Medea

1 9 0 5

Born from the handcraftsmanship of precious materials such as marble, metal and wood, forged from expert artisan hands, the New Collection Lifestyle, reflects that elegant and refined taste, increasingly sought after nowadays, where the creativity of the important russian designers from Studia 54 merges with the naturalness and richness of the raw materials used, crafted manually with attention to every detail, allowing us to transform the “simple” material into unique and inimitable objects, 100% made in Italy. The collection represents a natural blend of innovation and traditions. It is the symbiosis of exquisite materials and premium design, embodied in the whole furniture collection’s elegant form. Each product will become a unique decoration in the modern luxe interior.
