General terms of sale

INCEPTION

This price list cancels and replaces all previous versions, and is valid from the date of publication. It does not constitute an offer and in any case the sales contract will be signed with the proviso "subject to approval by Febal Casa".

SUBJECT MATTER OF THE SUPPLY

These general terms of sale shall regulate each individual order placed by the Febal Casa retailer as part of the commercial relationship with Colombini S.p.A.. It should be noted that the supply includes only the goods listed in the specific order sent to Febal Casa as part of the commercial relationship described above. Any material, service or variation from that listed in the order shall be considered a supplementary order and as such shall be regulated by all the terms and conditions set out below. The surcharge for the supplementary order shall be calculated separately and must be paid in addition to the price defined for the original order. Febal Casa reserves the right to make changes without notice that it considers will improve the functionality and aesthetics of the product supplied. Any such changes shall have no effect whatsoever on the validity and effectiveness of the contract and commitments undertaken by the purchaser.

LIST PRICES AND PAYMENT TERMS

The prices are indicated in Euros and quoted to the public exclusive of VAT and inclusive of transport carriage by truck for the Italian national territory only. Prices are established separately for each individual order and payment shall be on delivery unless otherwise specifically agreed in writing. If the parties contractually agree on payment of the amount due through financing, of any nature whatsoever, it is expressly agreed that the refusal of such financing – including for reasons beyond the purchaser's control – may not void the contract. In such cases, the purchaser shall be obliged to pay the agreed price upon receiving notification that the goods are ready. If financing is not granted, Febal Casa shall be entitled to withdraw from the contract at its sole discretion and without bearing any consequences, and shall be entitled to retain deposits received as reimbursement for the costs incurred. If deferred payment is agreed between the parties, the non-payment of even one instalment shall result ipso jure in the expiry of the time limit. Similarly, said benefit shall be forfeited by the purchaser should there be an objective worsening of their financial circumstances. In any event, delay in payment shall result in the purchaser's obligation to pay arrears interest at the rate established by Legislative Decree no 231/02. Colombini S.p.A. may suspend delivery of the materials, or demand full or partial payment or the issue of adequate guarantees, should the client fall into arrears on payments due for previous transactions concerning the materials. Colombini S.p.A. may also suspend delivery of the materials if the client fails to make timely payment of the relevant amount due or issue the guarantees demanded by Colombini S.p.A. for those same materials. Only payments made to Colombini S.p.A. shall be considered valid.

DELIVERY TERMS

Delivery shall be considered effected once the goods have been transferred to the forwarder, even if Febal Casa has agreed to install the materials. All delivery terms are to be considered approximate, indicative and non-binding. Febal Casa is released of all liability for delays due to force majeure. In any event, the agreed delivery terms must never be regarded as essential. Therefore, failure to comply with such terms cannot constitute grounds for termination of the contract, but only for compensation for damages. Such compensation, to which the client shall be entitled upon demonstration of having suffered actual, immediate and direct damage exclusively linked to the delay itself, shall be determined by a penalty equal to five Euros per thousand Euros of the value of the supply for each week of delay. The parties hereby agree that said penalty shall remedy any consequences suffered by the client as a result of the delay, including all damages sustained by the client. It is hereby agreed that said penalty shall never exceed ten percent of the net amount of the supply, and the relevant amount – by express agreement – shall be deducted from the last instalments, if this form of payment applies. In cases where there is only a partial delivery delay, concerning only certain elements of the goods covered by the contract such as accessories, appliances, equipment, etc., no compensation shall be granted to the purchaser, however the seller shall be required to fulfil the order as soon as is practically possible. If, for any reason whatsoever, the purchaser is not in the condition to receive the goods specified in the contract within the pre-defined term, the purchaser shall nonetheless be required to pay the seller the amounts due at the pre-defined due dates, in addition to any storage expenses.

SOLVE ET REPETE

It is expressly established that no objection, exception, or action may justify the suspension of payment specified in the contract on the part of the client. The client shall therefore pay the amounts due in the agreed manner and by the agreed deadline, and shall be free to submit any claims at a later stage.

PRODUCT INFORMATION AND UNIFORMITY

Light, steam and other typical aggressive agents in the kitchen, can induce variations in colour and the finish of materials. This makes it difficult to perfectly match items purchased at different times and, although any differences tend to fade over time, the same shall not, under any circumstances, constitute a valid reason for dispute or the return of goods. In particular, differences in colour and grain pattern in granite and marble tops shall not constitute a valid reason for dispute. The materials are made from natural blocks, and as such uniformity cannot be guaranteed for obvious reasons. Any information, description, datum or specification relating to materials contained in the price list or in any advertising or illustrative material by Febal Casa is merely indicative. The depth, width and height of the materials may vary, with reasonable tolerance, just as the specifications concerning the duration and operation of the materials. Colombini S.p.A. reserves the right, before or after the purchase has been concluded, to apply any and all modifications it deems appropriate to the materials, without altering their essential characteristics and overall quality, for aesthetic or functional reasons, as well as to fulfil delivery terms agreed upon with the client. Conformity of the materials to samples or models displayed in display areas, as well as their conformity to any advertising or illustrative material that may have influenced the client's choice of the materials, is subject to reasonable tolerance, as the relevant colours, materials and dimensions may vary. The appliances and the accessories supplied with the materials shall, as far as possible, comply with the standards or models on display in the exhibition spaces, as well as publicity or illustrative material that may have guided the client in the choice of materials. The client henceforth accepts the changes made by manufacturers in such household appliances and accessories, which do not alter the essential characteristics and overall quality offered.

CUSTOM ELEMENTS

Custom materials shall be derived from standard materials, duly modified as required. Febal Casa may apply a surcharge in the form of a quote for customised materials, in addition to the standard product listed in the price list. The client henceforth accepts that this increase is determined by Febal Casa in view of the number and type of interventions on the product and in view of the fact that adaptation is executed on designs by Febal Casa or the client.

WARRANTY

Febal Casa fixtures are covered by a warranty in accordance with European Directive 1999/44/EC and Italian Presidential Decree no. 24 2 February 2002. The following conditions relating to the contractual warranty, are activated automatically from the date of delivery and shall be valid for 24 months. The warranty certificate refers exclusively to the conditions of the standard manufacturer warranty for the consumer, and is issued by Colombini S.p.A. – Strada Ca' Valentino 124 - Falciano (RSM). To claim against the warranty the following must be observed: a) the date of delivery must be confirmed by a document issued by the seller or other supporting evidence (e.g. receipt) stating the name of the seller, the date of delivery of the product, the identity of the same (type and model); b) all cleaning, installation and assembly of the material is carried out in strict compliance with the instructions in the "use and maintenance" manual; c) any work is carried out by Febal Casa store staff and only original spare parts are used. All liability for improper installation, negligence and careless use is hereby declined. The purchaser shall verify the condition of the goods upon delivery and inform the forwarder of any claims. If the goods have suffered damage during transport, rendering them unusable, the purchaser shall refrain from collecting the goods and report the circumstance on the delivery note. By signing the delivery note, the purchaser acknowledges the integrity of the goods supplied. Under the statutory warranty for new products, Febal Casa is obliged to promptly replace products that are defective in terms of poor quality of materials or manufacturing faults, for 1 (one) year for sales to economic operators (retailers) and 2 (two) years for sales to private individuals from the time of delivery of the goods. Colombini S.p.A. guarantees goods for two years after delivery, agreeing to replace as soon as possible those materials which, due to poor quality of materials or faults in workmanship, are considered defective. If, when the defects are reported, the product is already in the possession of the retailer's end customer, the retailer shall collaborate with Febal Casa for the disassembly and replacement of the defective product, at its own expense and using its own resources. Any form of guarantee by the seller in relation to the quality and operation of equipment, appliances and accessories inserted in the fixtures, is expressly excluded. The purchaser should directly contact the customer assistance service of the manufacturing companies with respect to these appliances. Claims for faults and flaws in materials must be made in writing to Febal Casa within 8 (eight) days of the receipt of the goods or the discovery of the flaw. The above-mentioned warranty, when correctly exercised, shall only cover repairs or replacement – in the shortest possible time – of any faulty/defective parts of the goods supplied. Therefore, any form whatsoever of compensation for direct or indirect damages owing to the purchaser is expressly excluded, including with regard to latent defects. Similarly, the contract may not be terminated due to defects, non-conformity, poor quality or other reasons, nor may price reductions be demanded. The above warranty shall lapse if the client, without authorisation from Febal Casa, performs work on the goods supplied directly or through its appointed personnel. Any warranty relating to sinks, taps, ovens, hobs, hoods, refrigerators and other household appliances falls under the direct and exclusive responsibility of the manufacturer, pursuant to its warranty certificates; if there are faults in these goods, the client must directly contact the assistance centres of the respective manufacturers that will offer all reasonable assistance to this end. Unless expressly stated in the law and notwithstanding gross negligence or intent, it shall not be held liable for damages to third parties caused by the materials. The client agrees, however, to inform Febal Casa promptly and in a comprehensive manner, of third-party requests for damages caused by the materials.

RETENTION OF TITLE

It is expressly agreed that the goods supplied shall remain the full and exclusive property of Colombini S.p.A. until payment in full of the agreed price, including interest and expenses. Colombini S.p.A. reserves the right to inspect the goods at any time, directly or through its appointed personnel, while the purchaser – due to the agreed retention of title – shall always act as the bailee of the goods. In the event that the goods supplied are subjected to lien, attachment, seizure or any other constraint by third parties for established or to be established claims, the purchaser is obliged to notify the third parties in question of the existence of said lien agreement, notifying the condition to the bailiff and immediately alerting Colombini S.p.A. via registered post, so as to allow the company to take action, at the purchaser's expense. Failing the above, the purchaser shall be considered fully liable to the seller for any consequences, and shall be obliged to provide compensation for any damages suffered by the latter. It is expressly agreed that in the event of termination of this contract due to default by the purchaser, Colombini S.p.A. as well as retaining the goods pursuant to retention of title, shall be entitled to withhold amounts collected from the purchaser as compensation. To this end, the purchaser hereby waives the right to demand a reduction of the agreed indemnity. Colombini S.p.A. reserves the right to include in its invoices for the supply of the goods governed by this order an indication of the existence of a title retention clause, in order to render the clause itself enforceable on the purchaser's creditors, where applicable.

RETURNED GOODS/TRANSPORT

Return of goods must be previously authorised by Febal Casa by way of a collection note. Authorisation to return goods shall not entail acknowledgement of the damages, if any, or of any complaints lodged by the client. The goods must be returned to Febal Casa intact, packaged and accompanied by a regular transport document, within 90 days from the issuance of the notice of return. Ownership of the returned materials shall be transferred to Colombini S.p.A. upon delivery. In any event, custom-size materials and furniture, customised items and household appliances may not be returned, barring specific agreements to the contrary. Colombini S.p.A. reserves the right to credit the amount only after inspection of the returned goods, verification of the actual manufacturing defects of the returned product subject to complaint and its actual integrity. If the fault falls within the warranty terms the goods shall be credited at the same value shown on the invoice at the time of purchase, less the costs of transport and packaging and any parts damaged by the client. If transport arrangements have been established, Colombini S.p.A. shall entrust shipping of the materials to its preferred forwarders, and shall notify the client of the shipment date and any other necessary details for taking delivery of the goods. The purchaser shall bear the risks to which the goods are exposed while in transit, even if shipped carriage paid to the destination. Any discrepancies with respect to the packing slip or damages incurred during transport shall be reported when the goods are unloaded, in the form of a note on the packing slip. The client will inspect the materials upon delivery and shall notify Febal Casa in writing of any disputes with respect to the packaging, quantity, number or characteristics of materials under penalty of forfeiture, within 2 (two) days from delivery, and note these disputes in the document accompanying the materials.

PENALTY

Should the purchaser withdraw from the contract prior to its fulfilment or fail to fulfil in any way the agreements contained therein, and, in any event, in all cases of annulment or termination of the contract for reasons attributable to the purchaser, the latter shall be required to pay Colombini S.p.A. a pre-defined penalty amounting to forty percent of the agreed value of the supply. With respect to this penalty, the purchaser hereby waives the right to raise any and all objections, including objections relating to the power to take legal action to reduce the amount thereof, since the parties have taken account of the actual damages suffered by Colombini S.p.A. when determining the amount of the penalty. Colombini S.p.A. is nonetheless entitled to request compensation from the purchaser for any greater damages.

PRIVACY POLICY PURSUANT TO LEG. DECREE 196/03

In accordance with privacy legislation and in relation to the purchaser's personal data that will be acquired by Colombini S.p.A. by virtue of their commercial relationships with the same, it is noted that: a) data will be processed for purposes related to the fulfilment of the precepts of the law connected with civil, fiscal and accounting obligations; the administrative management of the relationship; the fulfilment of contractual obligations; after sales service; verification of customer satisfaction; market analysis, statistics and marketing; b) such data may be communicated to financial intermediaries and professional offices that carry out administrative tasks on behalf of Colombini S.p.A., to companies that conduct customer satisfaction surveys, to insurance companies with whom extensions of warranty on the product sold are stipulated and to companies engaged in credit recovery; c) handling of the purchaser's data shall cease upon written request to the company's data controller.

COMPETENT COURT AND APPLICABLE LAW

For every and any disputes that may arise concerning the interpretation or execution of this contract, including monitory procedures to obtain payment of the price, precautionary and preventive action, the parties expressly agree to the exclusive and absolute jurisdiction of the Court of the Republic of San Marino.

NOTE

The printed version of the price list is a mere representation of the actual items, therefore there may be slight differences in the materials and colours compared to the finished product.

Technical characteristics

CERTIFIED QUALITY

Febal Casa always adopts its own quality system aimed at the improvement of the product, the production process and the service to the consumer. To protect and offer a greater guarantee to the customer, the Febal Casa quality system has been certified according to UNI EN ISO 9001 by an independent and internationally accredited body.

FRAME

Fixture frames are made of melamine faced particle-board with melamine resins resistant against abrasion and easy to clean, compliant with European E1 regulations on formaldehyde emissions. Bases, wall units and cupboards are equipped with adjustable shelves edged on four sides and back panels in matching colours. The side panels of all elements have lateral non-pass-through holes.

BASE UNITS

Base units have snap-in adjustable feet. Sink bases have an embossed aluminium bottom panel.

WALL UNITS

Wall units feature pre-installed hooks allowing perfect regulation in both directions from the inside. A special modular hanger bar in zinc-coated metal is supplied standard to facilitate the installation of wall units.

FRIDGE UNITS

The unit base is made from strong and non-alterable resin, featuring holes to allow fridge motor ventilation.

PLUMBING SPACE

All bases and cabinets D 57 feature a 4.8 cm space at the back of the frame, guaranteeing correct air circulation and allowing the passage of any piping for water, electricity or gas.

DRAINING UNITS

The internal cutlery storage structure in the draining unit is made from stainless steel or chromium protected metal. The drip tray is in transparent methacrylate.

DRAWERS AND DEEP DRAWERS

The pull-out drawers and deep drawers with “Tandembox” full extraction guides and soft-closing system are made from grey lacquered metal and equipped with roller runners that guarantee complete silence and sturdiness. They have a capacity of 30 kg (65 kg in the drawers and deep drawers measuring 120 cm) and have been tested for 80,000 openings. They are equipped with a stopper to prevent accidental detachment and shut automatically in the last part of the closing action. The drawers and bases with drawers and deep drawer, feature a plastic cutlery tray.

BASKETS

Pull-out or sliding baskets in the various sizes and for different uses are made from chrome wire with a soft-closing system.

HINGES

The Soft gradual closing hinges do not change the design of the fixture and guarantee gentle and silent door closure. Tested for 80,000 openings, it features galvanic protection and includes a closing spring. It allows three-dimensional door adjustment. The hinges in the draining unit and corner wall unit allow the door to be opened at 165°.

WORKTOPS

The worktops are made from waterproof particle-board and finished with scratch-proof postformed laminates. They have a bottom anti-drip sealant profile that makes them impermeable to liquids and steam. Alternatively, there is a wide range of worktops in marble, granite, marble-resin granulates, quartz, ceramic chips, stainless steel and acrylic resins.

UPSTANDS

Upstands for the laminated worktops are made from drawn aluminium covered with a water and heat resistant coating, to match the worktop finish.

PLINTHS

The plinths are made from PVC covered with a protective film, in anodised aluminium, lacquered or veneered M.D.F. The attachment system for the adjustable feet permits the rapid removal of the plinth to clean the floor under the fixture.

SHELVES

Available in various sizes and lengths. They are made from veneered or laminate particle-board in the same finish as the door or frame, and can be used in many contexts either singularly, combined or one on top of the other.

APPLIANCES

The company offers an extensive range of household appliances for built-in installation, selected from the very best brands. The sinks are made from 18/10 stainless steel, acrylic or ceramic. They have a drainage pipe for the dishwasher attachment. The fridges and freezers are non-CFC in accordance with European anti-pollution regulations.

ACCESSORIES

The Febal Casa range also includes a broad selection of accessories to complete and personalise the most critical spaces, allowing practical and functional internal and external solutions.

FURNITURE DIRECTION

Unless otherwise specified, the side of the fitting, right or left, is determined by the position of the hinge with respect to the door. The sinks are considered right or left with reference to the position of the basins.

MEASUREMENTS

Unless otherwise specified, all of the measurements in the price list are in centimetres (cm).

COLOURS AND IMAGES

Colours and images in this price list are indicative only and are not to be considered as a reference or source of objection.

Cleaning and maintenance

NOTE

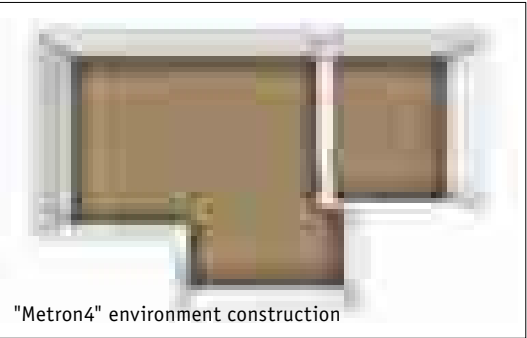

The box containing the hardware for each Febal Casa kitchen contains: "Technical and maintenance" manual, which contains the ID card, and presents cleaning tips for each material and suggestions for minor maintenance and adjustment of the various parts that make up the kitchen.

For correct sliding of moving parts (drawers, door hinges, pull-out storage baskets, etc.) regularly clean the dust off the runners and hinges using a soft and dry cloth. Use standard commercial lubricants to oil parts if required. Do not use abrasive materials for cleaning purposes.

Use a soft cloth dampened with warm water to clean handles and other lacquered or oxidised metallic accessories. The use of abrasive sponges and/or aggressive detergents containing alcohol or aggressive chemical agents may cause the deterioration of exposed surfaces over time, resulting in the detachment of the veneer or the oxidation of the metal. Prolonged presence of chemical agents on surfaces such as tomato juice, lemon juice, vinegar, salt, water and detergents may generate a chemical reaction that could ruin the surface of items.

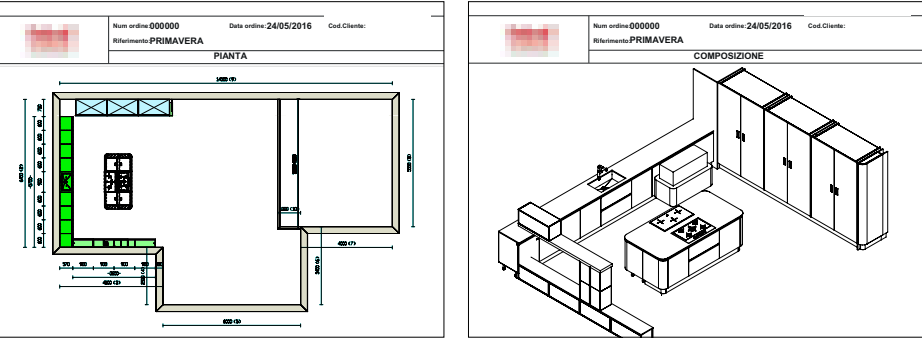

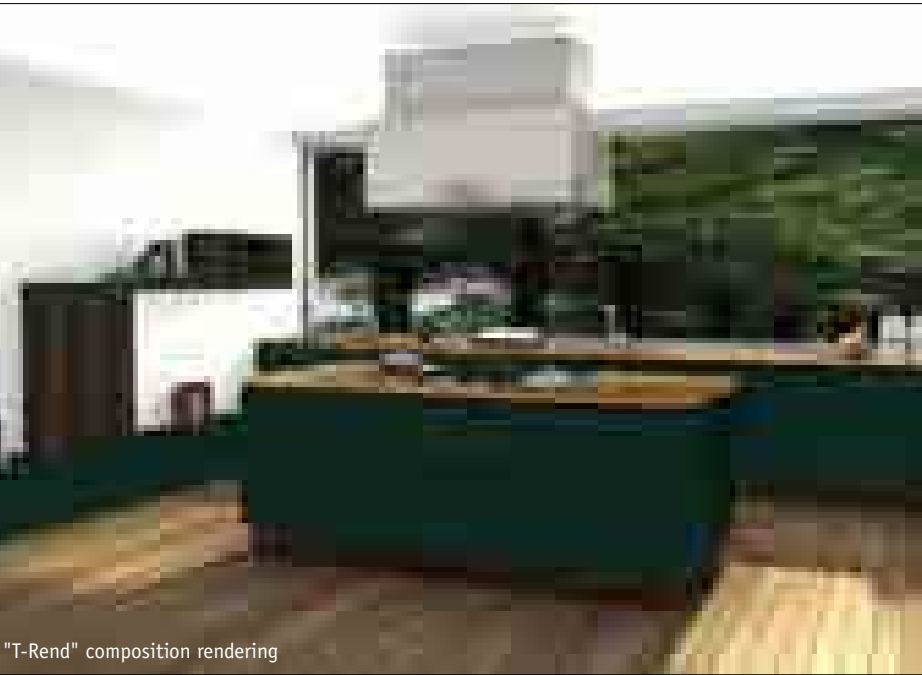

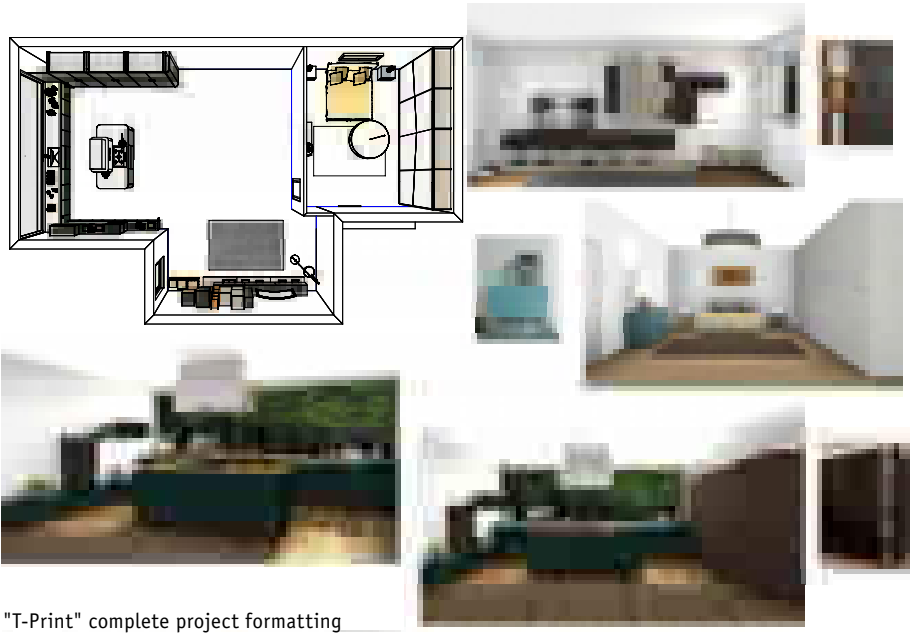

Compilation of orders with "TGE0 - METRON4 - MULTISTANZA"

- The Colombini Software System makes it possible to:
- Generate quotes and clear and accurate designs
 - Design a real-life setting of the composition
 - Reduce the amount of time require to prepare and send orders to Colombini S.p.A.
 - Use the same program used in Colombini S.p.A.
 - Send orders via the Internet, guaranteeing their traceability
 - Have electronic price lists updated in real time
 - Organise projects in a flexible and personalise manner

Electric, water and gas attachment

TECHNICAL INSTRUCTIONS

To ensure the correct installation of the electrical system you should:

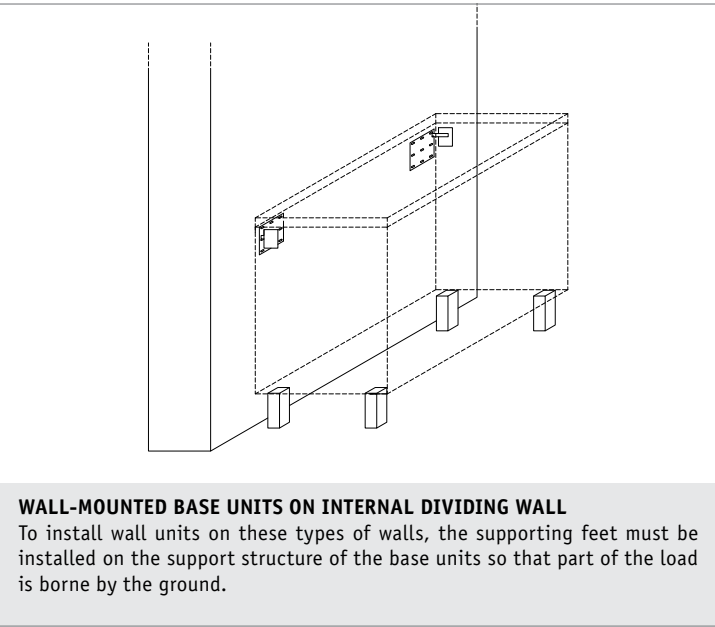

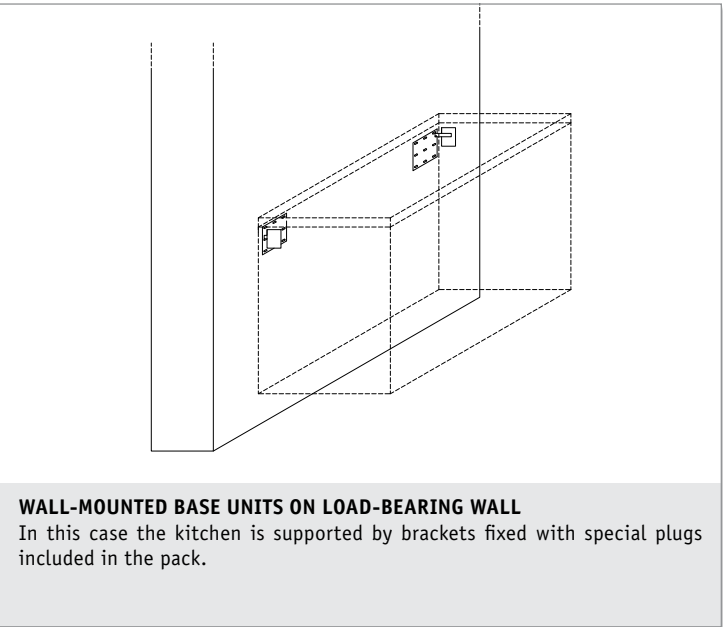

- Position the sockets at a height of no less than 30 cm.
- Insert a differential thermal magnetic switch (cut-out switch) upstream of the system, to intervene in the case of a current leakage from electrical equipment.
- Connect each appliance over 1000 Watts of power to a double-pole switch.
- Use the electrical safety socket type UNEL P30 with side and central earth of no less than 16 Amps flow to every appliance.
- Use all in combination with an efficient drainage system on the ground.

With respect to the gas system, the stopcock should be readily accessible; a suitable position may be inside the sink base unit. Household gas installations regulations state that combustion products must always be discharged outside the home via aspiration type hoods.

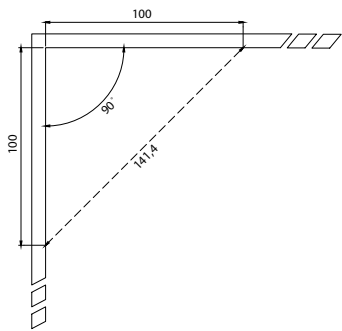

Safety

The wall-mounted kitchen does not obstruct cleaning under the fixtures in any way. Installation varies depending on the type of masonry, which must be determined by a specialised professional.

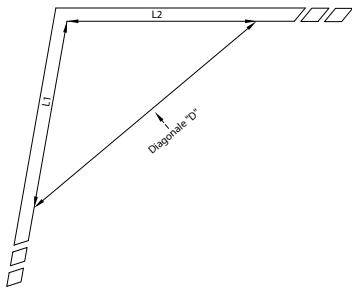

Corner base units and non-square wall units

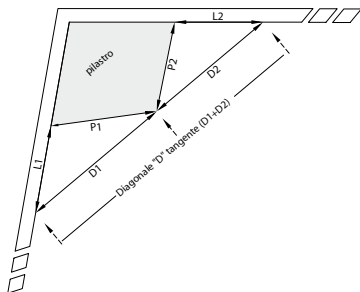

The size of the base and wall units will increase or decrease depending on the size of the angle (greater or less than 90°), depending on the type of construction. Table to be used with corner base units with depth 57 cm and wall units with depth 32.8 cm.

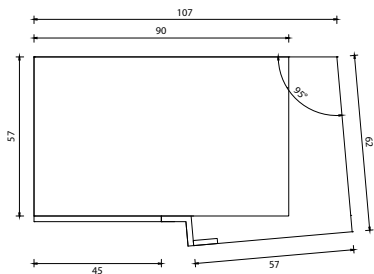

Check angle degree
Make sure that the diagonal equals that in the drawing to the side. Refer to the table in the following page for sides different to 100 cm.

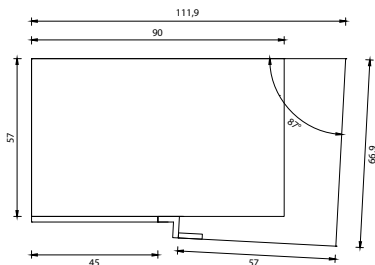

How to calculate non-square angles
1) Draw a diagonal line on the corner of a known length, mark the points of support
2) Note the distance L1, L2, D
3) Use one of the following options:
a) Enter the data in the relevant section in the "Metron" programme chart
b) Use the specific program on the Febal Casa portal for calculation of angles.

How to calculate non-square with a column in the corner
(use whenever there is an angle as detailed below)
1) Draw a diagonal line D tangential to the column corner
2) Note the distances for sides L1, P1, D1 - L2, P2, D2
3) Use one of the following options:
a) Enter the data in the relevant section in the "Metron" programme chart
b) Use the specific program on the Febal Casa portal for calculation of angles.

Corner base unit 110 x 65 with 95° angle

Corner base unit 110 x 65 with 87° angle
N.B. With non-square angles less than 90° only elements with side-hinged doors can be placed side by side.

Angles GREATER than 90°

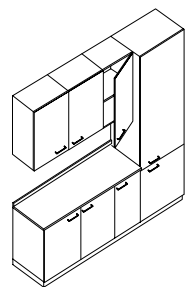

Corner	Diagonal of angle	Element reduction on both sides
90°	141,4 cm	0,0 cm
91°	142,7 cm	0,6 cm
92°	143,9 cm	1,2 cm
93°	145,1 cm	1,8 cm
94°	146,3 cm	2,4 cm
95°	147,5 cm	3,0 cm
96°	148,6 cm	3,5 cm
97°	149,8 cm	4,1 cm
98°	150,9 cm	4,6 cm
99°	152,1 cm	5,2 cm
100°	153,2 cm	5,7 cm
101°	154,3 cm	6,2 cm
102°	155,4 cm	6,7 cm
103°	156,5 cm	7,2 cm
104°	157,6 cm	7,7 cm
105°	158,7 cm	8,2 cm

Angles LESS than 90°

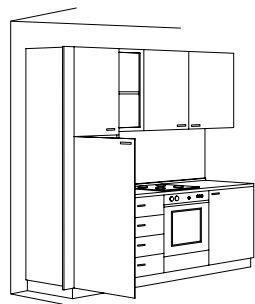

Corner	Diagonal of angle	Element increase on both sides
90°	141,4 cm	0,0 cm ★
89°	140,2 cm	0,6 cm ★

(★) Dimensions with respect to corner base units 110 x 65 cm.

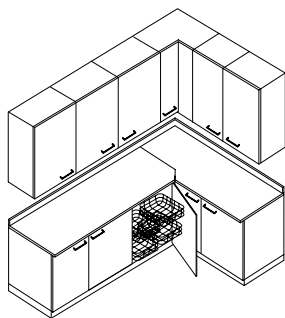

Construction restrictions

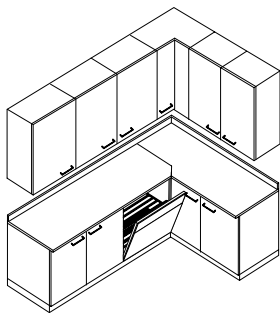

Wall units 15-25-30-40-45 next to tall unit
In Rhs or Lhs 15-25-30-40-45 wall units with handle, the door opens partially. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

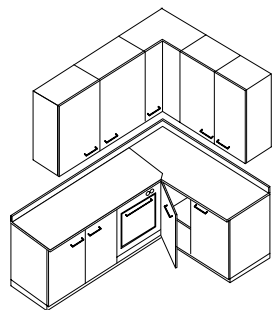

Tall unit against a wall
If a tall unit with fridge is positioned against a wall, a space of 3 cm must be left (which can be filled with a false tall unit) to allow the total extraction of the drawers in the fridge, and the complete opening of the door. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

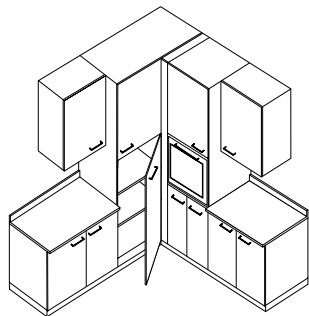

Corner base unit 60x105 with pull-out basket
The basket cannot be extracted. Use a corner base unit 65x110 with pull-out basket combined with a corner wall unit 65x65. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

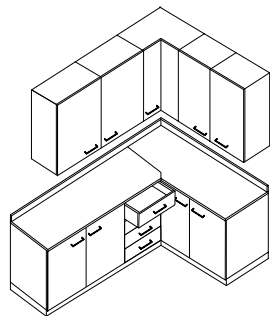

Corner base unit 60x90-100-105-120 with dishwasher to the side
The dishwasher door opens only partially. Use a corner base unit 65x95-105-110-125 combined with a corner wall unit 65x65. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

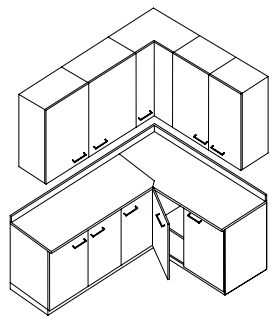

Corner base unit 60 x 90-100-105-120 with oven to the side with protruding handle
The corner base unit door opens partially. Use oven with non-protruding handle or corner base unit 65x95-105-110-125 in combination with corner wall unit 65x65.

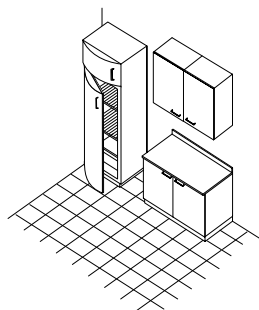

Corner tall unit with oven unit to the side
Install a false tall unit of 5 cm.

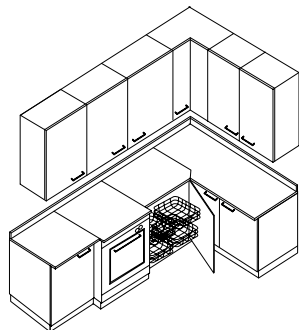

Corner base unit 60x90-100-105-120 with a drawer or pull-out deep drawer unit to the side
The pull-out element opens only partially. Use a corner base unit 65x95-105-110-125 combined with a corner wall unit 65x65. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

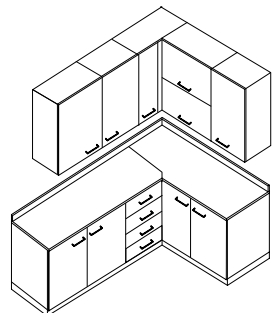

Corner base unit 60x90-100-105-120
The corner base unit door opens partially. Use a corner base unit 65x95-105-110-125 combined with a corner wall unit 65x65. Excluding models: Criteria, City, Primavera, Volumbia, Charme 37°, Class Line.

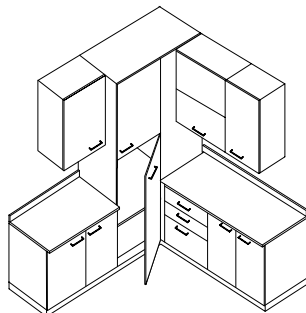

Refrigerator convex or careened adjacent to a wall
The fridge door does not open. Position the fridge at a minimum distance of 7 cm from the adjacent wall.

Corner base unit 60x105-65x110 with pull-out baskets next to protruding base units
The basket cannot move sideways. Avoid use together.

Corner base unit 65x35 with lift-up wall unit to the side
The lift-up element does not open, install a false wall unit.

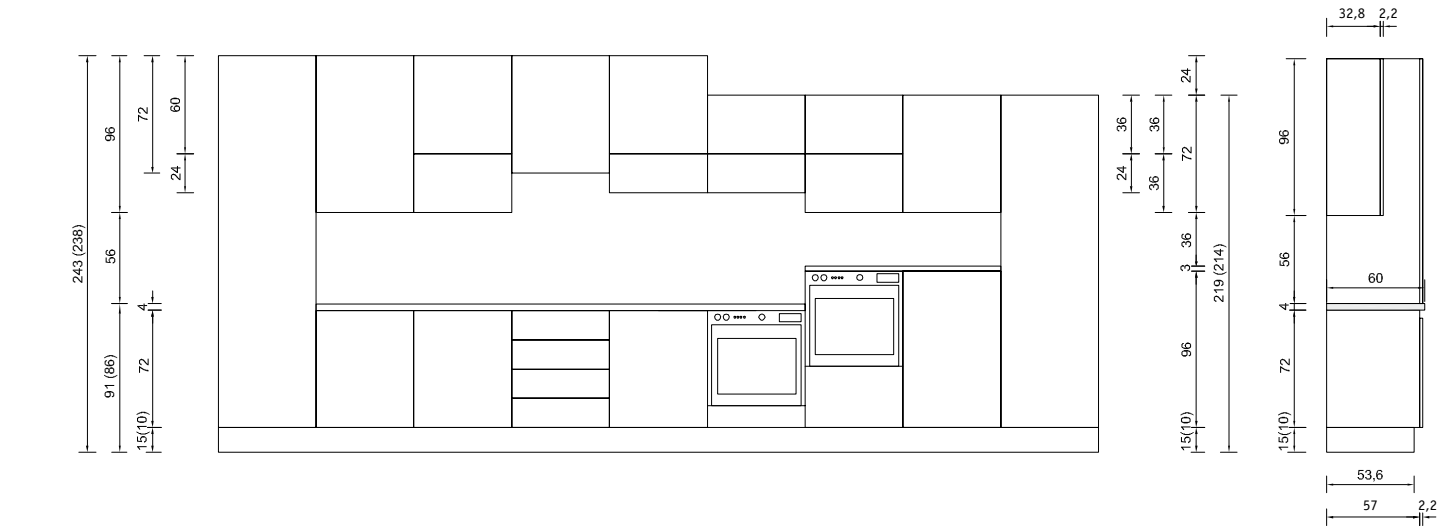

Corner tall unit with a drawer unit or pull-out basket unit or a lift-up wall unit to the side.
Install a false unit of 5 cm.

Technical characteristics

- ▶ **Melamine faced door**
Melamine faced with ABS edging on 4 sides in matching colour. Available in: 3 colours in "larice" finish and 1 in "jungle" finish Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Glossy monolacquered door**
Door in monolacquered MDF on one side with 4 glossy edges. Available in 27 colours. Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Matt lacquered door.**
Door in matt lacquered MDF. Available in 27 colours. Doors for base units or tall units with incorporated handle.
- ▶ **Glossy lacquered door**
Door in glossy lacquered MDF. Available in 27 colours. Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Glass unit**
Door with aluminium frame and etched or lacquered glass in 7 colours.
- ▶ **Structure**
Melamine faced in 2 colours.
- ▶ **Plinth**
In PVC Alluminio lucido, Alluminio satinato, Alluminio dogato satinato, Alluminio bianco, Alluminio antracite, Alluminio bronzo or Alluminio lucido. H 15 or 10 cm.
- ▶ **Delivery times**
See "Production times table" in the General Information section.

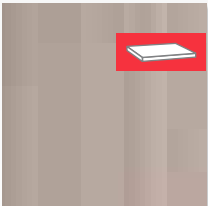

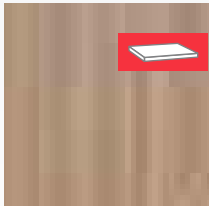

Doors, deep drawers, drawers

Melamine faced door with ABS edging on 4 sides in matching colour.

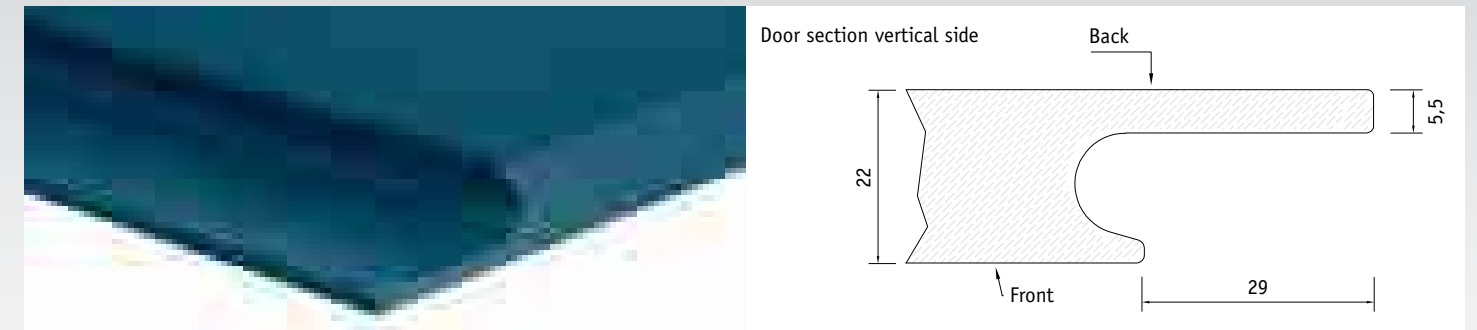

► melamine faced

SYSTEM22 GROOVE PROGRAMME Class Line

Characteristics of GROOVE PROGRAMME

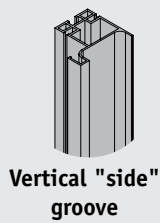

Horizontal groove for bases

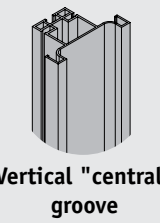

Intermediate horizontal groove for bases with drawers and deep drawers

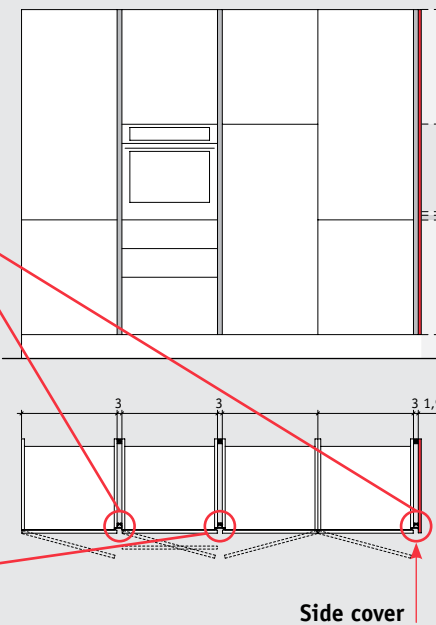

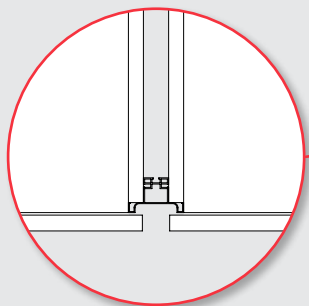

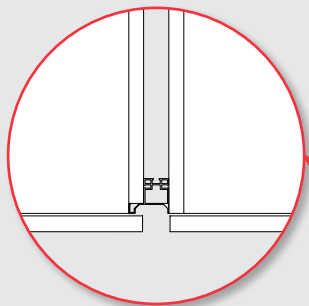

Vertical groove for tall unit with groove

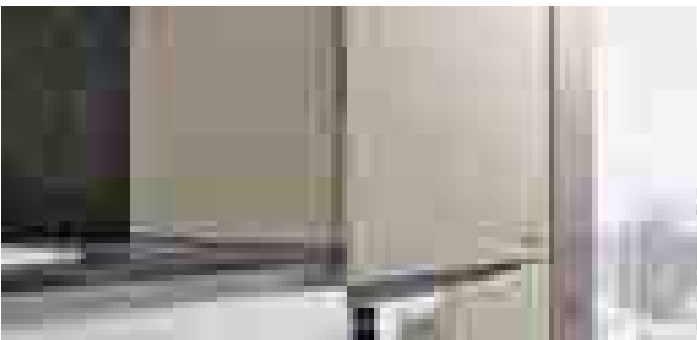

Vertical "side" groove

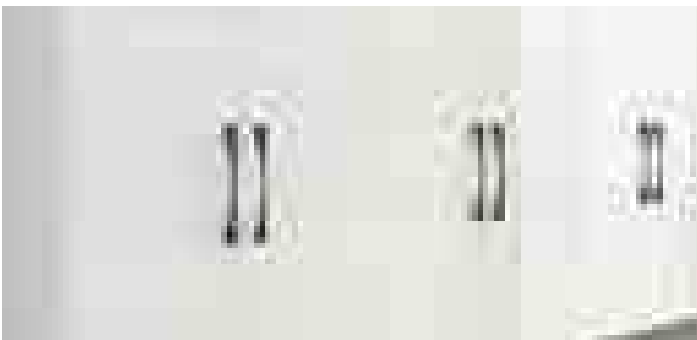

Vertical "central" groove

Side cover

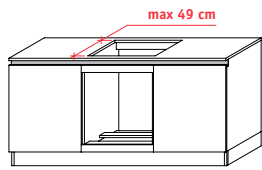

Integrated DOOR BACK (+ push-pull) for single tall unit door

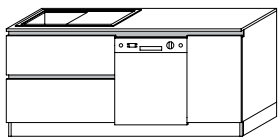

Handle for tall unit without groove

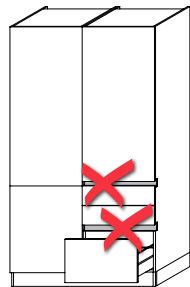

Instructions for the design of kitchens with groove

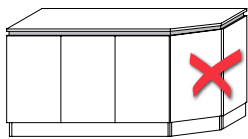

The use of sinks and/or hobs with installation depth greater than 49 cm may interfere with the groove area.

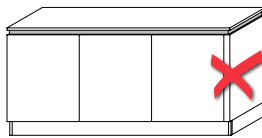

The presence of a horizontal through-groove prevents the correct installation of dishwashers (or under-counter appliances) with exposed front.

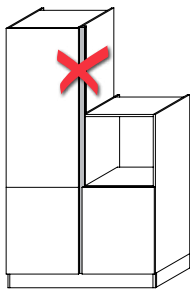

There are no horizontal grooves on tall units.

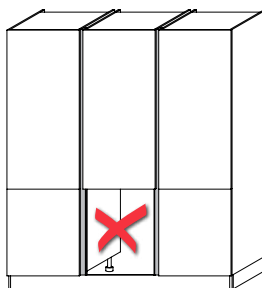

There are no end elements, slanted or curved, with groove.

There are no side closure elements with groove. The composition can be "closed" with side panels in the door finish or sides in the same finish as the counter top.

Vertical grooves cannot be used with tall units of different heights.

Vertical grooves cannot be used if there is a space designed for installing under-counter appliances (dishwashers, washing machines, etc.).

Modules or openings not covered in the GROOVE PROGRAMME should be assessed and managed by the technical department.

Base units

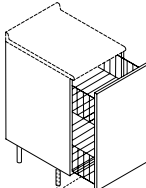

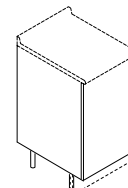

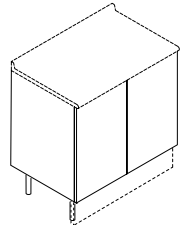

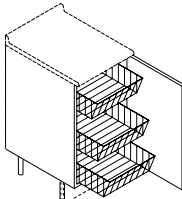

Without top and plinth. Groove not included.

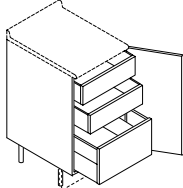

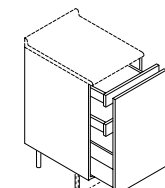

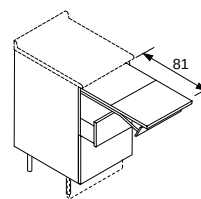

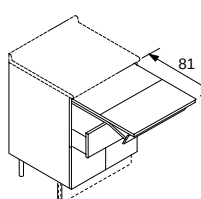

H 75.8 cm - D 57 cm

Without top, plinth and waste bin. Groove not included.

H 75.8 cm - D 57 cm

[illegible]

Without top, plinth and waste bin. Groove not included.

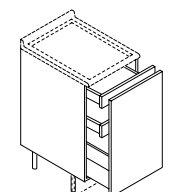

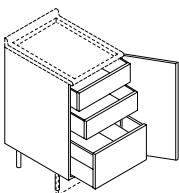

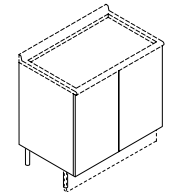

This diagram shows an exploded view of a cabinet corner joint. It illustrates how a corner bracket (part 1) is designed to fit into the corner of a cabinet frame made of two panels (part 2). The bracket has a T-shaped profile that fits into the corner of the panels. The exploded view shows the bracket being positioned to be inserted into the corner of the assembled cabinet.

Without top and plinth. Groove not included.

10. *Journal of the American Medical Association*, 2000; 284: 2689-2695.

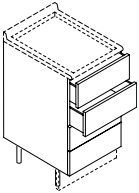

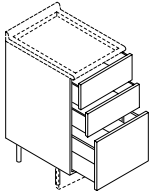

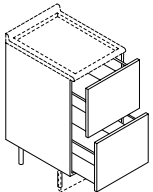

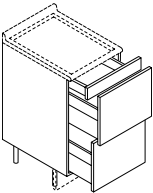

A line drawing of a square table with a removable top. The top is shown being lifted off the base, indicated by dashed lines. The base has four legs.

When placing the order, always specify if the finish is on 2 sides or 1 side. Unless otherwise indicated, the panel will be placed in the order with a finish on 2 sides.

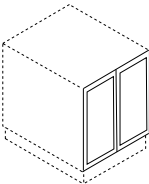

A 3D diagram of a rectangular prism. A rectangular plane is shown intersecting the prism, creating a cross-section. The plane is parallel to one of the prism's faces. The intersection creates a new rectangular face on the prism's surface.

When placing the order, always specify if the finish is on 2 sides or 1 side. Unless otherwise indicated, the panel will be placed in the order with a finish on 2 sides.

Finishing doors

Without handles.

Without plinth and handles.

A line drawing of a cabinet with its door open to the right. Inside, there is a shelf and a drawer at the bottom. The drawer is shown in a slightly open position, with dashed lines indicating its internal structure.

Without plinth and handles.

A line drawing of a cabinet with a single door and a single drawer. The door is on the left, and the drawer is on the right. The cabinet has four legs.

Without plinth and handles.

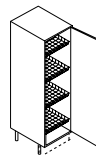

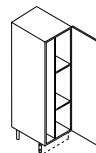

Without plinth and handles.

A perspective view of the front panel being pulled away from the main unit, revealing the internal components.

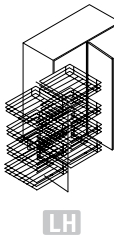

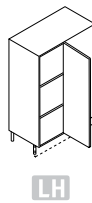

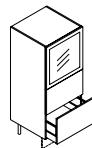

Without plinth and handles.

A line drawing of a cabinet with its front panel being removed. The panel is shown detached from the main body, which has two internal shelves. Dashed lines indicate the removal of the panel from the bottom and top edges.

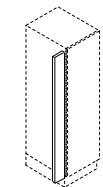

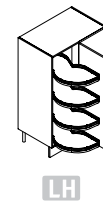

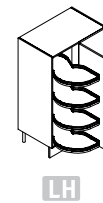

Without plinth and handles.

A line drawing of a cabinet with its two doors open. The interior shows two shelves and two drawers at the bottom. The doors have diagonal lines on them, possibly representing glass or a specific material texture.

Without plinth and handles.

10. *Journal of the American Medical Association*, 2000; 283: 2686-2692.

Without plinth and handles.

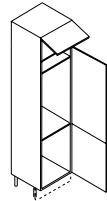

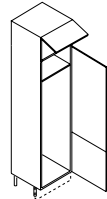

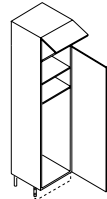

Tall unit for single door 220l fridge.
2 doors, 2 adjustable shelves, 1 partition, moulded PVC base, housing space H. 122.5 cm.

A technical line drawing of a tall, narrow refrigerator unit. It features a single door on the right side, which is shown slightly open. Inside the unit, there are two adjustable shelves and a horizontal partition. The unit sits on a small base. Dimensions are indicated with dashed lines and arrows: 'H' for height, 'W' for width, and 'D' for depth.

Without plinth and handles.

A line drawing of a tall, narrow cabinet with its door open to the right. The interior has two shelves. A dashed line indicates the door is being swung open. The cabinet has a small leg on the left side.

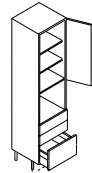

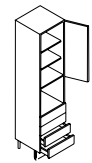

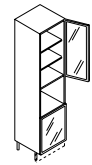

Without plinth and handles.

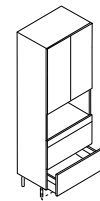

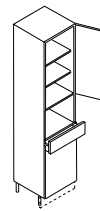

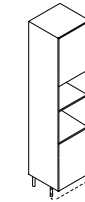

Without plinth and handles.

A line drawing of a tall, narrow cabinet. The cabinet has a single door on the right side, which is shown open, revealing the interior. Inside, there are three horizontal shelves and a drawer at the bottom. The cabinet is supported by four small legs. The drawing is a simple line sketch with no shading.

Without plinth and handles.

A line drawing of the cabinet's interior. It shows four horizontal shelves and two drawers at the bottom. A line points from the text '4 shelves' to the top shelf.

Without plinth and handles.

Without plinth and handles.

A diagram of a tall, narrow cabinet with its door open. The interior features two shelves and two drawers. The shelves are filled with a grid of small, dark rectangular objects, likely representing components or modules. The drawers are empty. The cabinet has a simple, functional design with a single door and a handle.

Without plinth and handles. Structure in melamine faced Bianco and Grigio.

An isometric line drawing of a cabinet. It features a glass-paned door on the left and a solid door on the right. The cabinet has a flat top and a base. Dashed lines indicate the internal structure and the depth of the unit.

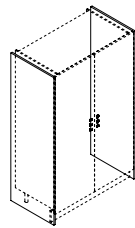

Central finishing side panel

Colour same as door, shaped for plinth.
H. 218.5 cm - D. 73.9 cm
To be used in compositions with feet H. 15 cm.
Not available in finishes: Frassino bianco, Frassino grigio,
Frassino tabacco, lacquered Metal skin.

Side finishing panel

Colour same as door.
H. 218.5 cm - D. 73.9 cm
To be used in compositions with feet H. 15 cm.
Not available in finishes: Frassino bianco, Frassino grigio,
Frassino tabacco, lacquered Metal skin.

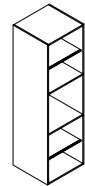

Without plinth and handles. Structure in melamine faced Bianco and Grigio.

Without plinth and handles. Structure and front panels in melamine faced Bianco and Grigio.

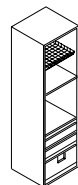

A line drawing of a rectangular box with its lid open. The lid is hinged on the right side and is shown in an open position, revealing the interior. The interior of the box is divided into two main sections: a larger upper section and a smaller lower section. The lower section is further divided into two smaller compartments by a vertical partition. The box is shown from a perspective view, highlighting its three-dimensional structure.

Internal tall unit for oven

2 shelves with aluminium profile, housing space H. 59 cm.

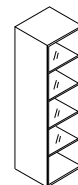

Without plinth and handles. Structure and front panels in melamine faced Bianco and Grigio.

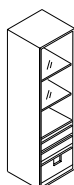

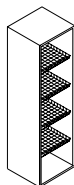

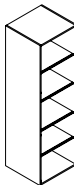

Without plinth and handles. Structure and front panels in melamine faced Bianco and Grigio.

Technical characteristics

► Melamine faced door

Melamine faced with ABS edging on 4 sides in matching colour. Available in 2 colours in an open pore finish, 3 in a "larice" finish, 3 in a "chanel" finish and 1 in a "jungle" finish.

N.B. Door sizes in this model may vary.

► Fenix laminate door

Fenix laminate door with ABS edging on 4 sides in matching colour. Available in 8 colours in a matt finish.

N.B. Door sizes in this model may vary.

► Veneered door

Veneered door in rovere in 3 colours in an open pore finish, plus a version in heat treated or open pore rovere.

N.B. Door sizes in this model may vary.

► Matt lacquered door.

Door in matt lacquered MDF. Available in 27 colours.

N.B. Door sizes in this model may vary.

► Glossy monolacquered door

Door in monolacquered MDF on one side with 4 glossy edges. Available in 27 colours.

N.B. Door sizes in this model may vary.

► Glossy lacquered door

Door in glossy lacquered MDF. Available in 27 colours.

N.B. Door sizes in this model may vary.

► "Metal skin" door

Door in metallic and glazed lacquered MDF. Available in 2 colours for some elements.

N.B. Door sizes in this model may vary.

► "Gold" veneered door

Rovere nodato veneered door in 2 open pore finishes, in reconstituted ebony in 2 matt and glossy brushed finishes, and in noce canaletto in 2 matt and glossy brushed finishes.

N.B. Door sizes in this model may vary.

► Glass unit

Door with aluminium frame and etched or lacquered glass in 7 colours.

► Structure

Melamine faced in 1 colour.

► Handles

Technical characteristics

- ▶ **Melamine faced door**
Melamine faced with ABS edging on 4 sides in matching colour. Available in: 3 colours in "larice" finish and 1 in "jungle" finish Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Glossy monolacquered door**
Door in monolacquered MDF on one side with 4 glossy edges. Available in 27 colours. Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Matt lacquered door.**
Door in matt lacquered MDF. Available in 27 colours. Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Glossy lacquered door**
Door in glossy lacquered MDF. Available in 27 colours. Doors for base units or tall units with incorporated handle.
N.B. Door sizes in this model may vary.
- ▶ **Glass unit**
Door with aluminium frame and etched or lacquered glass in 7 colours.
- ▶ **Structure**
Melamine faced in 1 colour.
- ▶ **Plinth**
In Alluminio satinato, Alluminio bianco or Alluminio antracite. H 6 cm.
- ▶ **Delivery times**
See "Production times table" in the General Information section.

Without top, plinth and handles.

A technical line drawing of a corner cabinet. The cabinet is shown from a perspective view, with its two doors swung open. The interior reveals three horizontal shelves and two drawers at the bottom. The top of the cabinet is a square with a recessed area in the center. The drawing uses solid lines for visible edges and dashed lines for hidden internal components.

2 deep drawers.

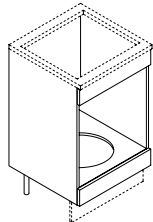

A W. 30"

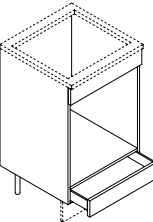

Without top, plinth and handles.

Technical drawing of a cabinet with a glass door and a top shelf. The drawing shows the front, side, and top views. The front view shows a cabinet with a glass door and a top shelf. The side view shows the cabinet's depth and the position of the glass door. The top view shows the cabinet's width and the position of the top shelf. The drawing is a line drawing with dashed lines indicating hidden parts.

2 fixed front panels, housing space H. 59 cm.

1 drawer, 1 fixed front panel, housing space H. 59 cm.
Do not use with gas oven.

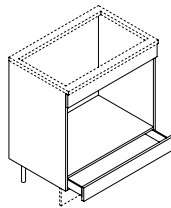

1 drawer, 1 fixed front panel, housing space H. 47.5 cm.

Freely installable waste bin for sink base unit with doors, complete with grey plastic containers, with capacity 19 and 8.5l each The "Over" external fairing is completely in reinforced plastic. H. 34.5 cm

Maximum size:

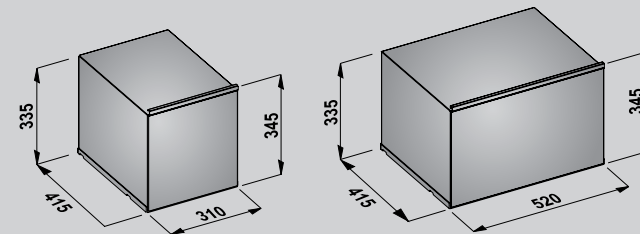

[illegible]

"DELUXE" WASTE BIN

Freely installable waste bin for sink base unit with doors, complete with grey plastic containers, with capacity 19 and 8.5l each The "Deluxe" external fairing is completely in stainless steel. H. 34.5 cm

Maximum size:

Cleaning and maintenance

Technical information

Those who purchase items from the "Linea Gourmet" range must follow a few simple maintenance rules to ensure the product is maintained over time. The following precautions are strictly necessary in order to prevent irreparable damage.

Wood

Remember that wood is a live material, and for this reason may be subject to alterations caused by environmental conditions and use. This "adaptation" to the environment does not mean the product is deteriorating, but rather undergoing those small changes experienced by all natural materials over time.

In order to protect the support, the following simple maintenance rules must be followed:

- 1) Clean the wood support of any dust using non-static cloths or a damp cloth.
- 2) Regularly polish the support using a soft cloth to remove any traces of grease left by fingerprints when replacing utensils or cutlery.
- 3) Avoid using any type of detergent, solvent or abrasive product.
- 4) Store in a dry place at room temperature, given that wood in itself is a natural substance and therefore prone to size variations in the event of temperature fluctuations (curving and swelling of the support).
- 5) Avoid contact with water. If this occurs, immediately dry using a dry cloth.

Forged knives and cutlery

Each knife model is constructed for a specific use. Do not use the knife for other purposes. Avoid bringing the blade into contact with hard materials.

In order to protect the support, the following simple maintenance rules must be followed:

- 1) Knives and cutlery can be washed in the dishwasher, taking care to remove them as soon as the cycle finishes.
- 2) Perform a manual cycle using normal household detergents.
- 3) Take care when sharpening knives with corrosive substances: oxidation is facilitated by sodium chloride, for example. In general, all organic liquids can become damaging if they are left in contact for multiple hours.
- 4) Dry with a dry cloth after washing.
- 5) To ensure the continued performance of the blade, it is recommended to:
 - Hold the sharpening steel and the knife being sharpened with your elbows at waist height and slightly detached from the body.
 - Rest the knife blade on the external part of the sharpening steel and slide it with a slow and continuous movement. Hold the blade against the sharpening steel at an angle of about 15°
 - Repeat this operation with the blade on the other side of the sharpening steel.
 - Pass the knife 2 or 3 times for normal maintenance, and 15-20 times to restore a blunt blade.
 - If a grindstone is used, use specific abrasives and a coolant. Sharpening may cause the loss of hardness and breakage.

18/10 stainless steel utensils

In order to protect utensils, the following simple maintenance rules must be followed:

- 1) Always wash utensils immediately after use.
- 2) Always clean them in the same direction as the satin finish.
- 3) Use neutral detergents.
- 4) Do not rub utensils with:
 - abrasive products, particularly if they contain chlorine
 - steel or synthetic wool
 - metal utensils
- 5) Do not use in hypochlorite washes (bleach) or with detergents containing chlorine or free chloride.
- 6) Dry immediately after washing with a soft and absorbent cloth.
- 7) Dishwasher washing is not normally sufficient to prevent the risk of corrosion, it is therefore necessary to thoroughly dry by hand immediately after the wash cycle.

Non-stick pots

In order to protect pots, the following simple maintenance rules must be followed:

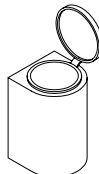

- 1) After washing the pot, grease the internal coating with some butter or oil.
- 2) Always cook at moderate temperatures, never heat an empty pot.
- 3) To increase the lifespan of the coating, do not use metallic utensils, but rather only plastic or wooden ones. Never cut food inside the pot.
- 4) Do not use abrasive powders and/or steel wool to clean the pots. It is sufficient to use hot water with a minimum amount of neutral detergent.
- 5) It is recommended not to wash in the dishwasher with concentrated detergents.
- 6) It is advised not to use non-stick pots on magnetic induction cooktops.

ESSETRE reserves the right to make changes to the products illustrated in this catalogue as it deems necessary or useful, without prior warning, as well as to eliminate or replace various items. Colours are indicative. As the materials are natural, eventual differences in colour with respect to the proposed samples shall be intended as characteristic of the product.

All ESSETRE wooden products are FSC certified.

Made-to-measure element as requested by client

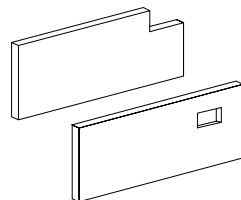

Element	COD	
Base unit	KZ9999K	V*
Wall unit	KZ9996K	V*
Tall units	KZ9995K	V*
Custom-manufactured equipment	KB9999P	V*

- 1) Always send a to-scale design, complete with all the measurements and non-square values if relevant.
- 2) Use of this item allows a high degree of customisation and the development of non-standard elements, for which the final price will be determined for each separate item by Febal technical staff and shown in the order confirmation. The client henceforth accepts that the surcharge indicated in the confirmation has been determined by Febal taking into account the number and types of processes required.
- 3) Quotation and design times are on average 5 working days in addition to the standard; once designed and confirmed by the client, production times will be as standard.
- 4) Made-to-measure elements will be based on standard items modified as required.
- 5) Custom-designed elements cannot be returned under any circumstances.

V* Intervention by our technical office is required for the above-mentioned element. The definitive price is that shown on the order confirmation, see custom-made elements for further information.

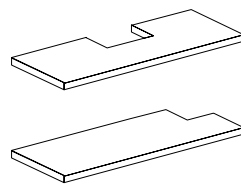

Surcharges for non-standard elements

Back panel processes

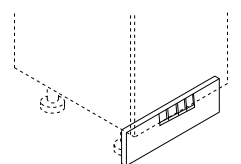

Process	COD	1
Surcharge recess/chamfer process	KZ0202E	26

Surcharge for reduced top and finishing side panel

Process	COD	1
A Surcharge top reduction	KZ0300W	26
B Surcharge finishing side panel reduction	KZ2001W	26

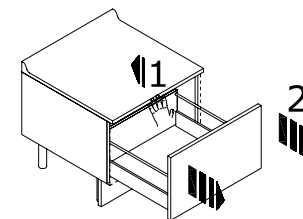

The surcharge for the larger size is added to the standard elements. If multiple processes are required, the surcharge shall represent the sum of all the processes. It is understood that the Company will authorise the production of any non-standard size elements only after these have been accepted by the relevant departments. Glass cannot be exchanged between the various models. Non-standard elements cannot be returned under any circumstances. All non-standard elements, by their very nature, are considered aesthetically inferior to the normal standard offered by Febal Casa.

Surcharges for colouring as per RAL swatch book sample

How to calculate the surcharge:

1) All the listed elements for which the matt lacquer and glossy lacquer columns exist or where the RAL swatch book symbol is present can be created.

2) To calculate the price, add 30% to the price in the 2 lacquered columns. In the case of furniture, as the surcharge is calculated only on the façade, we suggest you consult the loose doors page, which lists the surcharges in the 2 relevant columns.

3) * Metallic colour with price surcharge. For the final price, contact our technical department.

4) Please consult page 30 for delivery times.

COD. KC9037F 5.00
