DESIGN

Longhi è un'azienda legata ai temi dell'abitare contemporaneo, attenta all'evoluzione del gusto ma con solide radici nella realtà produttiva. La varietà dei temi affrontati – complementi d'arredo, pareti scorrevoli in vetro, porte d'arredamento, divani - è il risultato di un progetto d'impresa globale e coerente che investe ogni aspetto del percorso produttivo: dallo sviluppo dei prototipi, alle tecnologie applicate, al servizio clienti fino alla comunicazione. Le collezioni che costantemente aggiornano i cataloghi, rispecchiano i valori di una precisa filosofia progettuale: attenzione per il comfort e funzionalità, ricerca di un design che renda ogni elemento – sia esso un tavolino, una porta, od un'intera parete - parte di un sistema coordinato dall'impronta sobria ed elegante.

Longhi is a company whose core focus is contemporary living. While mindful of changes in taste, its manufacturing roots run deep. The variety of items it offers – furnishing accessories, sliding glass room dividers, doors for interiors, sofas – is the result of a consistent global, corporate strategy that influences every aspect of the production process: prototype development, applied technologies, customer service and communication. Its catalogues are regularly updated with collections that reflect the values of a clear design philosophy: comfort and functionality first, followed by a design vision that makes each element – whether it's a coffee table, a door, or an entire wall – part of a coordinated system, with an understated, elegant appeal.

Longhi – это компания, специализирующаяся на современном интерьере, которая внимательно следит за развитием новых стилей и направлений, опираясь на многолетние производственные традиции. Разнообразие продукции – мебельные аксессуары, раздвижные перегородки из стекла, межкомнатные двери, диваны – является результатом комплексного и последовательного подхода к производству, который характеризует все этапы производственного процесса: от разработки прототипов до применяемых технологий, сервисного обслуживания покупателей и рекламной коммуникации. Наши каталоги постоянно дополняются новыми коллекциями, в которых отражены основные принципы компании, применяемые при проектировании: прежде всего, уделяется большое внимание комфорту и функциональности, а также поиску дизайнерских решений, позволяющих создать из отдельных элементов – будь то столик, дверь или целая перегородка – гармоничные композиции в строгом и элегантном стиле.

Grande tradizione artigianale, utilizzo di materiali nobili e pregiati, ricerca costante in continua evoluzione: sono questi i valori che da sempre contraddistinguono le creazioni Longhi. L'attenzione al dettaglio si coniuga con l'uso di materiali esclusivi: l'essenze lignee lavorate affidandosi all'abilità e alla cultura di operatori altamente preparati, i marmi e le pietre provvisti di certificati d'Autenticità e Garanzia insieme alle pelli, accuratamente selezionate e lavorate con procedimenti naturali, rispettando l'ambiente, armonizzano semplicemente passione ed eleganza.

Ogni pezzo è fatto a mano, spesso su misura, personalizzato e sottoposto a controlli per offrire il massimo della qualità, conferendogli un valore unico, esclusivo e dalle caratteristiche eccellenti totalmente Made in Italy.

An outstanding tradition of craftsmanship, the use of precious materials, on-going research to ensure continuous evolution: these values always stand out in a creation by Longhi.

Attention to detail works in concert with the use of exclusive materials: woodworking is entrusted to the skill and expertise of highly trained craftsmen. All marbles and stones have Certificates of Authenticity and Guarantee, as our leathers do – which are specifically selected and processed with natural, environment friendly procedures.

All these materials simply harmonise to convey passion and elegance. Each piece is hand-made, and often also made-to-measure. Moreover, each item undergoes inspections to ensure the highest quality standard and give it unique and exclusive value, enhancing its exceptional feature: completely Made in Italy.

Многолетние ремесленные традиции, применение благородных и ценных материалов, постоянные исследования и непрерывное развитие - именно эти ценности всегда отличали творения Longhi.

Внимание к деталям сочетается с использованием эксклюзивных материалов: древесные породы, обрабатываемые опытным и высококвалифицированным персоналом, мрамор и камень, имеющие сертификаты подлинности и гарантийные свидетельства, вместе с кожей, тщательно отбираемой и обрабатываемой натуральными методами, не причиняющими вреда окружающей среде, создают гармонию увлеченности и эlegantности. Каждое изделие изготавливается вручную, часто на заказ, персонализируется и подвергается контролю для обеспечения максимального качества, что придает ему уникальную и эксклюзивную ценность с превосходными характеристиками полностью Made in Italy.

100%
made in
Italy

I materiali utilizzati in ogni prodotto sono di alta qualità, lavorati da personale esperto e controllati accuratamente lungo tutto il processo produttivo.

La pelle è un prodotto naturale che conserva, anche lavorata, alcuni aspetti che ne qualificano l'origine senza modificarne la resistenza, la durata, la qualità: i segni delle spinature, le rughe, una differenza di "grana" sono da considerarsi caratteristiche e non difetti. Anche il naturale assestamento dell'imbottitura non è da considerarsi un difetto. Tutti i marmi e le soft quarziti commissionate da Longhi sono esclusivamente lavorati con tecnologia a controllo numerico. Ogni lastra acquistata e rivenduta, è appartenente alla classe 1, ovvero selezionata per qualità e paese di origine. Ciascuna tipologia di pietra fornita, viene estratta esclusivamente con taglio, oppure per foratura e dilatazione delle facciate del blocco senza l'uso d'alcun genere di esplosivo. Lavorazione che garantisce la naturale integrità della pietra. Pietre selezionate, pregiate e preziose, quali Frappuccino, Emperdaror, Agatha Black ecc, con caratteristiche cromatiche uniche e senza eguali che, pur essendo portate alla loro possibile compattezza, risultano tanto dure quanto particolarmente fragili.

Il legno è un materiale vivo: eventuali piccoli movimenti con il variare della temperatura e dell'umidità sono del tutto naturali e vanno considerati caratteristici del mobile.

The materials used for all the products are of high quality, manufactured by qualified staff and carefully checked throughout the production process.

Leather is a natural product that, even after processing, retains some aspects that reveal its origin without changing its durability, long life and quality: the signs of the dowel, wrinkles, and a difference of "grain" are to be considered peculiarities and not defects. Even the natural adjustment of the "padding" cannot be considered a defect.

All the marbles and soft quartzite commissioned by Longhi are manufactured with CNC technology. Each slab is in Class 1, that means selected for quality and country of origin. Each type of stone supplied is extracted only by cutting or drilling and expanding the sides of the block without using any kind of explosive. This process guarantees the integrity of natural stone. Selected valuable and precious stones like Frappuccino, Emperdaror, Agatha Black etc. have unique chromatic characteristics that, even though they tend to be very compact, are as hard as they are fragile.

Wood is a living material: any small movements with variations in temperature and humidity are quite natural and should be considered characteristics of the furniture piece.

Вся продукция изготавливается из материалов высокого качества, которые обрабатываются опытным персоналом и тщательно контролируются на протяжении всего производственного процесса.

Кожа - это натуральный продукт, который даже в обработанном виде сохраняет некоторые характеристики, свидетельствующие о его происхождении и не изменяющие прочность, долговечность и качество: следы соединения, складки, различия в мере должны считаться особенностями, а не дефектами кожи. Естественная притирка набивки тоже не является дефектом. Весь мрамор и мягкий кварцит, заказываемый Longhi, обрабатывается только по технологии с ЧПУ. Каждая приобретенная и проданная плита относится к классу 1, то есть отобрана по качеству и стране происхождения. Поставляемый камень любого типа добывается только методом разрезания или сверления и расширения сторон блока без использования каких-либо взрывчатых веществ. Эта обработка гарантирует натуральную целостность камня. Такой ценный и красивый камень, как Frappuccino, Emperdaror, Agatha Black и т.д., обладает уникальными и неповторимыми цветовыми характеристиками и даже несмотря на доведение до возможной плотности является настолько твердым, насколько очень хрупким.

Дерево - это живой материал: незначительные движения при изменении температуры и влажности являются абсолютно естественными и должны считаться характеристиками предмета мебели.

DESIGN

LAND

design by **Alessandro La Spada**

Point *of view*

"Il sistema Land, trae ispirazione dalla trasfigurazione di immagini aeree della terra, visioni prospettiche che ritraggono terreni coltivati dall'uomo e rivelano da questo particolare punto di vista, affascinanti cromatismi e composizioni geometriche spontanee. Da qui il pretesto per una nuova interpretazione di superfici verticali, pannellature scandite da profili metallici e materiali diversi che si alternano e delineano spazi: funzioni in un'unica continuità." cit. Alessandro La Spada.

The "Land System" was inspired by the transformation of aerial photographs of the earth – visions from a different perspective that portray the cultivated fields and reveal fascinating colour combinations and spontaneous geometric compositions that cannot be seen from another vantage point. This gives us a new idea for interpreting vertical surfaces, panelling lined with metal profiles and different materials that alternate to define spaces: functions with continuity. " - Alessandro La Spada.

«В основе системы Land лежит преобразование фотографий земли, полученных при помощи аэрофотосъемки, перспективных видений, на которых изображены земельные участки, обработанные человеком, и которые обнаруживают с этой особой точки зрения интересные хроматизмы и произвольные геометрические композиции. Так возникает предлог для новой интерпретации вертикальных поверхностей, панели, дополняемые металлическими профилями и различными материалами, которые чередуются и очерчивают пространство: функции в единой последовательности». цит. Алессандро Ла Спада

LAND

be *unique*

Land è un sistema costituito da moduli scorrevoli, porte battenti e boiserie abbinati a elementi di servizio che creano la possibilità di articolarsi nello spazio unendo distinto gusto e efficace funzionalità. Una vera e propria architettura domestica fatta da una progettazione su misura grazie a una ricerca minuziosa e capillare. Infinite possibilità compositive, tecnologie innovative tra accessori e luci, originali rivestimenti come per esempio la carta da sughero impreziosita da piccole schegge d'oro.

Land is a system of sliding modules, hinged doors and boiserie panels matched with accessories that create the possibility of development in space by combining distinct taste and effective functionality. This is an authentic domestic architecture made up of made-to-measure design based on careful and thorough research. Infinite composition options, innovative technologies that include accessories and lighting, original coverings – such as paper made from cork embellished with tiny golden flakes.

Land - это система, состоящая из раздвижных модулей, распашных дверей и панелей буазери, которые сочетаются со вспомогательными элементами и создают возможность развития в пространстве, объединяя изысканный вкус и эффективную функциональность. Это настоящая домашняя архитектура, представляющая собой проект «на заказ» благодаря тщательным и детальным исследованиям. Бесконечные композиционные возможности, инновационные технологии для аксессуаров и светильников, оригинальные покрытия, такие как бумага из коры пробкового дуба, украшенная мелкой золотой крошкой.

Platinum *new finish*

La nuova colorazione per alluminio, Platino opaco, valorizza enormemente l'estetica e amplia la gamma esistente di finiture opache e lucide presenti nel catalogo Aluminium Chic. Questa nuova finitura conferisce all'alluminio un aspetto opaco sotto qualsiasi angolazione ma, la sua neutralità cromatica, se abbinata a materiali per facciata diversi, come vetro, pelle, legno, permette di creare effetti delicati e accattivanti.

The new colour for aluminium, Matt Platinum, enhances aesthetics immensely and expands the existing range of matt and glossy finishes in the Aluminium Chic catalogue. This new finish gives aluminium a matt look from any point of observation, and its chromatic neutrality – if matched with different surfaces such as glass, leather or wood – makes it possible to create delicate, captivating effects.

Новая окраска для алюминия - матовая платина - удивительным образом подчеркивает эстетику и расширяет существующую гамму матовых и глянцевых вариантов отделки, представленных в каталоге Aluminium Chic. Эта новая отделка придает алюминию матовый вид под любым углом, а ее цветовая нейтральность в сочетании с другими материалами для фасада, такими как стекло, кожа или дерево, позволяет создавать мягкие и завораживающие эффекты.

Triple *jamb*

Con la porta Land nasce anche un nuovo stipite: "Triple" che risulta essere lineare quanto elegante, riuscendo così ad adattarsi perfettamente a spazi minimal e moderni. Tre gradini netti che sporgono dal vano disegnando geometricamente la porta.

The Land door ushers in a new type of jamb: "Triple" is both linear and elegant, and can perfectly adapt to minimal, modern spaces. Three clearly fashioned "steps" over the door space give the door a geometric frame.

Вместе с дверью Land рождается и новая дверная коробка – «Triple». Она отличается линейностью и элегантностью и является прекрасным решением для минималистичных и современных помещений. Три чистые ступеньки выступают из проема, геометрически очерчивая дверь.

Strong *detail*

Tutto in due parole: ricerca e originalità. Con la porta Land, Longhi punta su materiali sorprendenti e texture di grande charme ma anche sulla tecnologia. Come optional solo sullo stipite "Triple" è stata studiata la possibilità di inserire un micro LED a luce bianca naturale da 0,5W-24V con accensione tramite sensore ad infrarossi di movimento. Il fascio di luce di 30°, proiettato sull'anta, illumina delicatamente la maniglia e si spegne automaticamente dopo circa 2 minuti.

Just two words: research and originality. Longhi's Land doors are made with surprising materials and charming textures, but technology is also an important factor. As an optional, the "Triple" jamb includes the possibility of placing a micro LED with natural white light (0.5W-24V) that turns on with an infrared movement sensor. The 30° beam of light shines on the door to provide delicate light on the handle that automatically switches off after about 2 minutes.

Всего два слова: исследования и оригинальность. В двери Land Longhi делает ставку на удивительные материалы и текстуры, отличающиеся огромным шармом, а также на технологию. В качестве опции только для дверной коробки «Triple» была предусмотрена возможность установки микросветодиода с натуральным белым светом 0,5 Вт-24 В, включающегося посредством инфракрасного датчика движения. Свет падает на дверь под углом 30°, мягко освещая ручку, и автоматически выключается примерно через 2 минуты.

Natural *weave*

Il lusso si unisce a materiali naturali. Il sughero viene animato da fondi e riflessi metallizzati, dagli effetti cangianti, sofisticati ed imprevedibili e si dispiega con maestria sulle pareti: una finitura scintillante tessuta manualmente.

Luxury combines with natural materials. Cork is made interesting with metal bases and reflections, with sophisticated and unexpected iridescent effects, that unfold masterfully on the walls: a glittering finish resulting from a handcrafted process.

Роскошь объединяется с натуральными материалами. Пробка оживляется металлизированными фонами и отблесками, переливчатыми, утонченными и непредсказуемыми эффектами и искусно располагается на стенах: сверкающая отделка, сотканная вручную.

A REAL SECOND SKIN

Stylish *veneer*

L'attenzione al dettaglio si coniuga con l'uso di materiali esclusivi. Essenze lignee come il Sucupira Luxury, Noce Canaletto e l'Ebano ampliano la gamma di finiture del sistema Land: è la conoscenza dei materiali che richiede la giusta tecnica nel trattamento di un legno che sa seguire con naturalezza le sue venature.

Attention to detail combines with the use exclusive materials. Woods like Luxury Sucupira, Canaletto walnut and Ebony expand the range of finishes available for the Land series. In-depth knowledge of materials is needed to use the right woodworking technique to follow its grain in a natural way.

Внимание к деталям сочетается с использованием эксклюзивных материалов. Древесные породы, такие как Сукупира роскошь, орех Каналетто и эбеновое дерево, дополняют гамму отделок системы Land. Глубокое знание материалов позволяет использовать правильные методы обработки дерева, естественным образом повторяющие его текстуру.

IANUS

Inimitable *lifestyle*

Ianus è un programma mutevole, riflette i luoghi e le atmosfere, cambia natura, raccoglie le suggestioni di tanti mondi possibili, ne accetta i contrasti e li trasforma in un insieme elegante e calibrato. Ha, alla propria origine, un concept forte e determinato che lo porta ad essere essenziale ed al tempo stesso, per complessità e sicurezza di linguaggio, esuberante, ricco, sontuoso. Ianus decodifica il gusto contemporaneo e cosmopolita e lo ricompone, senza mezzi termini o indecisioni, in un insieme di colori e materiali preziosi in un'unica, esclusiva, inimitabile idea di lifestyle.

Ianus is a versatile system that reflects the places and atmospheres it occupies, then changes its character, taking its cues from many possible worlds, accepts their differences and blends them into an elegant and balanced whole. It springs from a bold, original concept that lends it an essential and, at the same time exuberant, opulent, and sumptuous feel - thanks to the complexity and confidence of its architectural language. Ianus translates contemporary, cosmopolitan taste in unequivocal and well-defined terms through a combination of colors and precious materials, producing a unique, exclusive, unrivalled lifestyle concept.

Ianus - это изменчивый проект, который отражает места и окружение, меняет свой характер, объединяет очарование множества возможных миров, принимает их контрасты и преобразует их в элегантный и гармоничный ансамбль. В основе проекта лежит сильная и четкая концепция, придающая ему строгость, но в то же время пышность, богатство и величие, достигаемые благодаря сложной и уверенной форме выражения. Ianus расшифровывает современный космополитический вкус и решительно и уверенно преобразует его в ансамбль из оттенков и ценных материалов, создавая уникальную, эксклюзивную, неподражаемую идею стиля жизни.

Cristal Rain *design*

Per il sistema Ianus è stata sviluppata una decorazione esclusiva: "Cristal Rain".
Una creazione unica, che amplia l'alto contenuto decorativo e crea un valore aggiunto al sistema Ianus.

The exclusive decorative element "Cristal Rain" was created for the Ianus system.
The unique design takes decoration to a new level and creates added value for the Ianus system.

Для системы Ianus был разработан эксклюзивный декор «Cristal Rain». Это уникальное творение усиливает высокдекоративный характер системы Ianus и подчеркивает ее красоту.

Pure *elegance*

Oro Champagne e Bronzo Satinato sono le eleganti finiture protagoniste di un design emozionale che rendono le porte un esclusivo elemento d'arredo.

Champagne Gold and Satin Bronze are the elegant finishes of an emotional design that makes these doors an exclusive furnishing element.

Золото оттенка шампанского и сатинированная бронза - элегантные отделки, находящиеся в центре эмоционального дизайна и преобразующие двери в эксклюзивный элемент интерьера.

Warm *feeling*

L'affascinante cura dei particolari sarà la nostra base per gli scenari che avete sempre sognato, come il delicatissimo accostamento dell'alluminio Oro Champagne con la pelle Suede color cipria.

The fascinating attention to detail is our basis for the rooms that you have always dreamed of, such as the combination of Champagne Gold aluminium with powder coloured Suede leather.

Удивительное внимание к деталям станет основой для создания сценариев, о которых вы всегда мечтали, таких как нежное сочетание алюминия в отделке золото оттенка шампанского с кожей Suede пудрового цвета.

User-friendly

Affidabilità e funzionalità "user-friendly", si percepiscono nella fluidità dei movimenti, nell'accuratezza degli assemblaggi, nel sapiente accostamento di materiali tecnologici a materiali naturali.

Reliability and "user-friendly" functionality can be seen in the smooth movement, precision assembly, and skillful blending of technological and natural materials.

Надежность и удобная функциональность чувствуется в плавности движений, в аккуратности монтажа, в умелом сочетании технологических и натуральных материалов.

HEADLINE

Personally *designed*

Headline è una collezione di porte nata per superare i limiti comunemente imposti dalla produzione seriale. Non è un prodotto di massa ed è molto vicino all'edizione limitata, una linea di alta gamma rivolta ad un pubblico aggiornato e consapevole, in grado di leggere la cura artigianale dei dettagli tipica del "Made in Italy" e, soprattutto, capace di "scegliere". Il vero protagonista è dunque l'acquirente, cioè colui che attingendo alla ricca gamma di possibilità offerte dalla combinazione tra decori esclusivi, essenze pregiate ed altri materiali quali acciaio e vetri, diventa parte attiva nel processo creativo che porterà alla definizione di un suo stile unico e individuale: "Personally designed".

Headline is a collection of doors designed to overcome the limitations imposed by mass production. Far from an 'assembly line' product, this collection is much closer to a limited edition, a top-of-the-line serie for the savvy client who appreciates the craftsmanship and detailing typical of "made in Italy" products, and above all, capable of making choices. The client, rather than the product, is at the center of this collection: selecting from the wide range of choices offered by the exclusive decorations, the valuable woods, and other materials such as steel and glass. The client actively participates in the creative process, leading to the definition of a unique and personal style: "Personally designed".

Коллекция дверей Headline создана, чтобы обойти ограничения, обычно накладываемые серийным производством. Это не массовая продукция, она скорее ближе к продукции ограниченного тиража. Эта коллекция высокого уровня была задумана для современных людей, умеющих ценить свойственные итальянскому производству высокое качество и аккуратность обработки деталей и, самое главное, умеющих «выбирать». Таким образом, главным действующим лицом становится покупатель, который, выбирая из богатейшего ассортимента возможных комбинаций эксклюзивных декоративных деталей, ценных пород дерева и других материалов, таких как сталь и стекло, сам принимает активное участие в творческом процессе, результатом которого становится создание своего собственного и неповторимого стиля «Personally designed».

Bespoke *to you*

"Bespoke to you" esprime la possibilità, offerta all'acquirente dalla collezione Headline, di combinare, secondo la propria sensibilità e il proprio gusto, materiali particolari ed esclusivi che rendono la porta un elemento protagonista dell'arredamento.

"Bespoke to you" refers to the opportunity for buyers of the Headline collection to express their own personal taste and skill in combining the special, exclusive materials which cast the door in a starring role in home interior design.

«Изготовление по индивидуальному заказу». Коллекция Headline предоставляет своим покупателям возможность комбинировать по собственному вкусу необычные и эксклюзивные материалы, благодаря которым дверь становится важнейшим элементом интерьера.

DOORS WEAR
LORO PIANA
INTERIORS

Loro Piana Interiors® *insert*

Per rendere unica la propria casa, oltre i divani e i complementi Loveluxe anche le porte Alluminium Chic vestono i tessuti Loro Piana Interiors®. Cashmere e pregiate lane merinos si fondono con lino o seta, creando rivestimenti ideali per la realizzazione di decori. La caratteristica fascia centrale, che determina lo stile Headline, diventa così un esclusivo dettaglio che conferisce originalità e ricchezza alla porta. I tessuti sono declinati in diverse texture, tinta unita o rigati, i colori scelti consentono di coordinare la superficie liscia del vetro con il velour dell'elegante inserto.

The Made in Italy industry is strictly correlated with Tailor Made and Made to Order products and for this reason the new collection has a wide range of the most exclusive materials. As if they were in an atelier, Loveluxe collection complements wear exclusive fabrics from Loro Piana Interiors: the best cashmere and merinos wool are combined with linen and silk. These light-weight, warm and enveloping fabrics are made of noble fibres and fine materials purchased in the countries of origin, and then processed in Italy with rigorous supervision of every production phase.

Для придания дому уникальности, кроме диванов и аксессуаров Loveluxe, двери Alluminium Chic тоже облачаются в ткани Loro Piana Interiors®. Кашемир и ценная шерсть мериноса сливаются со льном или шелком, создавая идеальные покрытия для реализации декора. Характерная центральная полоса, определяющая стиль Headline, становится эксклюзивной деталью, которая придает двери оригинальность и пышность. Используются ткани с различной текстурой, однотонные или в полоску, а выбранные цвета позволяют гармонично сочетать гладкую поверхность стекла с бархатистостью эlegantной вставки.

More and more *colors*

Il vetro rappresenta un materiale assolutamente unico nell'ambito delle porte per interni ed, abbinato a diversi materiali come per esempio il cashmere testa di moro con il vetro temperato color caffè, può creare giochi e stili differenti per ogni gusto. La particolarità dei vetri laccati è la loro capacità di amplificare la sensazione spaziale degli interni, creando un esclusivo effetto di profondità grazie alla superficie riflettente. I vetri laccati sono disponibili in finitura lucida e opaca in 13 tinte differenti.

Glass is an absolutely unique material for interior doors and, combined with various material such as dark brown cashmere and coffee colour tempered glass, can create different effects and styles designed to meet every taste. The main feature of lacquered glass is amplifying the spatial sensation of interiors, creating an exclusive effect of depth as the result of the reflective surface. Lacquered glass is available in both glossy and matt finishes in 13 different shades.

Стекло представляет собой абсолютно уникальный материал в сфере межкомнатных дверей, который в различных сочетаниях, как, например, темно-коричневый кашемир и закаленное стекло кофейного цвета, позволяет создавать разнообразные эффекты и стили на любой вкус. Особенность лакированного стекла заключается в его способности визуально расширять пространство интерьера, создавая уникальный эффект глубины благодаря отражающей поверхности. Лакированное стекло предлагается с глянцевой и матовой отделкой в 13 цветовых вариантах.

HEADLINE

Art *design*

Le forme sporgendo dal piano di fondo si identificano in un tradizionale bassorilievo, espressione di arte, cultura e classicità. Realizzazione eseguita artigianalmente in gesso.

The figures that protrude from the bottom are inspired by traditional bas-relief, an expression of art, culture and classicism. Hand crafted plaster.

Формы, выступающие над плоскостью фона, уподобляются обычному барельефу, выражению искусства, культуры и классического стиля. Ручная работа с использованием гипса.

Limited *edition*

La porta battente, priva di stipiti visibili, disegna nitide campiture sulla parete, senza turbarne la continuità della superficie. La porta battente o i pannelli scorrevoli diventano protagonisti nei progetti dell'habitat contemporaneo.

The swing door, with no visible jambs, traces sharp outlines on the wall without disrupting its surface continuity. The traditional door or sliding panels take center stage in modern living projects.

Распашная дверь без видимых элементов дверной коробки рисует на стене четкие линии, не нарушая целостности поверхности. Распашная дверь или раздвижные панели становятся главными действующими лицами проектов современного интерьера.

SPARK

Boundless *versatility*

Leggerezza e raffinata eleganza sono i tratti comuni nelle soluzioni proposte dal sistema Spark. Le sottili ma robuste strutture in alluminio anodizzato naturale, in elettrocolore moro o rivestite in essenza, contengono vetri stratificati conformi alle norme di sicurezza e temperati con esclusivi decori personalizzati. Spark è disponibile nelle tre tipologie estetiche: 4 riquadri, 2 riquadri e a specchiatura intera.

Lightness and refined elegance are the common features of solutions offered by the Spark system. The thin but sturdy structures in natural anodised aluminium, in electrocolour dark brown or wood veneer, contain tempered laminated glass compliant with safety standards and adorned with exclusive personalised decorations. Spark comes in the following three aesthetic typologies: 4 panes, 2 panes, and full-size glass.

Легкость и изысканная элегантность – общие черты решений, предлагаемых системой Spark. Тонкие, но прочные конструкции из алюминия с натуральной анодированной отделкой, темно-коричневой электроокраской или облицованные деревом, содержат многослойное и закаленное стекло, отвечающее стандартам безопасности и украшенное эксклюзивным персонализированным декором. Система Spark выпускается в трех вариантах: 4 панели, 2 панели и цельное стекло.

ECO *Wood*

I profili in alluminio sono rivestiti da un'impiallacciatura di legno multilaminare che garantisce uniformità cromatica costante nel tempo ma soprattutto agisce nel massimo rispetto del territorio: le essenze selezionate e certificate provengono da foreste con gestione a basso impatto ambientale.

Aluminium profiles are veneered in multi-laminate wood that guarantees uniform colour. The veneer will not fade, and is environmentally friendly: the woods come from certified low impact forests.

Алюминиевые профили имеют отделку из многослойного шпона, обеспечивающего не только не изменяющуюся во времени равномерность цвета, но и, прежде всего – максимальную охрану территории, т. к. используются породы дерева из сертифицированных лесов с экологическим управлением.

WAVE

Modern *elegance*

Grande eleganza di gusto, attenzione alla funzionalità, ampia gamma di finiture, realizzazione su misura: questa è la ricetta vincente di Wave.

Apparentemente semplice, ma complessa nello studio approfondito dei profili d'alluminio che consentono la complanarità tra stipite e parete. Ricercata nell'esclusivo design della maniglia, espressamente realizzata per Wave, che definisce il progetto con un dettaglio identificativo. La serratura è magnetica con chiusura a nottolino.

Highly elegant taste, attention to function, a wide range of finishes, and custom construction: this is the winning combination for Wave.

The simple-looking though quite complex design of the aluminium profiles allow the jamb to be flush with the wall. An exquisitely designed handle, especially made for Wave, marks the project with a defining detail. The lock is magnetic with a privacy latch closure.

Элегантный вкус, внимание к функциональности, богатая гамма отделок, реализация на заказ - вот выигрышный рецепт Wave. Простой на первый взгляд, но сложный в тщательном изучении алюминиевых профилей, обеспечивающих компланарность дверной коробки и стены. Изысканный в эксклюзивном дизайне ручки, специально созданной для Wave, которая является отличительной деталью проекта. Используется магнитный замок с защелкой.

WAVE

Welton *design*

Vetro con decoro satinato realizzato in esclusiva per Longhi. Pattern dal gusto classico, una fusione di eleganza e purezza.

Glass with satin decoration, made exclusively for Longhi. A classic pattern that combines elegance and purity.

Стекло с сатинованным декором, реализованным эксклюзивно для Longhi. Узор в классическом стиле, союз элегантности и чистоты.

The purity *of white*

I tessuti Blaize e Exner, uniti ai vetri trasparenti stratificati bronzo, fumè o neutro, conferiscono molteplici combinazioni e permettono di soddisfare le richieste di un mercato sempre più attento. Qui la porta Wave veste il Blaize bianco nel vetro neutro extrawhite e dona all'ambiente freschezza e candore.

Blaize and Exner fabrics, combined with transparent laminated glass in the shades of bronze, smoky grey or neutral, convey multiple combinations and meet the requirements of an increasingly demanding market. Here Wave is wearing Blaize white with neutral extrawhite glass and enhances the room with a cool, white atmosphere.

Ткани Blaize и Exner в сочетании с бронзовым, дымчатым или нейтральным прозрачным многослойным стеклом создают многочисленные комбинации и позволяют удовлетворять потребности все более внимательного рынка. Здесь дверь Wave облачена в белую ткань Blaize в нейтральном стекле extrawhite и придает помещению свежесть и чистоту.

MODERN MATT

Plain *colour*

Tra le sofisticate e pregiate finiture Longhi spicca, per la sua elevata qualità, il vetro stratificato opaco: un'eccellente omogeneità estetica unita a una grana morbida e vellutata al tatto. La vasta gamma delle laccature a campionario, applicabili anche alle strutture, offre la possibilità di creare la porta anche in tinta unita!

Among Longhi's exclusive and sophisticated finishes, matt layered glass stands out for its high quality: a superbly uniform look combined with a soft grain, silky feel. The wide range of lacquers in our collection of finishes can also be used for the structures, which makes it possible to create doors finished entirely in one colour only!

Среди ценных и изысканных вариантов отделки Longhi выделяется благодаря высокому качеству матовое многослойное стекло, в котором превосходная эстетическая однородность сочетается с мягкой бархатистой текстурой. Богатая гамма лаковых покрытий согласно набору образцов может использоваться и для каркасов, позволяя создавать однотонные двери!

WIND

Bespoke *to you*

La struttura di Wind è realizzata interamente in alluminio, garantendo così agilità di scorrimento delle ante. Essenziale, pratica, ma non solo: la realizzazione di una struttura leggera infatti, conferisce a Wind eleganza estetica e formale. È disponibile un'ampia gamma di vetri stratificati e temperati conformi alle norme di sicurezza. Wind è disponibile anche a specchiatura intera: da pavimento a soffitto senza interruzioni.

The "Wind" frame is made of aluminum, so the panels can slide easily. A key factor from a practical standpoint, but the lightweight frame also gives "Wind" aesthetic and design elegance. It is available in a wide range of laminated and tempered glasses, all in compliance with safety standards. "Wind" is also available entirely in glass - a single piece from floor to ceiling. With mirror finish, it furnishes the room and at the same time visually expands it.

Каркас системы Wind выполнен полностью из алюминия, что обеспечивает плавное скольжение дверей. Использование только самых необходимых элементов делает систему Wind чрезвычайно практичной, а легкий каркас придает ей элегантный внешний вид и форму. В наличии имеется широкий ассортимент многослойного и закаленного стекла, соответствующего нормам безопасности. Wind может иметь полностью стеклянное исполнение: с цельным стеклом от пола до потолка.

CRISTAL

Exclusive *plus*

Cristal è un sistema articolato di porte battenti, pannelli scorrevoli ed a scomparsa con requisiti formali e tecnologici unici. Un aspetto qualificante del programma è dato dalla possibilità di declinare gli elementi "su misura" con la vastissima gamma di finiture e vetri speciali in combinazioni che superano i limiti della produzione seriale e rendono le porte un esclusivo elemento d'arredo.

Cristal is a versatile and diversified system of swing doors, sliding panels and panels for pocket doors with unique shapes and technological characteristics. One significant aspect of this system is the possibility of having "made to order" elements in a wide range of finishes and with a selection of special kinds of glass. Available combinations go beyond the limits of assembly-line production, and make these doors into exclusive furnishing elements.

Cristal - это гибкая система распашных дверей, раздвижных панелей и панелей с уходом в стену, обладающих уникальными технологическими и эстетическими характеристиками. Отличительной особенностью этой линии является возможность сочетать элементы, изготовленные по индивидуальному заказу, с огромным количеством отделок и стекол, создавая комбинации, выходящие за пределы серийного производства и превращающие двери в эксклюзивный элемент интерьера.

Cristal *handle*

La maniglia, realizzata su progetto Longhi, è espressamente dedicata al programma Cristal. La serratura miniaturizzata e brevettata è inglobata interamente nel montante della porta conferendole una pulizia formale ed estetica unica nel settore.

Finiture: cromato lucido e cromosatinato. Viene fornita sempre con nottolino di chiusura.

The handle, designed by Longhi, is manufactured specifically for the Cristal system. The patented miniature lock is completely encased in the doorjamb, giving the door a sleek, beautiful look that is unique in the industry.

Finishes: polished chrome and satin finish chrome. All doors come complete with lock.

Ручка изготовлена по дизайну Longhi специально для системы Cristal. Защищенный патентом миниатюрный замок, полностью спрятанный в стойке двери, придает ей уникальную эстетическую чистоту.

Отделка: глянцевый хром и сатинированный хром. В комплект поставки входит защелка.

Handle *and jamb*

La maniglia, realizzata su progetto di Giuseppe Iasparra, è espressamente dedicata al programma Alley. La particolare forma chiude in essa materiali opulenti, marmi, onici o morbide pelli. Lo stipite, invece, è la rilettura moderna di uno stile Neoclassico, morbido nel tratto, curvilineo fa risplendere una casa deluxe. Alley è un progetto completo dove la tradizione incontra un design rigoroso creando un'assoluta armonia di stile. Dona ancora più vigore la seconda finitura scelta per presentare la boiserie: il mogano tinto scuro.

The handle, designed by Giuseppe Iasparra, is expressly dedicated to the Alley line. Its particular shape encloses opulent materials such as marble, onyx or soft leathers. The jamb, on the other hand, is a modern version of Neoclassical style with a soft curved shape that gives splendour to the deluxe home. Alley is a complete project where tradition encounters rigorous design to create an absolute harmony of style. The second finish chosen to present the boiserie wall covering gives even more strength: dark stained mahogany.

Ручка изготовлена по проекту Джузеппе Яспарры специально для системы Alley. Особая форма скрывает в ней богатые материалы, мрамор, оникс или мягкую кожу. Дверная коробка, отличающаяся мягкими изогнутыми линиями, представляет собой современную интерпретацию неоклассицизма и придает особый блеск роскошному интерьеру. Alley – это совершенный проект, где традиция сочетается со строгим дизайном, создавая абсолютную гармонию стиля. Еще большую энергию придает вторая отделка буазери - красное дерево, тонированное в темный цвет.

LORD

Contemporary *living*

Porta caratterizzata dall'accurata ricerca di materiali e finiture: il Sucupira Luxury opaco, il rovere thermo-smoked, il larice scolpito laccato, il rivestimento in camoscio o in pelle e il poliestere lucido brillante rendono Lord protagonista del living contemporaneo. L'esclusivo design della maniglia Longhi è abbinato a una serratura magnetica, disponibile con o senza nottolino di chiusura oppure con chiave.

This door epitomizes the quest for just the right materials and finishes. The matt Sucupira Luxury, thermo smoked oak, carved lacquered larch, suede or leather upholstery and shiny polyester make "Lord" an icon of contemporary living. The exclusive LONGHI handle design is paired with a magnetic latch, available with or without locking mechanism or with key.

Дверь отличается огромное внимание к материалам и отделке. Матовая Sucupira Luxury, копченый дуб, структурная лиственница с лаковым покрытием, замшевая или кожаная обивка и блестящее полиэфирное лаковое покрытие делают дверь Lord главным действующим лицом современного интерьера. Эксклюзивный дизайн ручки Longhi сочетается с магнитным замком, который может выполняться с защелкой или без нее или оснащаться ключом.

Sucupira *luxury*

Fantastica essenza di legno, il Sucupira ha come principali caratteristiche la durezza e la fitta venatura. Trattato con la finitura Luxury trasparente dona al materiale elevatissima morbidezza ed un tono vellutato. Una prodotto elegante e ricercato che vanta caratteristiche decisamente interessanti per un design dai tratti speciali, dall'effetto aptico.

The lovely wood, Sucupira, has two main characteristics: hardness and marked grain. Treated with a transparent Luxury finish, the wood shows extreme softness and a velvety tone. This elegant product provides very interesting features for a design with special traits and unexpected haptic effects.

Sucupira – это удивительная порода древесины, которая отличается твердостью и густой сетью прожилок. Прозрачная отделка Luxury придает ей необыкновенную мягкость и бархатистость. Это элегантный и изысканный материал с очень интересными характеристиками, позволяющими создавать особенные дизайнерские решения с осязательным эффектом.

WOOD

Traditional *look*

Wood è una tradizionale ed elegante porta battente in legno. Molto accurata è la scelta dei materiali e la venatura orizzontale delle essenze: Sucupira Luxury opaco, EcoWood ebano, EcoWood noce Canaletto e EcoWood rovere moro. Un'altra finitura presente nella collezione è il laccato opaco a poro aperto nei colori a campionario.

Wood is the name of an elegant, traditional wooden door. The choice of materials and the horizontal grain of matt Sucupira Luxury, EcoWood ebony, EcoWood Canaletto walnut or EcoWood dark oak is an essential element. Another finish available in the collection is matt lacquered open pore in the sample colors.

Wood - это традиционная и элегантная деревянная дверь, которую отличает очень тщательный выбор материалов и горизонтальная текстура древесных пород: матовая Sucupira Luxury, EcoWood эбеновое дерево, EcoWood орех Canaletto и EcoWood темно-коричневый дуб. Еще одной отделкой, представленной в этой коллекции, является матовый лак с открытой порой в цветовой гамме согласно набору образцов.

SCREEN

Fuctional *design*

Screen è un sistema espressamente dedicato alle chiusure di cabine armadio, piccoli spazi e nicchie. Infatti i pannelli scorrevoli sono caratterizzati da una lastra di vetro posta solo sulla parte frontale della struttura ed i profili d'alluminio sono dotati di specifiche guarnizioni e spazzoline antipolvere.

Screen system is expressly made for closing walk-in closets, small spaces and niches. The sliding panels have a sheet of glass only on the front part of the structure and the aluminium profiles have special gaskets and anti-dust brushes.

Screen - это система, предназначенная для закрытия гардеробных комнат, небольших пространств и ниш. Раздвижные панели характеризует наличие стеклянного листа только в передней части конструкции, а алюминиевые профили оборудованы специальными прокладками и щетками для защиты от пыли.

FLY-SYSTEM

Maximum *flexibility*

Fly-System è l'innovativo programma per gli ambienti dedicati a cabina armadio. Il progetto nasce e si sviluppa sull'esclusiva trave in alluminio fissata a soffitto, sulla quale è possibile agganciare dei montanti dedicati a posizionare mensole ed accessori in funzione delle proprie esigenze. Inoltre il rivestimento, boiserie, della parete è strutturalmente svincolato, permettendo al sistema di essere collocato anche in uno spazio libero. Massima flessibilità progettuale e combinazioni estetiche infinite per creare cabine armadio personalizzate e su misura del "Tuo" spazio.

This is the innovative line for rooms dedicated to contain the walk-in closet. The project begins and develops along an exclusive aluminium beam fixed to the ceiling, on which it is possible to hook uprights and position shelves and accessories depending on personal requirements. The boiserie wall covering panel is structurally apart, which allows the system to be placed in a freer space, if desired. Maximum flexibility in design and unlimited aesthetic combinations make it possible to create personalised walk-in closets to fit "Your" space.

Fly-System - это инновационная линия, созданная для гардеробных комнат. Система основана на одной закрепленной на потолке алюминиевой перекладине, к которой могут фиксироваться специальные стойки для установки полок и других комплектующих согласно собственным потребностям. Декоративная стеновая панель буазери является конструктивно независимой, что позволяет устанавливать систему и в свободном пространстве. Максимальная гибкость дизайна и бесконечное число сочетаний отделки позволяют создавать персонализированные гардеробные комнаты точно по размеру.

Adaptable *system*

Fly System si completa con un'ampia gamma di accessori, liberamente posizionabili lungo il montante: mensole e basamenti, aste portabiti, appendiabiti inclinabili, cassettiere, portapantaloni e vassoi estraibili. La cabina armadio è una zona funzionale che si trasforma in uno spazio privato, separato da ante scorrevoli a vostra scelta.

Fly System is completed with a wide range of accessories, freely positioned along the upright: shelves and bases, clothing rods, tilting clothes hangers, chests of drawers, trousers holders and extractable trays. The walk-in wardrobe has a functional area that can turn into a private space, separated by your choice of sliding doors.

Fly System дополняется богатой гаммой комплектующих, которые можно свободно устанавливать вдоль стойки: полки и основания, штанги для одежды, наклонные вешала, кассетницы, держатели для брюк и выдвижные поверхности. Гардеробная комната – это функциональная зона, которая становится личным пространством, отделенным раздвижными дверями по вашему выбору.

FLY-SYSTEM - VERTICAL

VERTICAL

Modular *closet*

La cabina armadio Vertical è dotata di una ricca gamma di attrezzature nelle diverse finiture. Degno di nota è sicuramente la finitura elettrocolore moro per l'alluminio. Le mensole, grazie all'esclusivo sistema di fissaggio, si possono posizionare all'altezza desiderata. I montanti bloccabili tra pavimento e soffitto, o fissabili a parete, permettono di configurare liberamente soluzioni per ogni particolare esigenza. Le pareti si possono rivestire con la boiserie modulare (è possibile anche il taglio su misura), disponibile nelle finiture melaminico bianco, melaminico wengé, in vetro o pelle.

The Vertical walk-in wardrobe has a rich range of accessories and equipment in the different finishes. One important item is the electrocolour dark brown finish for aluminium. The shelves can be fastened at the desired height, thanks to the exclusive fastening system. The uprights can be secured between floor and ceiling, or fastened onto the wall, so that various solutions can be put together to suit particular needs. The walls can be covered with modular boiserie panels (which also can be ordered to measure) available in the finishes: white melamine, wenge melamine, glass or leather.

Гардеробная комната Vertical оснащена богатой гаммой приспособлений с различной отделкой, включая новую темно-коричневую электроокраску для алюминия. Благодаря эксклюзивной системе крепления полки могут устанавливаться на необходимую высоту. Стойки, фиксируемые между полом и потолком или закрепляемые на стене, предоставляют максимальную свободу при создании любых композиционных решений. Стены могут покрываться модульными панелями буазери (возможна резка по размерам) с отделкой белый меламин, меламин венге, из стекла или кожи.

Light *style*

La cabina armadio Vertical è caratterizzata da una organizzazione precisa degli spazi, dove l'ordine, la funzionalità e la coerenza stilistica sono protagonisti assoluti. I dettagli sono da sempre una parte importante della filosofia progettuale Longhi, esprimono una concezione dell'eleganza evoluta, risultato di una ricerca stilistica e funzionale precisa.

The Vertical walk-in wardrobe is organised with a precise definition of space. Order, function and stylistic coherence are the most important aspects. The details are always an important part of Longhi's design philosophy because they express a concept of evolved elegance, the result of targeted functional and stylistic research.

Для гардеробной комнаты Vertical характерна четкая организация пространства, в котором главную роль играют порядок, функциональность и стилистическая согласованность. Детали, имеющие важное значение в философии проектирования Longhi, выражают концепцию современной элегантности, которая является результатом точных стилистических и функциональных исследований.

LAND

Modular *system*

Land si caratterizza per un'estrema adattabilità ad ogni tipo di ambiente e per i materiali utilizzati, che sono il frutto di ricerche nel settore della moda e del design contemporaneo. La serie comprende molteplici abbinamenti e modularità dalle dimensioni quasi personalizzate. All'interno di un processo di progressiva elaborazione dell'architettura d'interni, porte, boiserie e mobili contenitori vestono l'ambiente come una vera e propria pelle in cui convivono forma e funzione.

Land is extremely adaptable to every type of room, and the materials used to make the series are the result of research in today's fashion and design sectors. The series includes many pairings and modular solutions with almost personalised features. Inside this process of progressive development of interior architecture, doors, boiserie panels and storage pieces "dress" the room as if they were its skin, bringing form and function.

Land характеризуется максимальной адаптируемостью к любому типу помещения и используемыми материалами, которые являются результатом исследований в сфере моды и современного дизайна. Серия включает многочисленные сочетания и модульные решения, отличающиеся практически индивидуальными размерами. Внутри процесса постепенной разработки архитектуры интерьера двери, буазери и шкафы одевают помещение, как настоящая кожа, в которой сосуществуют форма и функция.

Special mirror TV

Specchio o TV? Semplice: accesa è una TV, spenta è uno specchio che non lascia intravedere nulla al suo interno. La speciale integrazione di una LED TV dietro allo specchio è il risultato di una ricerca costante, originale e di grande impatto tecnologico.

Totalmente invisibile, è il connubio perfetto tra lo stile del tuo living e una comune TV. Lo specchio è disponibile nelle seguenti varianti di colore: bronzo naturale, bronzo chiaro, grigio Londra, nero non riflettente, specchio naturale.

Mirror or TV? Simple: when it's on, it's a TV and when it's off, it is a mirror that won't allow anyone to see what's inside. The special integration of a LED TV behind the mirror is the result of constant research, and has produced an original and very impressive technological piece. Totally invisible, this TV is the perfect blend of living room style and common home entertainment. The mirror is available in the following colour variations: natural bronze, light bronze, London grey, non-reflecting black, or natural mirror.

Зеркало или телевизор? Очень просто: во включенном состоянии это телевизор, а в выключенном зеркало, внутри которого ничего не заметно. Особая интеграция LED-телевизора за зеркалом представляет собой результат постоянных и оригинальных исследований и обладает уникальным технологическим эффектом. Абсолютно невидимый, он представляет собой идеальный союз стиля гостиной и обычного телевизора. Зеркало производится в следующих цветовых вариантах: натуральный бронзовый, светлый бронзовый, серый Londra, черный неотражающий, натуральное зеркало.

HERITAGE

Wooden *boiserie*

La boiserie Heritage ha molteplici aspetti di adattabilità e, coordinata con le sue porte, crea stile e continuità formale a tutta la stanza. Ogni progetto è creato su misura sia in altezza che in larghezza. Tutti i punti luce sono a led con accensione tramite piccolo interruttore touch posto esternamente e con variazione di intensità tramite pressione.

Heritage boiserie is very adaptable and, coordinated with its doors, creates a seamless formal continuity in the room. Each project is custom-designed to fit the height and width of the room. All spotlights are LED luminaires with a small touch switch placed outside whose intensity may vary by pressure.

Буазери Heritage обладает многочисленными аспектами адаптируемости и в сочетании с дверями придает стиль и формальную связность всему помещению. Каждый проект создается по индивидуальным размерам как в высоту, так и в ширину. Все светодиодные светильники включаются с помощью миниатюрного сенсорного и нажимного выключателя, позволяющего изменять интенсивность света, который расположен снаружи.

Italian *Style*

Preziosa cornice, un dinamico gioco di boiserie alta fino al soffitto, regala agli ambienti una sensazione di grande respiro. Heritage è un sistema di boiserie modulare totalmente su misura, con alcuni elementi attrezzati speciali, dallo stile neoclassico.

A precious setting, a dynamic interplay of full-height boiserie panels, gives any ambience a sensation of deep breath. Heritage is a modular system of custom-made boiserie panels with some special accessorised elements in pure neoclassical style.

Уникальный декор, динамичная игра буазери во всю высоту помещения дарят ощущение абсолютной свободы. Heritage - это модульная система буазери, реализуемая полностью по индивидуальному заказу и включающая особые оборудованные элементы в неоклассическом стиле.

Severe *Style*

Heritage è un progetto completo dove la tradizione incontra un design rigoroso creando un'assoluta armonia di stile. Dona ancora più vigore la seconda finitura scelta per presentare la boiserie: il mogano tinto scuro.

Heritage is a complete project where tradition meets a thorough design creating an endless harmony of style. The second available finish of the boiserie gives even more firmness: dark stained mahogany.

Heritage – это совершенный проект, где традиция сочетается со строгим дизайном, создавая абсолютную гармонию стиля. Еще большую энергию придает вторая отделка буазери – красное дерево, тонированное в темный цвет.
