TERZANI
LA LUCE PENSATA

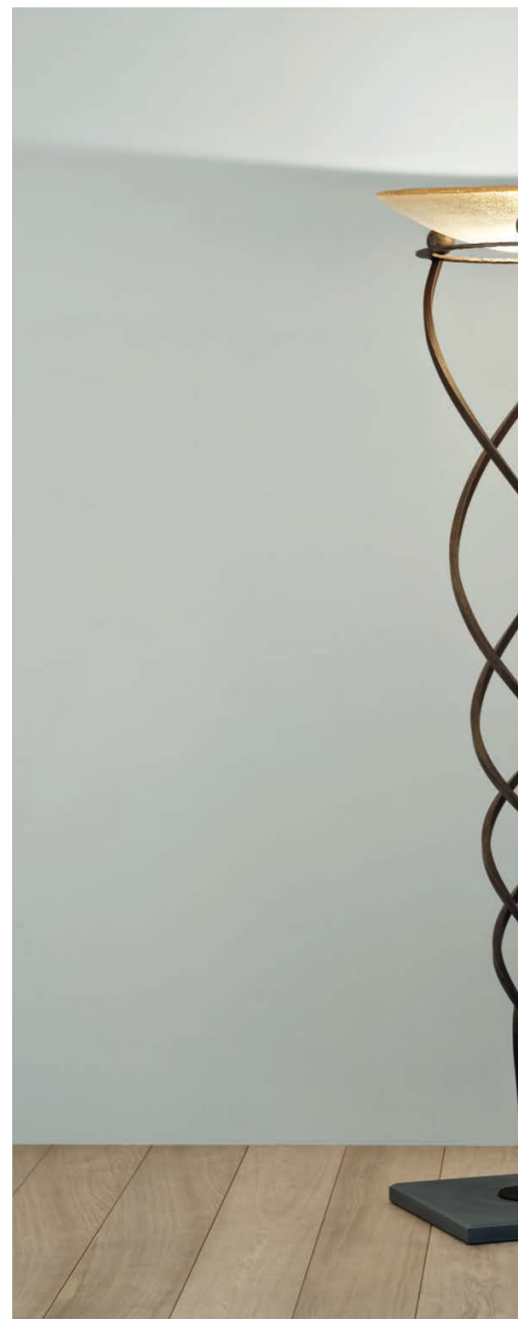

*Drawing from centuries
of Italian craftsmanship,
Terzani's Memory Project
incorporates precious materials
with cutting edge
technology to create unique,
luxurious pieces with roots
in the noble craft traditions
of wrought iron, wood,
and scavo glass.*

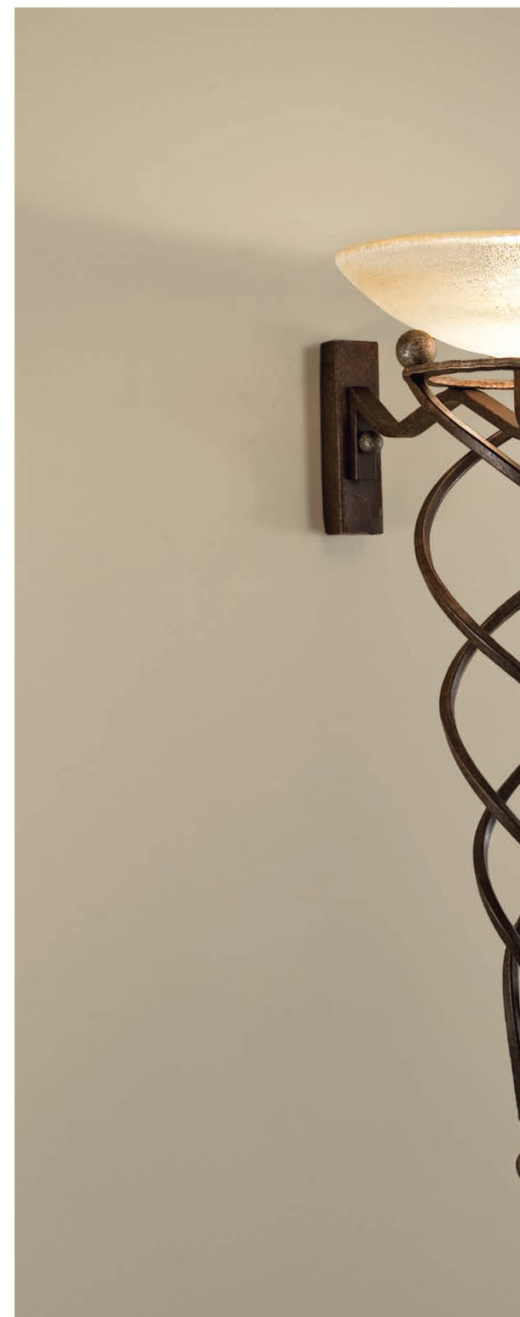

*In 1985, Sergio Terzani
met Jean-Francois Crochet,
an experienced Parisian
designer. Together, they
updated the craft culture,
presenting it from a
contemporary design angle.
Jean François Crochet designed
most of the lighting sculptures
you will find here; no longer
accessories or cold, technical supports,
but dramatic, vibrant designs that
build a unique bridge from
the past to the present.*

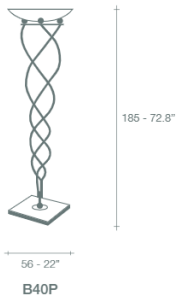

Antinea, Light as *a Gale.*

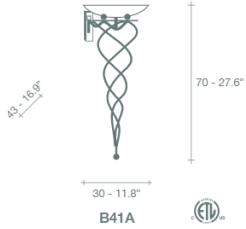

Expanding currents of metal, finished with a waxed rust application, nest a hand-blown crescent of amber glass. The open helix of this classic design provides a sense of lightness and motion, despite its substantial construction. Design Jean-François Crochet.

Phantom, an Elegant *Evening.*

Sometimes, we are rather theatrical. Perfect company for a formal affair, Phantom's masculine, waxed rust collar provides a handsome frame to the hand-blown glass diffuser, finished in gold leaf for an extra touch of luxury. Design Jean-François Crochet.

Virgins, Delicate *Pure.*

The soft, pure light emitted by Virgins' delicate flutes of amethyst or amber scavo glass provides a modern update to the classic materials used. With a hand-forged metal body in hand-waxed rust finish or in precious silver leaf, this clean design seamlessly blends tradition with modern form. Design Jean-François Crochet.
