Première collection

Far convivere la tradizione della famiglia Colombo per l'arte e l'artigianato del mobile con le esigenze di una casa moderna non è facile... Ma questo è esattamente l'obiettivo che si è posto la famiglia Colombo quando ha creato Elegance Beyond. La Collezione Première è il primo frutto di questo nuovo modo di "pensare" il mobile e rappresenta una nuova tappa del percorso evolutivo di Colombo Mobili. Il linguaggio classico, da sempre utilizzato in modo rigoroso, si apre a nuove possibilità espressive, coniugandosi con forme inedite: il primo disegno di mobile è stato sviluppato partendo dall'idea di creare un'ossatura portante che dall'alto si dispiegasse fino alla base, definendo al suo interno un volume vuoto, ma disegnato in modo molto plastico e morbido. È nata così la vetrina, dalla quale successivamente ha preso forma tutto il resto.

Tutte le lavorazioni tipiche dell'alta artigianalità di Colombo Mobili trovano spazio in questa Collezione, e formano tra di loro un legame ancor più stretto rispetto al passato. Dalle foglie, intarsiate a mano in essenza di legno chiara con delicate sfumature, si origina il motivo a foglie dell'intaglio che dona una valenza materica alla decorazione in bassorilievo con dorature. La lucidatura a gommalacca rende ancora più vivi gli intarsi e restituisce quel calore che la famiglia Colombo vuole sempre presente nella propria casa. Un segno grafico deciso ed elegante sottolinea ancora di più la personalità risoluta di questa Collezione, che ha costituito la proposta Colombo Mobili per il Salone del Mobile di Milano 2013.

Blending the Colombo family's tradition, focused upon art and furnishing craftsmanship to satisfy the needs of a modern home, is definitely no easy task...

This is however the goal that the Colombo family set itself when they created "Elegance Beyond". The Première Collection is the result of a new way to "conceive" and design a piece of furniture, standing for a new stage of Colombo Mobili's evolution.

The classic design rigorously used thus far opens up now to new expressive possibilities, blending itself in with new forms. The first furniture drawing was designed from the idea of creating a supporting structure: a frame unfolding from top to bottom and defining inside an empty volume but designed with well-defined plastic and smooth lines. This is how the first design was conceived: a showcase from which the rest was to be shaped. This is how the showcase was conceived becoming the start-up of the entire collection. The work styles typical of Colombo Mobili's craftsmanship are present in this collection blending together in a connection even more pronounced than in the past.

From the hand-inlaid leaves of light wood essence with delicate nuances originates the motive of the etching which confers greater value to the gilded bas-relief decoration.

The shellac finishing makes the etchings even brighter, projecting the warmth that the Colombo family feels should always be present in a home. An elegant and clean graphic mark underlines even more the strong personality of this collection, which represented Colombo Mobili's proposal at the Salone del Mobile 2013 of Milan.
