COMPANY PROFILE

FORMITALIA LUXURY GROUP

The growth of the brand by means of single-brand stores.

 The story of Formitalia, which belongs to the brothers David and Gianni Overi, is a story of successful items as well as of winning insights that have been able to become a real system of total living completely MADE IN ITALY that reaches the furniture of prestigious villas in the most exclusive places and also the carrying out of hotels and cultural centers all over the world.

During the latest years the commercial growth of the Formitalia brand and of its licensing brands has followed a strategy for a distribution by means of a networks of boutiques with the brand Formitalia and Tonino Lamborghini placed inside luxury centers in more than 50 countries all over the world.

Today Formitalia Luxury Group is therefore an important international group that includes furniture brands as well as prestigious collections based on the idea of total look for home, office and the most glamour and coolest personal accessories.

The FORMITALIA Group was founded by Graziano Overi in 1968, while the first design collection FORMITALIA created in 1991, that is Boutique Collection, is still a success of the production by Formitalia: it is characterized by prints and details that remind the world of horses, with prints of profiles of Arabian horses made of pure silk from Como, and by works on metals

and leather that Florentine craftsmen carry out. This success has been reached thanks to the deep knowledge of hides, to the selection of the most valuable tannings that are processed with crocodile and ostrich prints in order to highlight the mood that has given the key imprint to the Formitalia brand.

All the productions are made mainly in Tuscan region, in the cities of Firenze, Prato, Pistoia and Pisa, Formitalia stakes on leather and on any possible use of it: from the living area to the big and sophisticated bedrooms, the Formitalia style makes your house be unique, precious, cosmopolite, elegant, warm and cosy.

In 2002 Formitalia acquired the Mirabili Arte d'Abitare brand, the collection of furniture and art multiples, created by Sergio Cammilli in 1980. The collection comprises limited edition works of art by 38 internationally known artists such as Barni, Cammilli, Ceroli, Corneli, Crema, De Poli, Fallani, Grittini, Lodola, Mendini, Natalini, Ontani, Portoghesi, Purini, Ruggiero, Santachiara, Sottsass, Talani, Tolomeo, Urano-Palma and Villani.

In 2005 the brand Tonino Lamborghini merged with Formitalia Luxury Group in order to allow to widen up the range of the collections with fierce pierces of home and office furniture lined with leather with bright and quivering colors, inspired by the world of engines, of course.

The latest original innovations are the designer kitchens Tonino Lamborghini that

are fully lined with leather, from the shelf of the table to the doors of the household appliances, as well as a LIMITED EDITION collection characterized by the use of elements made of carbon and kevlar.

In 2008 the takeover of the brand MIAMI SWING by Renzo Arbore took place and the names of Renzo Arbore, Alida Cappellini and Giovanni Licheri joined up with the brands of Formitalia Luxury Group: the Miami Swing collection, which resulted from Renzo Arbore's passion for the USA vintage of the 50s and 60s and was put in concrete by the designers and the stage designers Alida Cappellini and Giovanni Licheri, broke out with gaudy colors, smooth forms and measured matchings for a furniture with an informal and an anticonformistic taste.

In 2011 the collaboration with the prestigious English motor company Aston Martin started for the exclusive production and marketing of the new furniture collection Aston Martin Interiors. This line distinguishes as an integrated solution of home, office and contract offers complete with accessories and lighting. This collection, which is characterized by a clearly design mark, often futurist and strictly Made in Italy, represents a synthesis between industrial advanced technologies, such as the ones used for components made of carbon and kevlar, and the use of extremely valuable materials such as hides, boiled wool and cashmere.

MIAMISWING by Renzo Arbore

Design: A.Cappellini & G. Licheri

MIAMISWING exploded from an encounter between Renzo Arbore and Alida Cappellini-Giovanni Licheri (theatrical set and furniture designers). ARBORE is the inspiration for a furnishings line that reflects his lifestyle and philosophy: from ALTRA DOMENICA to ALTRA TV to ALTRO DESIGN.

It would be a mistake to say "FURNITURE DESIGNED BY ARBORE," since the message could be misleading, placing Arbore on a par with other VIPs who at the peaks of their careers exploit their names as impromptu designers. We prefer to see ARBORE as the MUSE inspiring the designers CAPPELLINI and LICHERI, whose theatrical design research has blossomed into TROPICAL DECO' effect, with a soupcon of contemporary NEO POP language. All the furniture and furnishings are colorful, scintillating, and comfortable: "dream" furniture, transposing an AMERICA we all DREAM about. Design in which materials like plastics and gleaming leathers mesh with shock aesthetics. The Miamiswing target is a quality product with a strong, individualized image.

For meeting spaces, Miamiswing proposes decorating solutions that like SWING music, transmit a sense of rhythm: OUT WITH THE DOUBLE-BREASTED PINSTRIPE, the tedious and consolidated certainty of tradition, and in with a brisant, dynamic image. The MIAMISWING brand and its contents express the ideas of a stellar figure in Italian culture and entertainment, RENZO ARBORE. Translating the ideas into real objects is entrusted to the talents of Alida Cappellini and Giovanni Licheri. Not only will the collection embody the beguiling effervescence and sparkle of dream furnishings, but will lead us into an ironic, playful SWING-HOUSE, where jazz rhythms and color schemes filter through exquisite harmonies.

The MIAMISWING line is featured on many top Italian TV shows, from QUELLI CHE IL CALCIO to DOMENICA IN and from LA VITA IN DIRETTA to ARTU' and PARLA CON ME. MIAMISWING is also singular upholstered furniture, like the MIAMIBEACH armchair in colored leather or printed eco-leather; the INDIAN KREEK armchair, a tongue-in-cheek revisitation of the "cigarette-quilted" seats typical of '50s American bars; and the exceptionally comfortable and visually appealing SHANGHAI sofa, named for the Italian game of pick-up sticks.

MIRABILI

Arte d'Abitare

Since 2001 the passion for art of brothers David and Gianni Overi, brought Formitalia to takeover MIRABILI Arte d'Abitare, a collection of limited and numbered editions of artists pieces, 38 worldwide famous designers and artists created exclusive furniture pieces. The MIRABILI collection was presented for the first time in Prato in 1986 in the historical Datini Palace sponsored by the Councillorship for Culture of the Council of Prato, by the Province of Florence and by the Tuscan Region. Subsequently it has been shown, upon invitation, at the George Pompidou Centre in Paris, at the Biennial Art Exhibition in Sydney, in the Groninger Museum, at the Italian Academy in London, at "das Goldenezeitung" in Stuttgart, in the Museo Ideale Leonardo da Vinci, in the Denver Art Museum, at the Frankfurter Kunstverein, and at Stiftung Villa Stuck in Munich, Museum of Modern Art Ljubljana, Museum Marino Marini Pistoia and in the Islamic Museum of Doha. The message that Mirabili intends to portray involves well-known artists and designers, selected for their particular gifts and their poetic world, lending an innovative and sensitive contribution to the cultural image of the habitat as "Art of Living". It is a collection which wants to communicate with art, by means of visions and emotions: a quality that justifies its meaningful presence in museums, art galleries and in collections of qualified collectors. New free art is becoming an everyday item, even though it is abstract and poetic; it is changeable in that it is applied without prejudices and circulated without inhibitions through living spaces. It corresponds ever more to the idea and ideals of need. It enters dwellings not merely to be looked at, but also to interact in the life and with the wishes of people; not only to decorate but also to animate; it cannot be confined to a

frame or a stand, and its challenge is to introduce fragments of aesthetic utopia beyond the temple of the Muses, into the home of man. MIRABILI was created in the mid eighties as the synthesis of the experiences and perceptions of Sergio Cammilli, a protagonist of Italian design of the sixties. Interaction with other experts and artists gave life to a theoretical, practical and productive laboratory, as an initial and highly original phenomenon in renewing the Art of Living with a modern feeling for the old.
