Nevyll High e Low

Althon e Nevyll sono due diversi sistemi di divano che connessi ai vari satelliti che li completano, poltrona, tavolini, pouf e librerie, mettono in scena i riti quotidiani dell'abitare. Morbidi e accoglienti ma rigorosamente disegnati; eleganti e ricercati nei dettagli; trasversali nel gusto e senza tempo.

Althon and Nevyll are two different sofa systems which, connected to various, complementary satellites such as armchairs, coffee tables, poufs and bookcases, make up the backdrop against which we perform the rituals of everyday life. Soft and inviting yet accurately designed; elegant with refined details; timeless and capable of satisfying any taste.

Kailua

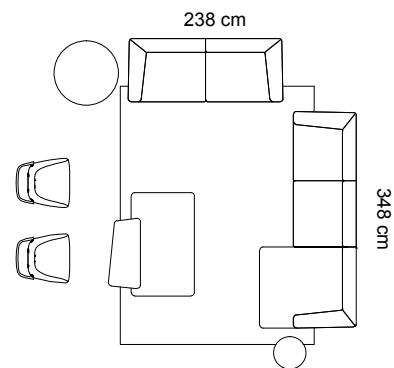

Kailua, l'idea che dei cuscini galleggino su una superficie sottile a sua volta sostenuta da un telo metallico invisibile.

Il confort è una sorpresa, le proporzioni una certezza, Kailua è un divano che trasforma l'eleganza in comodità ed intimità, un prodotto silenzioso, un progetto che non ha nulla da aggiungere o da togliere.

Kailua stems from a concept in which cushions float on a slim surface supported by an invisible, metal mesh. Comfort is a surprise, the right proportions are a certainty. The Kailua sofa transforms elegance into comfort and intimacy. Kailua is a very discreet product, a perfect project from which nothing can be subtracted and nothing can be added.

Kim

Il desiderio di ottenere un divano tutto da vivere ha prodotto Kim. Più che un divano dovremmo definirlo “sistema”, dove il complemento/libreria ribalta completamente le funzioni all'interno degli spazi domestici. Se abitualmente pensiamo alle librerie accessori come elementi aggiunti posteriormente ai divani, con Kim la libreria entra a far parte del divano, lo serve ricreando un'idea di alcova totalmente votata al relax.

Kim stems from the wish to make a sofa that can be used to the full. More than a sofa, we should call it a “system” in which the bookcase module completely alters functions within domestic spaces. If your idea of a bookcase is of an accessory distinct from the sofa, with Kim it becomes part of your couch, an element at its service, creating the idea of a private niche totally dedicated to relaxation.

Kim Relax

Il progetto nascendo come Kim trova il suo naturale upgrade con la versione Kim Relax: cuscini alti, confortevoli, con meccanismo progressivo di abbattimento.

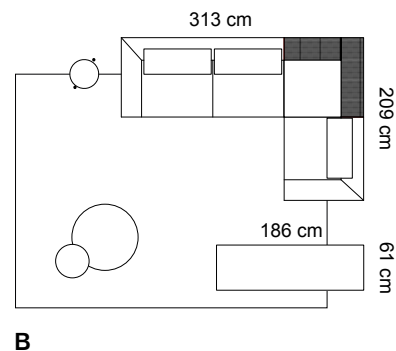

It's no coincidence that the natural upgrade of the Kim project is Kim Relax: this version features tall, comfortable cushions that can be gradually reclined.

Flick-Flack

Il design inconfondibile è tratto dal pensiero di Anna Von Schewen, designer scandinava, amante della cura della confezione ma ispirata da una poesia che coglie tutto lo spirito della tradizione nordica legata alla pulizia delle forme esaltata dalla cura del dettaglio. Un cuscino su un cuscino ed una panca.

Its unmistakable design is the brainchild of Anna von Schewen, a Swedish designer who pays a great deal of attention to the workmanship of her creations, yet is inspired by a poeticity that catches the entire spirit of Scandinavian tradition based on clean lines, enhanced by care to detail. Cushions are placed over cushions on top of a bench.
