with a beautiful central rose window decorated using the "grisaille" technique.

Refined twists

Rich transparencies

VELVET MEETS WOOD

This big coffee table combines a velvet upholstered capitonnè frame and a glass top over a heart of carvings, creating a unique final effect.

A warm atmosphere

MEDITATING IN FRONT OF THE FIRE

The living area is designed to be warm and friendly, supplied with many seating areas for talking with cushions, covered in precious silks with baroque decorations. The fireplace makes the environment warmer, especially in the evening or during snowy winters, while the bar corner completes the area with classic style.

THE MASTERPIECE

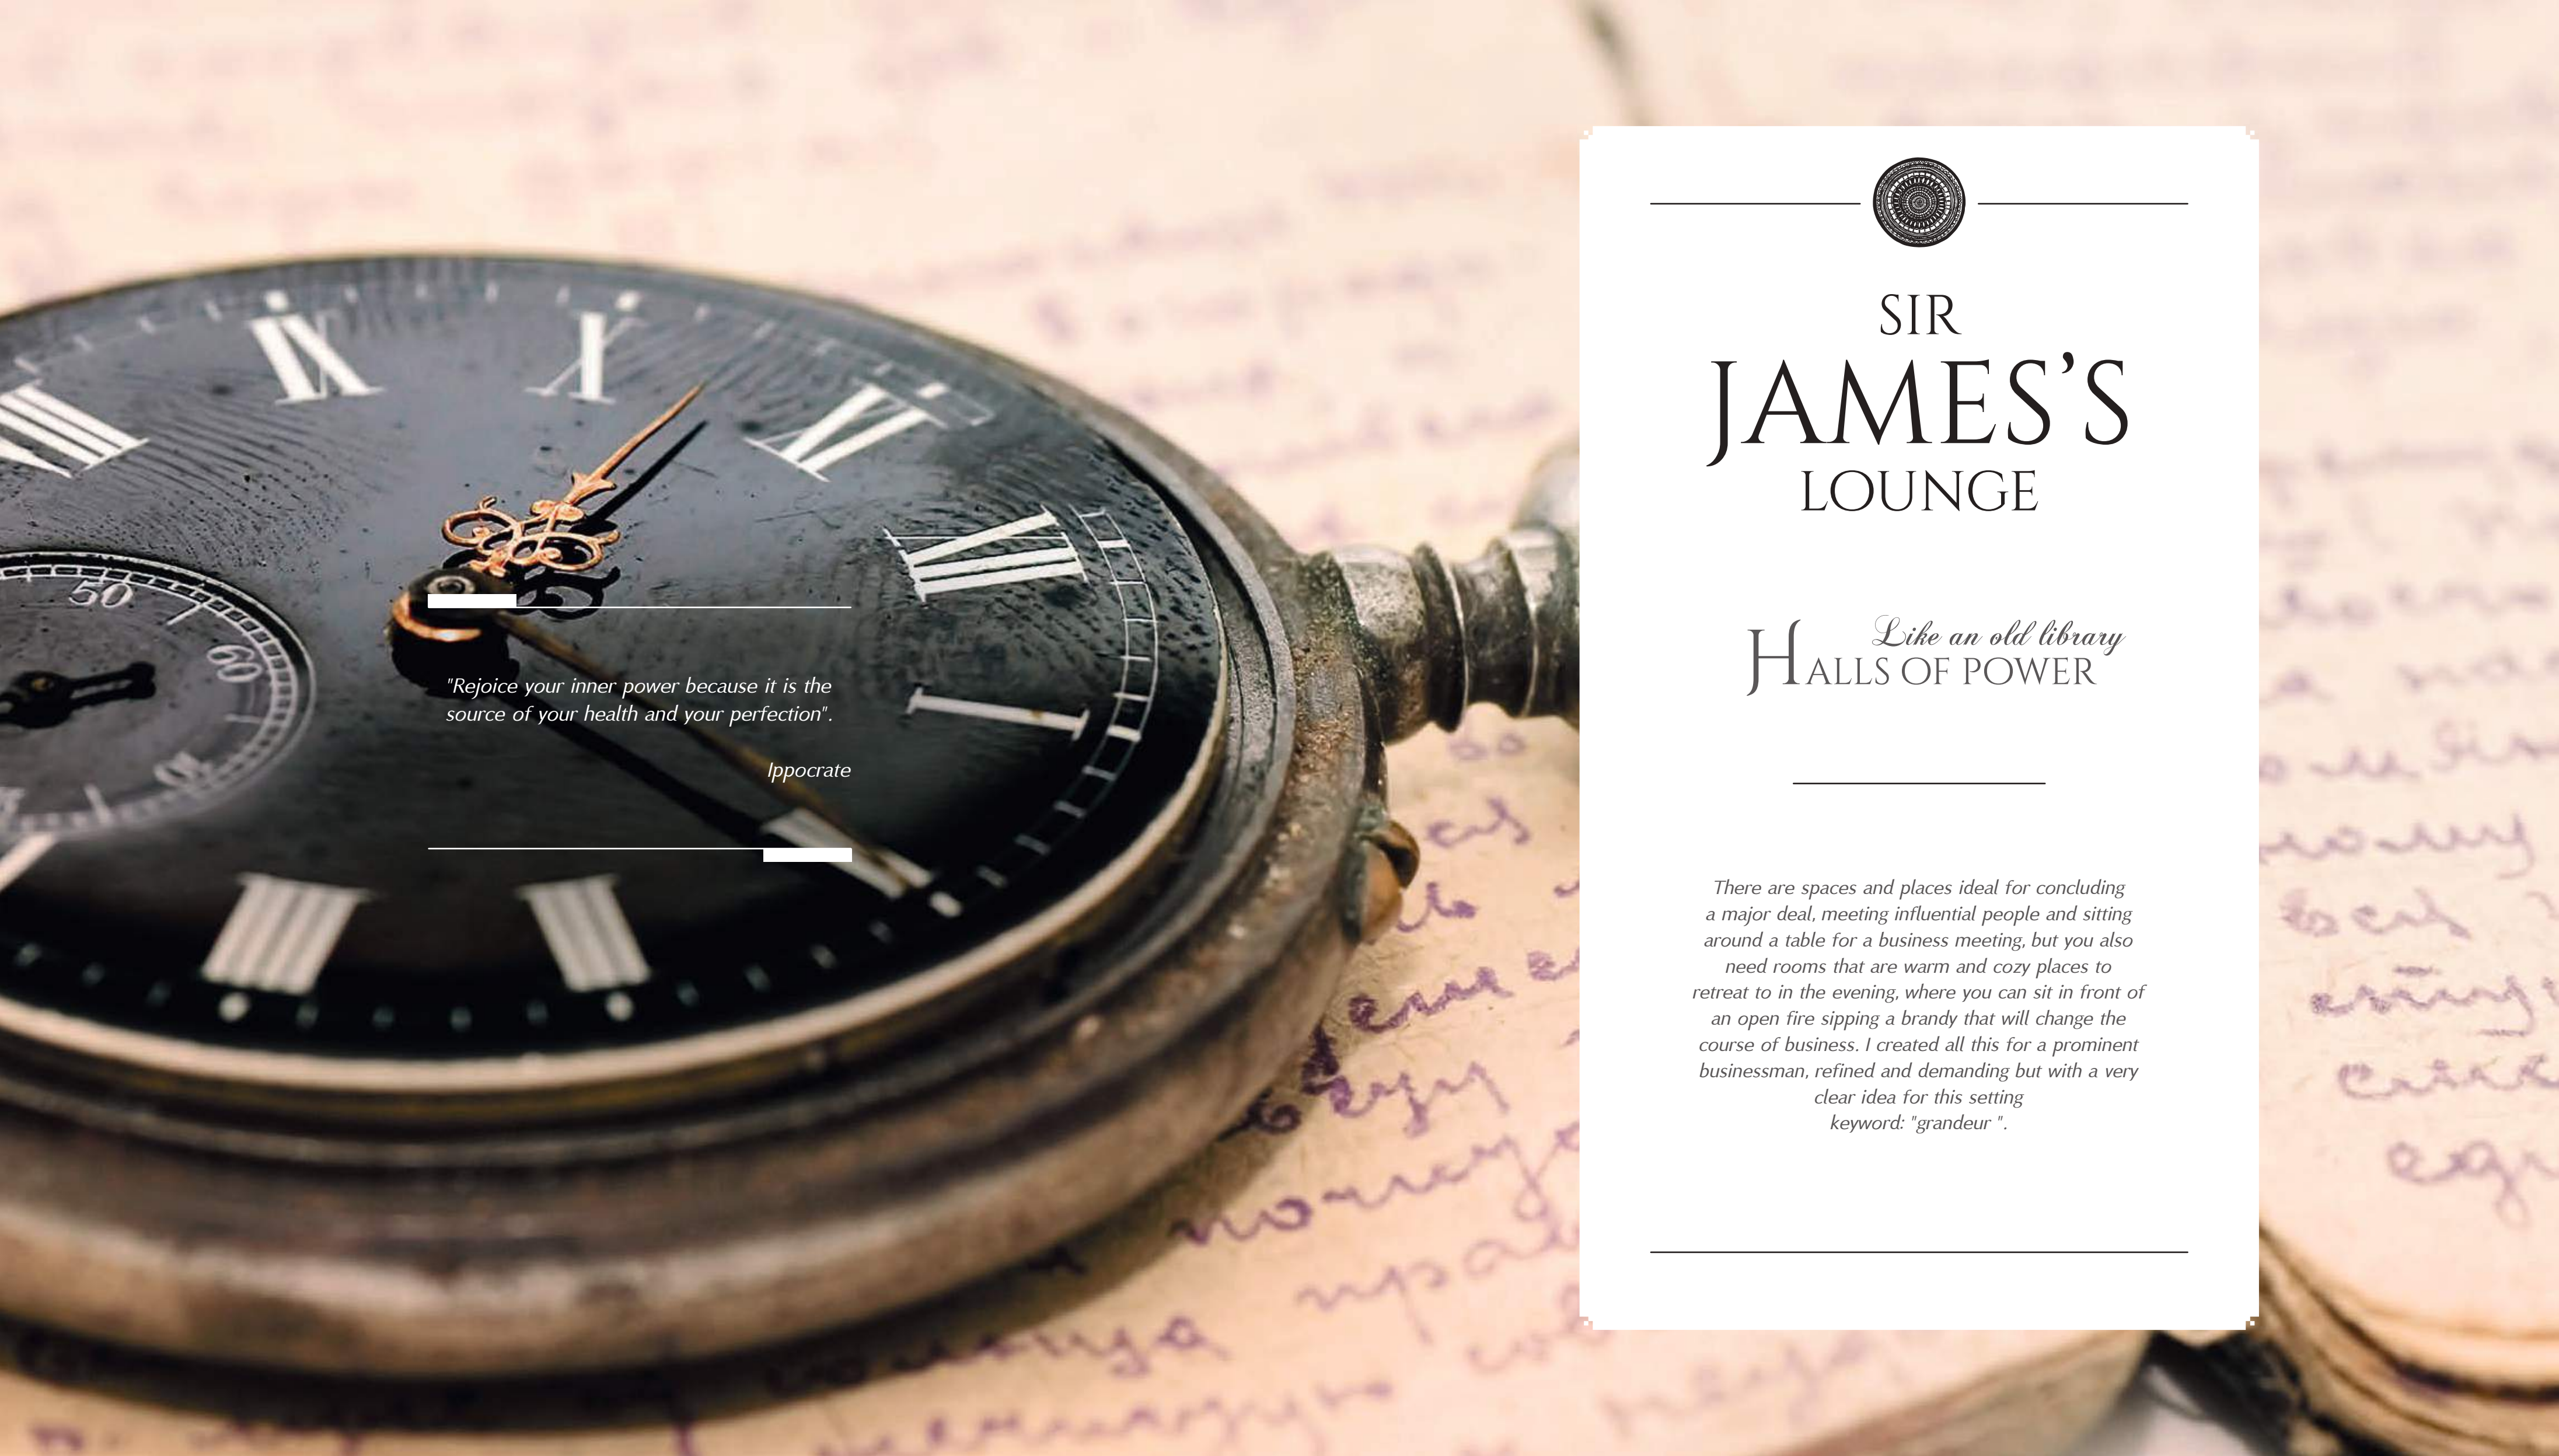

A pearl that I wanted to include in this project is the beautiful pair of veneered bombe-secretary cabinets. The shapes and the very fine craftsmanship recall the musical instruments, and the work of luthiers.

An ancient art

"Rejoice your inner power because it is the
source of your health and your perfection".

Ippocrate

SIR JAMES'S LOUNGE

Like an old library
HALLS OF POWER

*There are spaces and places ideal for concluding
a major deal, meeting influential people and sitting
around a table for a business meeting, but you also
need rooms that are warm and cozy places to
retreat to in the evening, where you can sit in front of
an open fire sipping a brandy that will change the
course of business. I created all this for a prominent
businessman, refined and demanding but with a very
clear idea for this setting
keyword: "grandeur".*

A stately elegance

COLOUR HARMONIES

I created wood panelling with a dark but warm finish, the whole environment has been softened with diffused and enchanting lighting.

The shades of the various materials, ranging from the marble to the wood and fabrics, come together perfectly and blend into a pleasant "oneness".

The large glass entrance in the background stands out, adorned with a finely carved frame and a stylish sandblasted decoration on the glass with details in gold leaf.

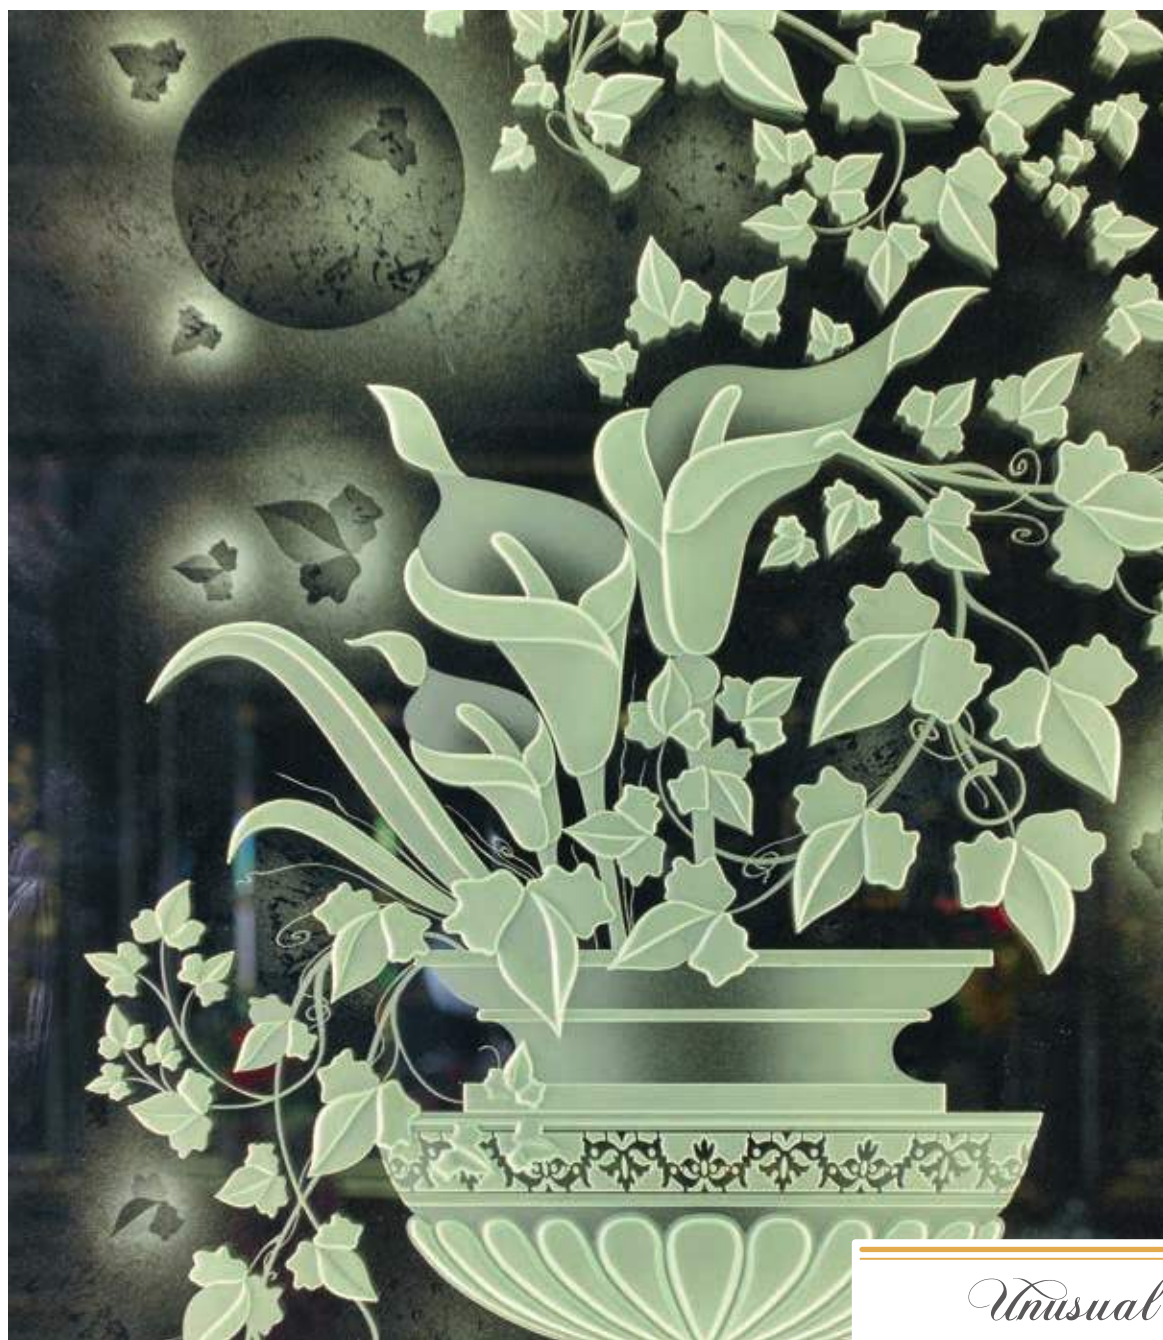

Elegance in blue

DETAILS THAT MAKE THE DIFFERENCE

I always enjoy studying the spaces in their totality, suggesting elegant interpretations of colours and materials. In this case, different types of marble and wood veneer fuse together in perfect harmony.

Unusual viewpoints

My desire is that my furniture can be always admired up close, just so you can grasp the subtlety of the particulars and the art of those who made it.

UNIQUE DETAILS

I always work with the best master craftsmen to obtain fine carving work and the decorators of Bassano del Grappa to get the best finishes. Supported by my staff, I personally take care of the whole range of coordinated fabrics and wallpapers.

I demand that materials are always top quality so I always carry out careful research in order to offer the best wood, marble, glass and accessories.

Admire up close

Uncompromising splendor

A WOOD SYMPHONY

An imposing executive writing desk is situated under a loft with decorative wood ceiling tiles.

A big antique wall clock dominates the background.

A great balcony

THE PRIVATE LIBRARY

*The dimensions of this double-high building allowed me to create a sumptuous balcony overlooking and surrounding the room.
In contrast with the public nature of the ground floor, the mezzanine is a private area of the owner, where he can preserve his collections of old precious books and where he can retreat into his own readings.*

WOOD AND LEATHER

A comfortable study
AT FIRST SIGHT

*"Studying without thinking is vain; thinking
without studying is dangerous".*

Confucio

*The pleasant feeling of working at home rather than
in the office must be perceived in a clear-cut manner.
I wanted to create a room for working and studying
where the warmth and vibrancy of our client and his
whole house could emerge.*

*The sense of welcome that I felt on the first meeting
could not be left out, even in a primarily
working environment.*

*Therefore to convey this sense of warmth, I suggested
that we use mainly two materials: wood and leather,
which we find in parquet floors, walls and furnishings.*

A HISTORICAL PRESENCE

An antique piece to bear witness to the burl processing techniques, typical of a bygone era, but I like to find these and place them in my houses, like silent guardians of an almost lost art.

A
TASTE
OF GLAMOUR

A woman's reign
HOME BOUTIQUE.

Beauty is a great power, and every woman deserves to be able to take the time to choose her own look, feel good in her clothes, in her shoes, her hairstyle and most of all in her skin.

I dedicated this space to her, recreating a couture catwalk, equipping the walls to have the entire collections of clothes at hand, placing central islands to store accessories and jewellery, creating, in short, a room where she can spend the time necessary to create her own style and to care for her elegance. A room she can leave feeling satisfied and confident.

Refinement and femininity

THE ORDER IS WOMAN

For this cultured and elegant customer, I designed a walk in wardrobe with an undoubtedly female taste, it can be noted in the predominance of white and gold finish of the wardrobe panelling, but also in the delicacy of the fresco that completes the niche ceiling and the colour palette of the fabrics with a prevalence of pink shades.

The functionality of the walk in wardrobe has not been neglected, providing a clear division in two parts of the room to separate seasonal wardrobes.

DETAILS LIKE JEWELS

I have taken all possible care of the decorative details as well as of the functional aspects of the dressing room, where even a simple drawer can become a treasure chest for your jewellery.

Hidden perfection

ROMANTIC WAVE

Their bedroom
INFINITE SERENITY

Contemplating the sea is always a deep and full of endless hues emotion, that inspired me to create this ambience. I imagined a place with an enchanting and relaxing atmosphere where you can let yourself to be as carried by a lovely wave. From colors and shapes to sinuous carvings of the elegant furniture, from fine embroidery to soft textures of the fabrics, every single detail of this room is designed to give absolute serenity to those who live there. An island of peace in which to regenerate.

"When you walk through the arched entrance to the temple of dreams, there, right there, there is the sea."

Luis Sepulveda

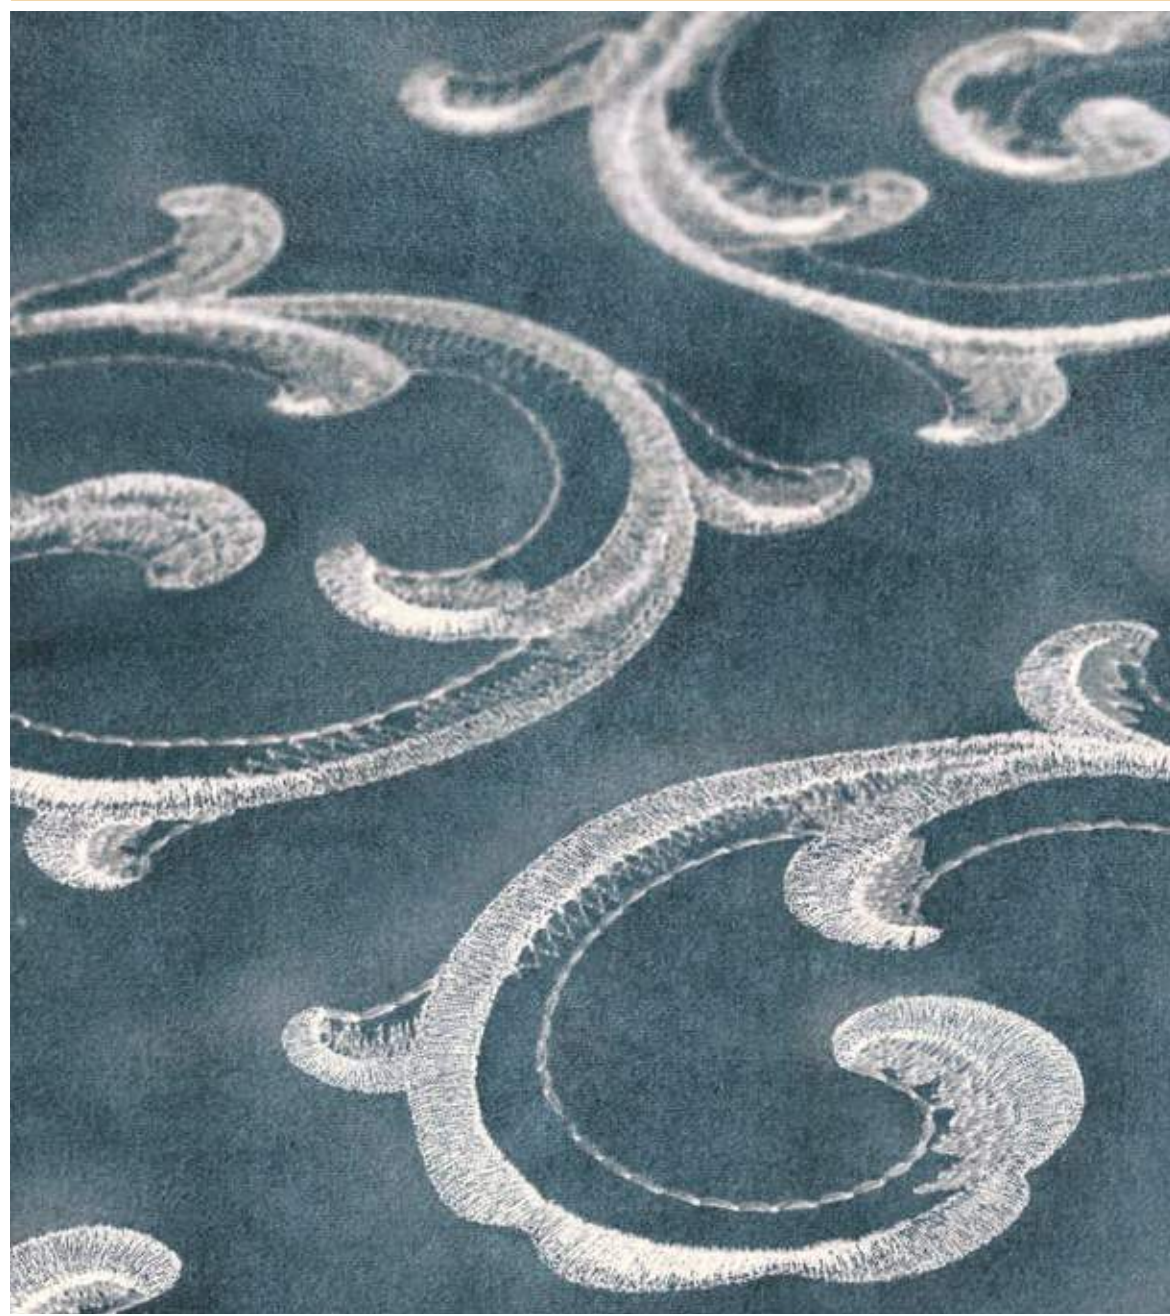

Lightness and magnificence

THE DEPTH OF A DREAM

For this room I chose soft fabrics and delicate shapes because the experience of living in this ambience has to be always a unique pleasure. Precious details, choice of finishes and colours are designed to make you dream with open eyes

248

249

Exclusive emphasis

HARMONIC FRAME

To harmonize and enhance all elements of this interior I used carved wooden frames with fabric upholstered inserts. This subtle pattern can be seen everywhere in this ambience - from the wood paneling and fascinating frescoes to the illuminated wall recesses. Even the doors and windows are framed as they are paintings of the world outside, stopping its constant motion.

ART DETAILS

Artistic handmade details embellish every element of this place gently, creating a fil-rouge among stylistic and chromatic harmonies.

The luxury craftsmanship

Nothing awakes a memory as a scent.

Victor Hugo

SCENT OF A WOMAN

Her bedroom
CASCADES OF SILK.

Fragrances reminiscent of exotic lands, scents coming from the Far East are blended with fluid drapery and precious silks.

Roundness, sinuosity, everything speaks of beauty and charm in this bedroom of absolute femininity.

The impalpable elegance of fine fabrics flood the entire sleeping area.

From the walls to the curtains and the great draping of the canopy bed, this room acquires sophisticated personality thanks to the composition of silks, characterized by delicate tones that range from shades of pearl, to pale pink hues.

I developed the whole project focusing on the architectural theme of softness, depth especially with the vaulted ceiling and the noble, bright bow windows.

I included here the Vittoria collection, with its rich details, adorning the room and creating refined and velvety lines.

LE PARFUM

Purity and delicacy

THE SILK DOME

In the hall some glass cases were prepared to accommodate a unique collection of fragrances: small vials of precious nectar brought from trips to distant countries. A particular design solution was to replace the more traditional wood panelling with decorated panelling, created and designed specifically for this environment.

"A man can be himself only so long as he is alone, and if he does not love solitude, he will not love freedom, for it is only when he is alone that he is really free".

Arthur Schopenhauer

DARK ELEGANCE

THE PERFECT *His bedroom* LONELINESS

I developed this project by giving it a clean cut and sharp tones; this is because I felt the need to create a private space for my client where the male sphere emerges with all its force, where intimacy turns into introspection.

This bedroom was designed for a man who wants to have his own space, private and exclusive, where he can reclaim his spirit and rest, leaving work and the bustle of everyday life outside the door.

Glass, the absolute protagonist

EMBROIDERED TRANSPARENCY

The majestic bed is the undisputed star of this room. It is adorned with wooden carved frame with fine decorated sandblasted glass insert. I got a three dimensional effect by overlapping two engraved glass sheets with different pattern over a damask fabric back, and finally, by lighting up all with a lateral led-strip.

The brave choice of the patinated black finish adds elegance and austerity, contrasting with the elegance of glass decorated like lace. The damask wallpaper with a gold base and the gold leaf finishes on the ceiling and the wood panelling make the environment prized and bright.

We made important choices of style that are unusual and strong, but they reflected our client, his vigour, his desire to break away from the world to regain vitality and to meditate. Hence the idea of a living area where in the evening he will be able to rest with his brandy and his book, and catch his breath to be full of energy for the new day.

Sinuous lines

The smooth flowing lines of the sand blasted decorations of the glass and the carvings contrast with the rigour of the panelling and the dark colour of this room.
