profilo aziendale

P&C

La storia di Pacini & Cappellini nasce da tanti amori: il legno, la casa, l'abitare inteso come aspetto della quotidianità essenziale per il benessere delle persone. Partendo da queste basi, da più di trent'anni, l'azienda produce e distribuisce in tutto il mondo mobili e complementi d'arredo per la casa e la collettività: tavoli, sedie e poltrone, librerie e consolle, ma anche madie e porta-tv realizzati interamente in Italia.

L'avventura di Alberto Pacini e Camillo Cappellini inizia quando capiscono che c'è soltanto un modo per dare concretezza alle loro passioni: realizzare mobili. Non oggetti qualsiasi, ma elementi speciali in grado di arricchire e ren-

dere unica la vita di ogni individuo. Forti di questa convinzione, i due soci scelgono di trasformarla in una vera missione, dando vita nel 1982 ad un progetto imprenditoriale basato sulla lavorazione artigianale di uno dei materiali più antichi, pregiati e funzionali: il legno. Così a Cabiato, in provincia di Como, nasce Pacini & Cappellini, che si afferma immediatamente come una delle realtà più solide del panorama italiano dell'arredamento.

La voglia di guardare al futuro, insieme alla volontà di assicurare continuità all'azienda, si realizza negli anni Novanta con l'ingresso dei figli Luigi, Roberto, Moreno e Giorgio. L'idea alla base della nuova guida è mante-

nere ben saldi i valori tradizionali - facendo proprie la creatività, la passione e lo spirito di ricerca dei padri - e introducendo sostanziali novità. Da una produzione prettamente classica, improntata su lavorazioni complesse di ebanisteria e intaglio, la nuova squadra si avvia verso un nuovo progetto industriale, che permetterà un decisivo cambio di scala e il passaggio al design. Per riuscire nell'impresa, Pacini & Cappellini si avvale di tecnologie e processi industriali nuovi e del contributo prezioso di un team di designer che darà vita a prodotti diventati icone, come i porta-tv disegnati da Fabio Rebosio per la collezione Screen o il tavolo Plurimo realizzato da Hanno Giesler.

company profile

The history of Pacini & Cappellini was born between many loves: wood, home, living thought as essential everyday life for the wellness of the people. Starting from those concepts, in the past 30 years, the Company manufactures and sells worldwide furniture and accessories for residential environment and communities: dining tables, chairs and arm-chairs, bookcases and consoles but also cupboards and wall systems with TV-stands, entirely manufactured in Italy.

The adventure of Alberto Pacini and Camillo Cappellini starts when they understand that there is just one way to make their passion coming real: manufacturing furniture. Not

common objects but special elements able to enrich and make unique the life of everyone. Being sure of that, the two partners decided to play this mission establish in 1982 a real business project based on the artisan workmanship of one of the most antique, precious and functional materials we have in nature: wood. So that in Cabiato, in the Como area, has been established Pacini & Cappellini, which became straight away one of the most solid business reality of the Italian furniture field.

The will of looking to the future, together with the will of securing the future of the Company, became real in the nineties when the sons of the founder Luigi, Roberto, Moreno and Giorgio

entered in the business. The idea is to keep firm the traditional values, learning from the fathers the creativity and passion and spirit of research, introducing substantial news. From a classical collection, based on complex inlay typical of the cabinetmaking art, the new team is developing a business plan, oriented to the contemporary design. To be successful in this intent Pacini & Cappellini is using technologies and new industrial processes, as well as the cooperation with a team of designer, developing products becoming icons like TV-stands designed by Fabio Rebosio for the Screen Collection and the Plurimo Table designed by Hanno Giesler.

P&C collezione Made in Italy

P&C

Made in Italy non è solo il consueto modo di dire per confermare le origini e il valore di un oggetto pensato, sviluppato e prodotto interamente in Italia, ma per noi vuole essere una dichiarazione di intenti, un attestato di qualità, tanto da volerlo trasformare nel nome di una collezione. Made in Italy è un progetto/pensiero dai forti valori formali, una raccolta di elementi e complementi dal design contemporaneo, realiz-

zati con cura e con quel gusto della materia e della scelta dei legni squisitamente e tipicamente italiano: il frutto della collaborazione di un gruppo eterogeneo di affermati designer, dalla grande esperienza nel settore. Ogni singolo pezzo è una storia a sé. La collezione è così una serie di piccole “storie” raccontate, dunque, in un luogo - il catalogo - dove sono raccolte idee e progetti con lo stesso

comune denominatore: la caratterizzazione di uno spazio e l’ottimizzazione di un servizio. Made in Italy, in definitiva, è una collezione che racconta di una continua dialettica tra forma e funzione, tra materiali e piacere d’uso, il cui obiettivo è il consolidamento e l’affermazione definitiva del marchio Pacini & Cappellini nel mondo dell’arredamento. Dal 1982.

P&C Made in Italy collection

Made in Italy is not just the usual way to indicate the origin and the value of a designed object, developed and manufactured entirely in Italy, but for us it is a statement of intent, a certificate of quality, so much that we decided to turn this phrase in the name of a collection. Made in Italy is a project/thought by strong formal values, a collection of items and accessories with a

contemporary design, made with care and with the savoir of the material and the choice of woods typically and purely Italian: the result of the collaboration with a mixed group of skilled designers, from the great experience in that field. Each piece has its own story. The collection is as well a series of small “tales” told, thus, in one place - the catalogue - where ideas and projects, having the same

common denominator, have been collected: characterized space and optimized service. Made in Italy, ultimately, is a collection that tells of a continuous dialectic between form and function, materials and pleasure of use, whose aim is the consolidation and definitive statement of the brand Pacini & Cappellini in the furniture world. Since 1982.
